Defend the Soviet Union!

From page 1 today the Daily Worker gives a graphic picture of the present condition, picture of the present condition of the world's war and modern imperialism. Our campaign for the annihilation of war is as necessary as the struggle for the annihilation of imperialism. It is the only way to a world of peace.

We have announce an intensive campaign for the defence of the Soviet Union. We have launched a popular campaign in the United States and Canada to call for the annihilation of war and the protection of the Soviet Union.

The Soviet Union is the only country fighting against the capitalist system. It is the only country fighting against the war. It is the only country fighting against imperialism.

In the Soviet Union hundreds of nationalities formerly belonging to the Tsar and Russia are living in peace and dignity. They are living in the land of their birth, speaking their own language, and earning their living by their own efforts.

The Soviet Union is the land of the working class. The workers are the masters of the land. They own the factories, the mines, the banks. They are the masters of the land.

The workers are also the masters of the government. They elect the government and they rule it. The government is elected by the workers and it is responsible to the workers.
