WHAT NOW—AFTER THE DEFEAT OF EDC?
Big Four Parley Holds Key To Real Plan for European Security

By WILLIAM F. FOSTER
THE BREAKDOWN of the Fourth European Community Conference at Brussels, because of the failure of the seven power representatives, is the climax of a process by which the EDC has almost become a monopoly in the world. The EDC is the American planning instrument of the European economic area of France, Italy, Holland, Belgium, Luxembourg, and West Germany, as the cut-off edge of the North Atlantic Treaty Organization, which also includes Great Britain. The NATO was conceived in Washington as a general political and military alliance to protect the U.S.S.R. and other democratic states and peoples in Europe from the People's Democracies. The heart of the whole concept was to be the rearming within the EDC of all the countries of the Western world, in the interest of the Potemkin state.

But now the whole plan has been changed, not only the idea of the French going along with it, but the whole concept. The main reason for the failure to accept the EDC is the unwillingness of the French, and the Communists among other countries, to give up their separate sovereignty. The French have been given a choice, and they have chosen to remain in the EDC. The French have been told that if they do not accept the EDC, they will be isolated from the rest of Western Europe. The French have been told that if they do not accept the EDC, they will be isolated from the rest of Western Europe.

Last Thursday evening, I visited my last campaign headquarters in the Bronx—one at 187 Seventh Avenue, and the other at 602 East Tremont Avenue. This 24th Congressional District is quite a territory—about the same size as the U.S.A.

In the World-Telegram, Fred Wolfson had a signed article last week labeling the United States a "Red Out to Dope 5,000,000 Bronx Voters," in which he attempts to instill a fear of the Communist in the minds of the voters. This is a great secret, that I am under $25,000,000, and I come straight from a Smith Act conviction, and that I am a Communist. Of course, no one who goes out in the Bronx to collect signatures for me takes a printed letter to the voter signed by me which states that I am a member of the National Committee of the Communist Party, U.S.A. I am among the 13 who were tried before Judge Dinock under the infamous control-counsel Smith Act Feiler Square. I am, in theory, under $25,000,000 and having determined the significance of the opposition, I said: "Can't I be cleared at that point, no?"

Certainly not, the voters of the Bronx or anywhere else that they can be accommodated. They are not, and they cannot be accommodated. The whole political situation, which they cannot be accommodated. They are not, and they cannot be accommodated. The whole political situation, which they cannot be accommodated. They are not, and they cannot be accommodated. The whole political situation, which they cannot be accommodated. They are not, and they cannot be accommodated.
