BELOVED CHAIRMAN MAO WILL LIVE FOREVER!

The Party Committee of the Workers' Institute of Marxism-Leninism-Mao Tsetung Thought which upholds the leadership of the Central Committee of the Communist Party of China received the news of the death of our most respected and beloved great leader and teacher, Chairman Mao Tsetung, with deepest grief. Beloved Chairman Mao always taught us that "of all things in the world, people are the most precious" and that "people and the people alone are the motive force in the making of world history". In the course of making history in their arduous struggles against feudalism, colonialism, imperialism and hegemonism and all reaction in the past half century and more the people of the world, in particular the international proletariat, produced in the person of beloved Chairman Mao, their greatest liberator and hero, the finest Communist in history who has given the greatest gift to mankind -- invincible Mao Tsetung Thought -- the acme of the science of Marxism-Leninism -- which will shine forever, lighting the path of mankind in its forward march!

The brilliant proletarian revolutionary that he was, Beloved Chairman Mao upheld the communist spirit of self-sacrifice and served the people of China and the world till his last breath. Through the earth-shaking Great Proletarian Cultural Revolution which he launched in 1966 to carry forward the bright red banner of the Great October Socialist Revolution which has been betrayed by the Khrushchov-Brezhnev fascist clique, beloved Chairman Mao has consolidated China as the base of world revolution and painstakingly built the three magic weapons that the people of the world have to vanquish their principal enemies today, the two rapacious and hegemonic superpowers, the United States and the Soviet Union -- the great, glorious and correct Communist Party of China, the invincible People's Liberation Army of China and the powerful International United Front of the people of the world, in particular the people of the Third World, around Socialist China. The world is now poised to witness the greatest offensive that fighting mankind has ever undertaken to dismantle the old world and usher in THE NEW WORLD of socialism. Victory of world people's revolution and the establishment of the INTERNATIONAL DICTATORSHIP OF THE PROLETARIAT under the leadership of our heroic Party and with our proletarian international army as the main pillar so that mankind can march onward to communism are of immediate significance. Anyone who grasps firmly Chairman Mao's theory of continued revolution under the dictatorship of the proletariat will see the necessity for this at this stage in world history. In fact, the objective merging of the three historic movements in the world: (a) the socialist revolutionary movement, principally the Great Proletarian Cultural Revolution in China, (b) the national democratic revolutionary movement (particularly people's war and the struggles by the Third World countries for a new international economic order) and (c) the spontaneous mass movements in the imperialist heartlands (e.g. strikes, occupations, demonstrations, etc.) shows only too clearly, to anyone who cares to see, the excellent situation in the world today. No diversionary tricks by the agents of the fascist bourgeoisie within the working-class movement in the imperialist heartlands such as the revisionist scum, the trotskyite miscreants, the trade union scabs or even those who wave the banner of Chairman Mao to attack Chairman Mao's forces, can cover up the objective reality that THE NEW WORLD for which beloved Chairman Mao worked all his life is about to be born.

To win victory of world revolution and to consolidate it tens of millions of successors of Chairman Mao have already been trained by our Party Central Committee and Chairman Mao, moulded in the noble image of our great teacher. These contingents, the proud soldiers of Chairman Mao and the humble servants of the people of the world are schooled in Marxism-Leninism-Mao Tsetung Thought and to take class struggle as the key link. They have vowed to carry on the cause left behind by Chairman Mao and to win greater glory for Chairman Mao's proletarian revolutionary line. Comrades of the Workers' Institute, working in the imperialist heartlands, are an integral part of this fighting army. We will overturn heaven and earth to ensure that beloved Chairman Mao lives in us and the generations that will succeed us!
