By WILLIAM T. FOSTER

The Convention of the Eastern District of the United States,
which met in New York on May 30th, will be called
a "militant" convention, the militant forces being
represented by the delegates of the New York, Chicago
and San Francisco locals. The convention is
expected to deal with the many problems facing the
working class in the East. The delegates from the
New York local will be the most important, as they
represent the heart of the working class in the United
States. The convention is expected to pass a number
of important resolutions, including a call for a
general strike and a demand for the overthrow of
capitalism.

socialist, and admitted Daniel Bitner,
another socialist leader. Howat had
been engaged in several organizing
activities in the United States and
Canada, and his banning is expected
to be a setback for the socialist
movement in both countries.
