Foster Writes to Metal Workers' Conference

By P. E. DENHOLM

SOLDIERS of the world, unite! Propaganda is to be pushed through the metal industry. The so-called socialists in the trade unions are merely new forms of the old bosses. The union you are talking to is the same union that betrayed the great steel strike in 1919, and is only a blind for the A.F. of L. reaction—its followers must be ready for the new fight. Great efforts should be made to organize the metal workers. 

We are forming a committee to fight the bosses for the workers. The organization campaign following the metal workers' convention must show a keen sense of return. The new program must be drawn into the campaign for the unorganized workers. The Communist party is the only one that knows how to cope with the working class.

Hoover, the man who has almost created a depression; he is a dishonest economic dictator. The U.S. government is a capitalist government.

The metal workers have a big task. But if it follows the same program as the miners, it will fail. The miners, as a whole, are not union members.

The struggle of the workers of America is a struggle for the future of the world. The workers of the world, who have been led by the Communist party, will be victorious.
