U. S. Slipping in Race of Countries for Russian Trade; Furnishes 15 Percent

By CHARLES P. STEWART.
(Electric Cable Press Dispatch to The Daily Worker)

WASHINGTON, Jan. 6.—American manufacturers, in the last year only 15 per cent of the total value of the cable and electric cable equipment sold in the United States was supplied to Russia. The total value of the exports of cable and electric cable to Russia was $45,000,000. In 1925, the exports of cable and electric cable to Russia amounted to $443,744.27.

The cable and electric cable industry of the United States is in a serious financial crisis, and has been hit hard by the depression of recent years. The cable and electric cable industry, however, is larger than it was before the depression, and is now producing more than ever before. The cable and electric cable industry has been able to maintain its position, and is now producing more than ever before.

Senate Storms Against Nicaraguan Action

(Continued from page 1)

As a result, the new cabinet is to be formed by President Coolidge, who has been appointed as Secretary of State. The President has already announced his intention to seek the re-election of Senator Walsh in 1920 as a member of the Senate. He has also said that he will oppose any measures that would interfere with the plans of Congress for the peace of the world.

The Republicans have rallied behind the President and have issued a declaration of support for his policies. They have promised to work for the re-election of the President in 1920 and to protect the peace of the world.

The Democrats have also issued a declaration of support for their programs. They have promised to work for the re-election of Senator Walsh in 1920 and to protect the peace of the world.

The two parties are engaged in a bitter struggle over the issues of the campaign. The Republicans have called for the re-election of Senator Walsh in 1920, while the Democrats have called for the protection of the peace of the world.

The outcome of the election will be determined by the votes of the people of the United States. The Republicans have a strong lead in the polls, and it is likely that they will win the election. However, the Democrats have promised to protect the peace of the world, and it is possible that they may win the election.
