Says U. S. Oil Trusts Fight on President's Good Neighbor Policy Gives Aid to Fascism

MEDELLIN, Feb. 4.—The alert of the American continent against the threat of fascist penetration is being heedlessly ignored by the rival Berlin-Tokio alliance, Karl Browder, general secretary of the Communist Party, charged before the Seventh Communist Party Congress of Mexico, meeting here.

Rotten Eggs—And the Herald Tribune

"We are not advocates of either rotten eggs or vegetables."

We have always preferred both fresh eggs and vegetables to rotten ones. Rotten eggs are not suitable for consumption and vegetables are nutritious. If we were to offer them to you, they would be unsuitable for any further use. Our attitude is that you should not accept them because they are not fit for human consumption.

"...and that is the point..."

You are correct in your assessment. Rotten eggs and vegetables are not suitable for consumption. It is important to ensure that we provide you with fresh and healthy options. We apologize for any confusion and assure you that we will ensure that our offerings meet the necessary standards.
