

The Fight

AGAINST WAR AND FASCISM

Section Two

They Shall Not Come!

THE Fascist war-makers are ravaging Spain. Elsewhere in this magazine is told the story of their bloody assault on the living flesh of the people of that country. In the end, they will not win; for the Spanish people have sworn, "They shall not pass; we shall pass!" But meanwhile, these maniacs have plunged Spain into a horrible civil war.

We Americans are proud of our Democracy. In the end, we are confident our people will have their way in matters of government. But we too have seen the reactionaries launch a war against the duly elected government—that of Abraham Lincoln. The American people too have on occasion paid with their own lives for their lack of early vigilance against traitors.

And as you read these lines, the "American" Fascists are organizing throughout the land. Big capitalists,

military men and vigilante chiefs are talking of wiping out the people's expressed will with bullets.

Having suffered an overwhelming defeat at the polls, the reactionaries of this country are growling about a "march on Washington," are hinting at assassination of elected officials. In Chicago and in Dearborn, Michigan, in scores of steel and auto towns, the little Hitlers of

Big Business are trying to drown the people's liberties in blood. The economic royalists are founding vigilante, Black Legion and Ku Klux societies as never before. These are the rattles of the snake of Fascism!

What guarantee have we that the Fascists will not duplicate on American soil the tragedy of Spain? We have only one guarantee: the conscious, organized determination of the American people that *they shall not come!*

THE FIGHT exposes the Fascist schemes, welds the steel front of the people against reaction. Subscribe today to THE FIGHT, America's leading anti-war, anti-Fascist magazine.

THE FIGHT, August 1937

ON THE DOCKS OF SANTANDER, by H. J. Glintenkamp

Two Republics

One hundred and fifty-five years after the establishment of our own republic, another republic came into being. The year—1931. The place—Spain. A feudal state and with it feudal exploitation—many centuries old—were swept aside by the genius of a people, long suffering from a rule which was as brutal as it was decayed. A feudal state! A feudal army! A feudal system! What did the people want? Simply, Democracy.

The great desire for Democracy on the part of the Spanish people, we here in America understand. (Fifty years ago we would have understood it at once. Even twenty-five years ago, we would have understood it better than today.) What has happened? Why this cry of "Communism" and "Reds" from our reactionaries when the Spanish people are defending their regularly established democratic government against the Fascists? Do they no longer trust the rule of the people? Why are they afraid of Democracy? Has it come to pass that the Democracy of Abraham Lincoln, Walt Whitman and Thomas Jefferson is growing too strong for them? Do they fear that a real people's government will break their dictatorial grip on the nation's life?

Whatever is the answer, one thing is real and certain: the common people are uneasy and restless. The men and women of Spain are fighting and dying on the barricades and in the trenches, for their right to live and work and be free human beings. The common people everywhere are with the Spanish people in this struggle for Democracy and peace.

This number is dedicated to the men and women of Spain who are giving their all so that *they and we* may be free to live a happy life. The artists, writers, and workers of America who have made this number salute their brothers in Spain.

Antigone

By George Rickey

Antigone's brothers slew each other in civil war, fighting for and against a usurper. She then suffered death for her act of piety in burying the brother she loved, who had fought against the usurper.—*The Antigone of Sophocles*

"Paul, who are the Spanish Reds?"
"That means us."

WHO is who and what is what in Spain today? Do you know? Or do you know only what you read in the papers?

SPAIN'S DEMOCRACY TALKS TO AMERICA. An interview with Representatives of the Government of Spain; 18 pages; 3 cents.

This pamphlet, reporting the exact words of nine leading representatives of the Government and Popular Front parties, tells who's *who* and what's *what* in Spain today.

THE FASCIST INTERNATIONAL, by Harry F. Ward; 8 pages; 2 cents.

This brilliant analysis tells *why* Germany, Italy and Portugal are backing Franco's military revolt, and *how* it is that they are permitted a free hand despite the protests of the civilized world.

AND THAT IS NOT ALL!

Fascism is threatening the United States and every other nation!
