FEAR MASSES, BAN FETE NANKING, Oct. 10.-For the first time in the history of the so-called republic of China, which is bought and paid for by foreign imperialists, the 21st anniversary of the founding of the republic was banned by the Nanking government. The official pretext is that "the Manchurian crisis necessiates giving attention to the national salvation instead of to fun and amusement." The real reason is fear that the masses would convert the celebration into a revolu tionary demonstration against the Nanking government and its im perialist masters. SHOW THAT SCOTTSBORO

FOR ALMOST three months now the Daily Worker has been calling on the workers to donate all they possibly can in an effort to raise the \$40,000 which is essential to its life. During these months the response has been widespread, but small. Workers who in previous years were able to donate one and two dollars now find it difficult to raise 50 cents or a quarter. The result has been that, even though almost as many workers contributed this year to the Daily's financial drive, they con-tributed less than a third of the amount they sent in last year.

Right now the Daily Worker has collected less than half of the \$40,000 Emergency Fund. And unless an overwhelming effort is made NOW, the continued publication of our paper will be seriously menaced. The balance of the \$40,000 which was called for in July MUST BE RAISED!

Bayonets and Tear Gas Used on Taylorville Picket Lines Made Up of Miners Marching from Many Centers to Smash 18 Per Cent Wage Cut

Progressive Miners of America Officials Force Convention to Adopt \$5 Wage Scale; Agreement Provides Operators Help Build P. M. A.

TAYLORVILLE, Ill., Oct. 10.—Pickets marched on a Peabody Coal Co. mine here today, the second in this county to try and reopen under the wage cut. Miners, and their wives and children, came from Gilles-pie, Springfield, Tovey, Pana, Virden, Kincaid, Nokomis and other towns, and blocked all the roads to the mine. Militia charged them with the bayonet and hurled numerous tear gas and smoke bombs, finally driving them from the road and letting a few scabs into the mine.

GILLESPIE, Ill. Oct. 10. — The Progressive Miners of America con-vention has completely sold out the strike under the dictation of its officials, and in spite of strenuous re-sistance by rank and file delegates. a \$5.50 scale came out of the meet-ing of the heads of this new union. It was erroneously reported several days ago that \$5.50 had been secured. This was due to a flood of propaganda released by the officials, de-signed to hide the sell-out. For example, the scale committee was told to "get the best contract possible between \$5.00 and \$6.10." The old scale was \$6.10, which the operators and United Mine Workers ordered cut to But now the facts come out the P.M.A. convention has accepted the \$5 scale.

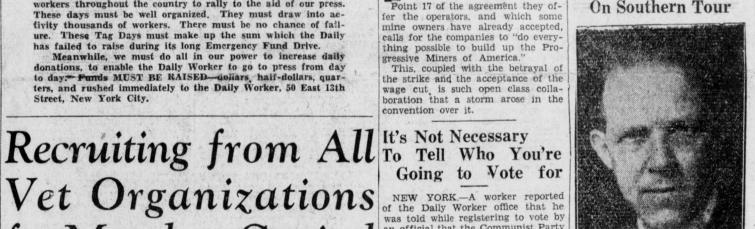

Communist Partu

Point 17 of the agreement they offer the operators, and which some mine owners have already accepted, calls for the companies to "do everything possible to build up the Progressive Miners of America." This, coupled with the betrayal of the strike and the acceptance of the wage cut is such open class collaboration that a storm arose in the convention over it.

MOSCOW, Oct. 10 .- As the culmination of elaborate preparations carried out with tremendous animation, the formal opening of the Dnieper hydro-electric power station the largest in the world, took place today.

In a gallery constructed along the main concrete road were exhibited the portraits of the best 66 shock workers. In workers' boarding quarters, clubs and red corners, the builders of the Dniepetrostroi recollected the days of heroic struggle against nature.

#### Foreign Workers Hail Historic Event.

At a meeting devoted to the opening of the Dnieprostroi, the foreign workers resolved to address an open letter to the workers of the Soviet Union. The letter says:

'We foreign workers and specialists engaged in the building of the Dnieper hydraulic power station-Americans, Germans, Frenchmencongratulate the workers of the Soviet Union upon this tremendous victory of socialist thought and labor. We are proud of participating in this gigantic construction on an and feel, especially on the day of your great celebration, that we are not foreigners but participators in the great celebration. general activity.""

"On the day of the solemn start of the Dnieper hydro-electric power station," the letter continues. OVER a billion dollars to banks, railroads, mortgage companies and other corporations. This is the huge dole that the Reconstruction Finance Corporation, described as "the most powerful peacetime agency ever created by any government," in its reports for the first seven months of operation

During seven months of this year, when total interest and dividend payments to the principal American corporations amounted to over \$4,615,000,000, the U.S. Treasury was handing this same class over a billion dollars in credit subsidy to save certain banks and corporations from bankruptcy and collapse.

