**A British State conspiracy involving PMs, Home Secretaries, Police Chiefs (Met), Judges, Lawyers, Charity leaders & others is torturing this innocent man and keeping him unjustly imprisoned**

- In his wife's testimony she says: "His life has been brutalised by harsh unbearable tactics adopted by prisons, which have led to his complete and utter isolation from the outside world". She says, "It's like being buried alive!"
- In his 80s he has been:
  - isolated for prolonged periods of time
  - drugged by prison authorities, affecting his faculties
  - denied letters from wife/friends & sometimes calls to his wife
  - separated from fellow prisoners he had made connections with
  - denied visits in last 8 months (since last October) due to COVID
  - denied any audio connection during wife's first visit in June '21
- Over 5 years he has been moved to 5 different prisons and conditions have dramatically worsened in the last year. In September 2020 he was isolated in The Verne Prison and in December he was suddenly transferred to "hellhole" Dartmoor Prison while a serious outbreak of COVID-19 was underway there
- Based on an investigation done by Nils Melzer, the UN Rapporteur on Torture, into the condition of Julian Assange in Belmarsh Prison, the treatment of A. Balakrishnan amounts to psychological torture
- His daughter Katy Morgan-Davies whose false allegations led to his imprisonment now says, "...it feels too much like revenge!"
