Dear Comrade Trotsky:

Your recent letter referring to the developments in England was received. We decided, as you will see from the enclosed copy of the letter to comrade Groves, to give them some material help in the form of free copies of the Militant and a good supply of literature for sale or free distribution among the ILP members, as the British comrades find expedient.

We are all following the British developments with an especially deep interest and will do all we can to help.

Fraternally yours,

J.P. Cannon