While the total wage payments to workers have dropped from 60 to 70 per cent below the 1929 level, the Hoover hunger government, with full Democratic support, leaves the workers without any support or subsidy. Workers are expected to be helped by their fellow workers through the stagger system. Or, if they are still less for-tunate they can eat from garbage cans or starve altogether unless kept half alive by a measly pittance from charity.

At the same time the Wall Street banks and their affiliates and related corporations in all parts of the country make connection with this source of public funds—the R. F. C. It obligingly pumps millions in cash into their coffers. The R. F. C. is bi-partisan. Its chairman is an anti-labor Democrat, Atlee Pomerene of Ohio.

WORKER without a job, with a sick wife and hungry children, is "in-A vestigated," and, if he is very lucky, gets, in New York City, the sum of 80 cents a week per head on which to "subsist." But a million dollar stock-watered corporation, after voting \$75,000 Balaries and \$100,000 bonuses to its executives, and after cutting wages and laying off half its workers, is rewarded with a title to new wealth. It is given an accomm dating loan by this all-powerful government corporatoin-the R. F. C.

This is the "equal opportunity" enjoyed by the "favored" and the poor under capitalism, a system supported wholeheartedly by the Hoover-Democratic coalition Congress that passed the law creating the R. F. C.

Who are the beneficiaries of these enormous government handouts? The Hoover administration and these who have benefited have fought tooth and nall to stop any publication of the names of the corporations that have received these floods of credit. So only a few of the names have so far been made public. But the little that we know is sufficient to show the character of the institutions that have been feeding at the trough while the masses are starving.

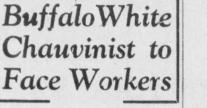

For the first seven months the loans made include those to 4.324 banks and trust companies; 391 receivers and liquidators of closed banks; 79 insurance companies; 68 mortgage-loan companies; 43 railroads and 6 receivers of railroads, not including several to various credit corporations, building and loan associations and similar private corporations.

THE partial list published of individual corporations receiving aid from this government agency includes scores of the biggest banks, trust companies and railroads operated from Wall Street, with millionaires and leading bankers on their boards of directors. The list of railroads has been made public already because the Interstate Commerce Commission must first pass on their loans. The list of railroads includes such antilabor corporations as New York, Chicago and St. Louis Railroad, Central Railroad of New Jersey, Chicago and Northwestern Railroad, Pennsylvania Railroad, Denver & Rio Grande Western Railroad, Minneapolis, Paul & Sault Ste Marie Railway Co., Chicago, Milwaukee, St. Paul & Pacific Railroad, Pittsburgh & West Virginia Railway, Baltimore & Ohio, Lehigh Valley, Chicago, Rock Island & Pacific, Cincinnati Union Ter-minal, Western Pacific Railroad, St. Louis, San Francisco Railway, Chicago, North Shore & Milwaukee, Erie Railroad, Main Central, Chicago & Eastern Illinois Railway, Central of Georgia, Sothern Railway, Nickel

All of these companies have been laying off workers, "staggering" those kept on the pay roll and joining in the concerted move for another 10 per cent slash in rialroad wages.

The record of the loans directly to the banks is even more scandalous. The banks that have been squeezing the blood out of the farmers and foreclosing on the mortgages of petty property owners and workers are the very ones that have been, without the promise of any more lenient policies, pulling large chunks of credit out of the R. F. C.

The Morgan banks are reported to be the chief beneficiaries of the R. F. C. loans to date, and the bonds issued by Morgan are regarded as the most acceptable collateral for loans from this government pork barrel. The New York Central secured money to pay off notes to Morgan and other banking houses. Similar pro-Morgan loans have been made to other

PARTY LIFE

HE Communist Party of Buffalo has decided to organize a mass trial against one of its members with white chauvinism. The workers at this trial will de-cide whether James Moorehouse has a place in the revolutionary movement. Because of the importance of purging our ranks of the upholders of the ideology of the master class, and the methods to be pursued in this cleansing process, we wish to relate the experiences of this case.

#### SOCIALIST PARTY POISON

James Moorehouse was connected with the revolutionary movement in England. When he came to Buffalo about nine years ago, he immediately got hooked up with Rev. Hahn's church because, ac-cording to him, he "could not find the Communist Party" and that Rev. Hahn (the demagogic "left" Socialist of Buffalo) was "as good a Communist as can be found in the city." Only about a year ago Moorehouse joined our Party. However, with him he brought not only such corrupt Socialist Party theories such as "unemployment insurance if paid to the workers by the government will weaken the revolutionary movement; the workers should be starved more, such an insurance will take their incentive away, etc." He also carted over the ideology of the slave market, white chauvinism, with which he was soaked through and through and which he refused to discard

after joining our Party. After some time Moorehouse be came the secretary of the Work-ers' International Relief. This organization is functioning in the heart of the Negro territory. Un-der his "leadership" not one Negro could find room in this organiza-tion in spite of the fact that he claims to have built up the W.I.R. to a membership of about 90.

