UNIONIZE YOUTH

(Continued from page 3)

The case of the Plumbers and Steamfitters is typical. On April 25th, the Supreme Court of Illinois held that the Plumbers, when they reported an a. m. meeting, were in violation of the law, and the employers, who reported an at. m. meeting, were in violation of the law. The case of the Plumbers and Steamfitters is typical. In this connection, the Supreme Court of Illinois held that the labor unions in the case of the Plumbers and Steamfitters are entitled to organize themselves in a single union.

A Wrong Viewpoint.

This is not an argument against the idea that a union is a closed corporation, whose bargaining power depends on the supply of labor. It is true that this is the primary cause of the union's ability to negotiate with employers, and that it is a crucial factor in determining the success of a union.

It is misleading, however, to imply that a union's strength is solely dependent on the supply of labor. A union's power comes from its ability to organize and negotiate with employers, as well as its ability to mobilize its members. A union's strength is determined by its ability to organize and negotiate with employers, as well as its ability to mobilize its members.

The American trade unions are more than a means to an end. They are a means to an end.

It is important to recognize that trade unions are more than a means to an end. They are a means to an end.

IMPERIALISTS THREATEN WAR ON CHINA AND SOVIET RUSSIA

The developments since the beginning of the Russian Revolution, which have resulted in the formation of the Soviet Union, have been accompanied by a number of important events. These events have had a significant impact on the international scene, and they have had an impact on the trade union movement as well.

A Bright Idea.

He ideal is not to stop the war, but to make it more efficient and effective. This is the ideal of the labor unions, which is to organize and negotiate with employers, as well as to mobilize its members. FIRST ANTI-IMPERIALIST WORLD CONGRESS

BY MANUEL GOMEZ, Secretary, Anti-Imperialist League (U.S. Section)

I
HAVE just returned from Brussel's 2nd Anti-Imperialist Congress, held in the autumn of 1904. The Congress was one of the first true international congresses of labor and the world's working people to which the British, French, German, Russian, Italian, American, and others, had been invited. The Congress was attended by labor delegates from 15 countries. The Workers' Slogan was: "No interference with China!

THE WORKERS' SLOGAN

"No interference with China!" was the Workers' Slogan at the Anti-Imperialist Congress in Brussels. This slogan was adopted by 15 countries and reflected the united front of the world's working people against China's imperialist aggression.

PIOUS IMPERIALISM

The "pious imperialism" of the British imperialists is a cover for their imperialist wars. The British are trying to present China as an "backward" country, which requires their "civilizing" to save it from the "barbarous" Chinese. This is a propaganda tactic to justify their imperialist policies and to cover up their侵略 activities.

"If the devil himself, assuming human form, had entered to bring misery on man and lead him into hell, could he have devised anything more deviant than Bolshevikism?"

"Protect Property Rights!" The Workers call for protecting property rights and preventing the harassment of the property owners.

"It is not only absurd, but also dangerous, to think that one can take care of all our surplus products; and there is no doubt that the workers of the world will see to it that the products of the capitalist countries are not used for their own benefit, but for the benefit of the working class."

"In conclusion, the congress was a historic event, and the workers of the world must take part in it, as it is their own congress."
