On the Seventh Anniversary of Our Party

Seven Years of the Communist Party.

The Communist Party came into existence in this country on September 19, 1919 by the merger of the Socialist Labor Party and the Industrial Workers of the World. The party consists of the American workers and peasants in New York City.

The workers of this country who were fighting with the workers of other countries in the struggle against the capitalist system, were the ones who were most active in the actual struggle of the workers for the emancipation of the working class. The party was formed for this very purpose, and as a result of the achievements of the workers, has gradually grown into a mass party.

William F. Dennen

Most Conscious Forces for the New Army

SEVEN years of the Communist Party in the United States! This is a very historic movement. In the history of society, the history of class struggles, even decades are not a long time.

Yet, in less than a decade, a new force, the most conscious and best organized capital class in the world, the Communists, has emerged. They have fought not only for the complete and immediate abolition of the capitalist class, but also for the building of a new society.

The Workers (Communist) Party is a new and revolutionary force in the world. It is the movement of the working class, the movement of all who are fighting for a new society. It is the movement of the workers for the emancipation of the working class.

The Workers (Communist) Party is the movement of the workers for the emancipation of the working class. It is the movement of the workers for the emancipation of the working class. It is the movement of the workers for the emancipation of the working class. It is the movement of the workers for the emancipation of the working class.

W. Z. Foster

A Mass Party It Must and Will Become

The seventh anniversary of our movement is being celebrated at the time of its greatest strength. The achievements of the past year have been marked by a steady and continuous increase in the power of the workers. The party has grown from a small handful to a mass party. The party has grown from a small handful to a mass party. The party has grown from a small handful to a mass party. The party has grown from a small handful to a mass party.

Every American worker should join our ranks and help to strengthen and enlarge the power of the party. Every American worker should join our ranks and help to strengthen and enlarge the power of the party. Every American worker should join our ranks and help to strengthen and enlarge the power of the party. Every American worker should join our ranks and help to strengthen and enlarge the power of the party.

J. W. Johnston

Young Communists

Greet Party Anniversary

The New York-based American working class of the last generation. The young workers of the last generation have fought for the emancipation of the working class. They have fought for the emancipation of the working class. They have fought for the emancipation of the working class. They have fought for the emancipation of the working class.

The New York-based American working class of the last generation. The young workers of the last generation have fought for the emancipation of the working class. They have fought for the emancipation of the working class. They have fought for the emancipation of the working class. They have fought for the emancipation of the working class.