MOOREHOUSE was for some time in charge of the Workers' Center, which is also located in the Negro section of Buffalo. Before opening the center, he found Negroes to clean the place, repair it, run errands, etc.; at the grand opening he found Negroes to cook the banquet food, wash the dishes, work all evening in the kitchen. "I heard a Negro quartette ask Moorehouse to be placed on the program to sing; he refused and said that the program is filled," according to charges presented by Comrade G. G. of the League of Struggle for Negro

Rights. From a similar statement pre-sented by R. "The W. I. R. had a picnic in Humboldt Park. There was one group of Pioneers that was entirely left out. There were mostly Negro kids who came out early in the morning and waited the Workers' Center to be taken to the grounds. They came again in the afternoon and told me that there was no room for them. Not a single Negro child was at this picnic, but plenty of white kids."

## Against Imperialist War; **Call to Socialist Workers**

#### By WILLIAM SIMONS, Delegate of the Anti-Imperialist League of the Amsterdam World Congress Against War

Socialist workers, why not unite our forces in a common struggle against imperialist war and for the defense of the Soviet Union? True, your leaders are opposed to it, but should that stop the necessary unification of all proletarian forces for an effective struggle against imperialist war?

The World Congress Against Imperialist War was held at Amsterdam, Holland, August 27-29. The leaders of Second International and of the Socialist Party of America declared their opposition to this Congress. They called upon all Socialists to boycott the Congress preparations and the Congress itself, on the ground that it was "Communist maneuver" only that Romain Rolland, Henri Barbusse, Theodore Drieser and scores of other internationally known men and women were mere puppets in a Communist Punch and Judy show. The New Leader echoed the statement of the leaders of the Second International. The New York local of the Socialist Party issued a similar "warning" in the New Leader. Socialist Workers Came

But 291 workers, members of the Second International, came as delegates to Amsterdam, despite the order of Fritz Adler of Austria, Vandervelde of Belgium and Leon Blum of France. Were these dele-gates "maneuvered" by the "wicked Communists"? Were they fooled by them into doing something they did not want to do, something not in their interests, something not in the interest of the working class? In an article in "Le Populaire," French Socialist paper, Renaudel one of the leaders of the Socialist Party of France, "pitied" the poor socialists who took part in the Amsterdam Congress. But the Socialist Party of France has not stopped with mere pity. Recognizing the growing influence of these socialist elegates among their fellow socialists who elected them, the Socialist Party leaders are taking steps to expel these revolutionary workers from the Socialist Party of France Expulsion-for what? For having taken part in the Amsterdam Con. gress, for having dared to unite with Communist workers, with nonparty workers, with intellectuals. FIT COMPANY FOR

REVOLUTIONARY WORKERS Was attendance at the Congress a crime? There were 2,195 delegates at the Congress, of whom 1,861 were workers, including Belgian striking miners. Lancashire textile strikers, revolutionary sailors from the Italian navy, the leader of the British naval mutiny at Invergor-don, workers from the colonies. several hundred intellectuals And some of the best known in the world, among them Henri Barbusse and Anderson Nexo. Many Com-munists, including those who stood out against the last imperialist war in 1914, the Japanese veteran, Sen Katayama, and the dynamic Willi Muenzenberg. Should any revolutionary Socialist worker be ashamed to be in this gathering?

But the Adlers and Vanderveldes know well that they cannot defend by the Congress. their position before any gathering of revolutionary workers. They can not defend their action of 1914. when they made common cause with their national bourgeoisie, nor can they defend their present acwhich is a du on of 1914. ADOPT SPECIAL RESOLUTION

But the Socialist worker delegates did more at Amsterdam. They adopted a special resolution of their own, and they created an International Bureau of nine to organize the rankand-file Socialists for stuggle against imperialist war. Are you not in agreement with this resolution?

