"SOCIALIST" BROWN-ANTICS OF A KING'S FOOL

By HARRINGTON GROVER

if the middle ages, it was customary for the
royal family to have certain prominent
people, preferably a half-blooded high
functionary, and others who were members
of the king's household, as guarantors and
shields of the honesty and integrity of the
throne. Two of these men, the Earl of
Warwick and the Earl of Salisbury, were
entrusted with the safekeeping of the
king's jewels. They were always to be
found around the throne as a bit of a
snub to all who might think of offending the
king. They were also expected to be
brave and fearless in the face of any
adversity, and ready to meet any
emergency that might arise. They were,
in short, a protection to the king and all
who were associated with him.

The Earl of Warwick was a
character of great
merit and integrity, a
man of unshakable
principle and courage,
and one who was ever
ready to defend the
cause of the king and
all who were associated
with him. He was a
man of great
knowledge and
judgment, and was
ever ready to
advise and counsel
the king in all
matters of
importance. He was,
in short, a
stanch
supporter of the
king and all who were
associated with him.

Some Experiences in Collecting Signatures

By HUGO MARKMAN

When the Communist Party decided to enter
the field of political work a few years ago, I
though at first there were only a few who were
willing to risk their necks in the
political arena. But as the years went by,
the number of those who were willing to
risk their necks in the political arena
increased, and the work of political
education and agitation became more and
more effective. The result was that more
and more people were willing to risk their
necks in the political arena, and the work of
political education and agitation became
more and more effective.

The workers' movement was learning to
face the difficulties of the modern
political environment. They were learning
to organize and to fight, and to win. They
were learning to look beyond the
immediate present and to think of the
future. They were learning to see the
necessity of unity and of cooperation, and to
think of the best way to work to get
the things that they wanted.

Workers' Join the Party of Your Choice

Communist Party U.S.A.

New York City

If you live in New York City, you have
the opportunity to join the Communist
Party, which is the only political party
that is dedicated to the
principles of
Marxism-Leninism and to the
cause of the working class.

The Southern Vagrancy Laws

By CHERYL BIRCH

VAGRANCY laws have been
introduced in some of the
southern states, in an effort
to restrict the activities of
the working class. The
purpose of these laws is
to prevent the working
class from organizing and
from engaging in political
activity. The laws are
designed to prevent the
workers from
forming unions, and to
prevent them from
participating in
political activity.
