A COAL MINER APPEALS FOR HELP

A COLUMBIA MINER SPEAKS AT OLYMPIC LAWYERS ARE ABUSED MINERS KILLED DAILY— COURTS ARE NOT FOR THE WORKMEN.

Coal Mine—The Great neuron miners’ compensation and the United Mine Workers,. . .

Another victory for the C.G.T. This time the union leaders battled the government and won. In the case of the coal miners’ compensation and the United Mine Workers’ organization, the struggle was against the courts.

Domestic workers, many of whom have been deprived of their homes, and even more so of their wages, are often victims of violence and discrimination. It is necessary to support the unions and their demands for justice. The struggle for the eight-hour day and against the exploitation of labor is a struggle for human rights.

PREPARE FOR VICTORY

Cam Against Class—Use Modern Methods—The Defence of the Peace

Working-class this country will soon succeed in establishing a national eight-hour work day the 3d of May, 1912, or next.

Small strikes or strikes which are being mounted in some of the larger cities are being reported. It is not clear whether they are strikes for better conditions or strikes for increased wages.

Believe in contracting slaves to the master

Wages are rising, and employers are being forced to pay higher wages. The demand for the eight-hour day is growing stronger by the day.

A随意的谎言 or a full report on the situation?

When the working-class country will be found to be successful in establishing a national eight-hour work day, the working-class country will be much more powerful in its efforts to gain better conditions for the working-class country.

MINER WORKER IS AGAINST STRIKES

President Wilson Delivers a Speech in Annual Report at Convention of Mine Workers

The President of the United Mine Workers,coming from the convention at a speech at a meeting in the capital city, expressed his belief that the strike is the only way to get better conditions for miners.

I don’t need a new world

The President called for an end to strikes and for the miners to return to work.

On the job, a round-about way of trying to make a buck. The working class must not accept this.

The working class must be organized.

The organization of the trade of the miners must be strengthened.

The miners must be organized to work together.

The miners must be organized to fight for better conditions.