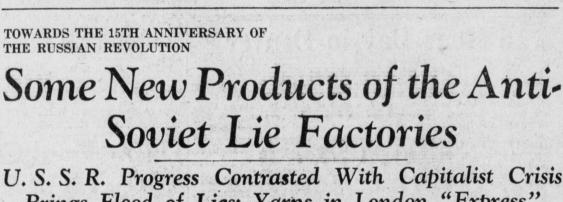

"We, 291 members of the Second International, delegates from various organizations to the Am-sterdam Congress held at Amsterdam, August 27-29, regret the absence of the leaders of the Socialist International from this hictoric International event. We decide to work zealously within our respective organizations to win them over for a united front against war and for the defense of the Russian Revolution. We consider that war will be made impossible only through the overthrow of capitalism. We reject every idea of national defense under a capitalit regime. In case the united efforts of the proletariat against imperialist war do not succeed in preventing it, we pledge to do everything in our power to transform it into a class war, for the seizure of power by the workers and peasants. We furthermore express our determination to work ceaselessly for the liberation of oppressed per-

What do you think of this re-solution socialist workers? Do you not agree with it? Then why do your Hillquits and Thomases remain silent about this resolution? Why do they fail to publish the ge taken by the Congress? Why

In the case of the Missouri Pacific loan, involving \$12,800,000, the deal was so raw that the Interstate Commerce Commission approved it only with "reluctance," stating that it was against the use of government funds to "bail out" the banks. But just the same it authorized handing over the money to Morgan and Kuhn Loeb & Co.

DANKER CHARLES G. DAWES, who had fleeced over 4.000 depositors D in the notorious Lorimer Bank scandal some years ago, was the first head of the R. F. C. While he was in this position, however, his own bank, the Central Bank & Trust Co. of Chicago started to founder, and cried for cash. Although Dawes had allowed 40 or more smaller banks in the vicinity of Chicago to go on the rocks without his aid he immediately came to the rescue of his own. He resigned and a few days later his bank in Chicago received a R. F. C. loan of \$85,000,000!

The Hoover administration talks glibly of the "constructive nature" of these loans and their alleged effect on the welfare of the workers, etc. But the loans to the railroads, for example, have resulted in putting no workers back on their jobs. In fact tens of thousands more have been "bumped off" from their jobs. The R. F. C. is thus only an agency to bankers-preferably big ones-and their clients. It is, furthermore, one of the agencies through which inflation-increasing the prices of workers' food, clothing and necessities-is being brought about. The pumping of billions into the bankrupt concerns does not alleviate the crisis, but only drags it out, and makes the lot of the workers more intolerable

The huge credits from the Reconstruction Finance Corporation are only part of the relief to capital that has been poured out since the crisis began. In her pamphlet, "Wall Street," just issued, Anna Roches-ter describes the enormous tax refunds made by the Mellons and Mills to their class-sums amounting since 1922 to over \$3,000,000,000. Other government agencies, such as the Tariff Commission, the National Credit Corp., are likewise engaged in helping the plutocrats at the expense of the masses. . . .

WORKERS-stop the subsidies to the bankers! Build up the united front for relief and Unemployment Insurance, which are central demands of the Communist election campaign. Vote Communist!

In England however, there has been found a paper which has attempted a new trick. The readers do not want to hear anything more from "Riga". They no longer be-lieve what the reporter in "Riga" writes about conditions in Moscow, Say the bourgeois editors, very good, we will send our own correspondent to Moscow and instruct him to write as he were in "Riga." This paper, this jewel in the crown of Lord Beaverbrook, the newspaper king, is the "Daily Exwhich has a mass circulation. Two circumstances induced Lord Beaverbrook's hirelings to attempt a new trick: (1) the necessity to increase the anti-Soviet campaign in connection with the protest which the English press. (including very influential organs,) has raised against the tendencies of some British circles to establish closer contact between Great Britain and the Dominions especi-Buy with Canada, at the cost of the trade with the Soviet Union, and (2) to fulfill the demand of Mr. Bennett, the Canadian Prime Minister, that the imports of the Soviet Union to England be restricted, even at the risk of England losing Soviet orders and un-

employment increasing in England as a result. Further, there is the necessity of obliterating the favorable impression which the articles and declarations of English politicians and journalists on the impressions of their visits to the Soviet Union has made on the English public. This applies especially to the articles of 15 English journalists and representatives of various well-known bourgeois and labor papers.

#### "MEET MISS CLYMAN."

The "Daily Express" correspond-ent in Moscow Miss Rhea L. Clyman was commissioned some time ago to supply Lord Beaverbrook's press with the desired material. Miss Clyman eagerly seized on this chance of rendering the desired service to her employer. "Red Troops Fire on Starving

THIS BASE invention is not the first of the series of reports in the Riga style. A few days previ-ously, in the "Daily Express" of Sept. 5, there appeared with splash headlines on the front page the following report from Miss Clyman:

"The approach of the worst winter in Russia since the great famine ten years ago was heralded today by two drastic crees issued by the Soviet Government.

"The first orders a reduction by approximately 50 per cent of the present food rations of Russians and foreigners working in Rus sia . . . The hundreds of foreign specialists employed on the Five-Year Plan . . . will find living desperately difficult this winter. SENSATIONAL LIES.
