

SUBJECT INDEX *SPARTACIST*—

Winter 1993-94 to Spring 1998 (Issues Nos. 49-50 to 54)

This volume contains the issues of *Spartacist* (English edition) published from Winter 1993-94 (No. 49-50) through Spring 1998 (No. 54). During the period covered *Spartacist* was published by the International Executive Committee of the International Communist League (Fourth Internationalist). *Spartacist* is the theoretical organ of the International Communist League (Fourth Internationalist), which is published in English, French, German and Spanish.

This volume also contains three pamphlets published during this time period. The materials in these pamphlets could well have been published in *Spartacist* but were produced as pamphlets due to their concentration on a particular subject. They are *Militant Labour's Touching Faith in the Capitalist State*, August 1994, published by the Spartacist League/Britain, and two International Communist League pamphlets, *The International Bolshevik Tendency—What Is It?* August 1995 and *The Fight for a Revolutionary Vanguard Party: Polemics on the South African Left*, April 1997.

Articles that deal with the aftermath of the collapse of Stalinism in the countries of East Europe and the counter-revolutionary destruction of the Soviet Union are listed under **Post-Soviet World**, **USec** and **International Communist League**.

GUIDE TO THE SUBJECT INDEX

- The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed under subject heads chronologically.
- The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus:
Women and Permanent Revolution in South Africa (W&R), No. 54, Spring 1998 (48, 41-46)
means the title of the article, Issue No. 54, beginning on page 48 and continuing on pages 41 through 46.
- No entry is listed twice; see cross-references for guidance in locating the subject head for particular articles. Cross-references are of two types: those following the word "see" deal centrally with the subject head; those following the words "see also" are related articles. Subject heads in cross-references are separated by a semicolon. Thus:
National Question—See **International Communist League; Quebec; South Africa; Ukraine**.
means that articles that deal with the national question can be found by going to the subject heads **INTERNATIONAL COMMUNIST LEAGUE; QUEBEC; SOUTH AFRICA** and **UKRAINE**.
- An asterisk (*) after the page location of an entry indicates that a correction follows.
- Individuals mentioned in articles are usually not listed separately unless the article is primarily about the given person. Entries relating to specific countries are listed mainly under national headings, occasionally under regional ones, as appropriate. Articles that particularly concern political organizations, national or international, are listed under their organizational names.
- Abbreviations used in entries are:
C: Correction L: Letter R: Review
W&R: *Women and Revolution* article

Articles that deal with historical aspects of the Marxist movement are listed under **History of the Marxist Movement**, **Jewish Question** and **Ukraine**; reprints of historical interest are listed under **Archives of Marxism**. Articles that deal with the theoretical aspects of the Soviet Union and its Stalinist degeneration are listed under **Russian Question**.

Beginning with the last issue of this volume, *Spartacist* has published appropriate articles under the *Women and Revolution* masthead. *W&R* had acquired an international readership during the years it was published as a separate journal by the Spartacist League/U.S. from 1973 until publication was suspended in 1997 for lack of resources.

For ease of retrieval, all articles are cross-referenced and pamphlet contents have been categorized by subject.
