Draft Program of the Communist Party

Foster Corrects News Agency
On Communists’ Draft Program

The United Press has for the second time in recent weeks published draft program statements by various workers. The latest is a so-called United Press dispatch dated February 14, 1944, issued from Washington by Lyle C. Williams. No statement is given to the dispatch as to the number of signatories to it or the names of those giving their approval.

The draft program is apparently intended to assist the antiwar movement and the Communist leadership at this time. It does not seem to be a response to any similar program statement by any other body. The exact status of the United Press dispatch is not clear.

Communist leaders in the United States have long been active in their efforts to influence public opinion and gain control over the labor movement. Their program statements are usually intended to advance these goals.

April Factory Hiring Lowest Since 1930

WASHINGTON, May 28.—Factory hiring dropped to an all-time low last month, according to a report issued today by the Bureau of Labor Statistics.

The report states that the hiring rate for the month of April was lower than at any time since the Bureau of Labor Statistics has been collecting data. This is the lowest rate since 1930, when the Bureau started collecting data.

The report states that the hiring rate for the month of April was lower than at any time since the Bureau of Labor Statistics has been collecting data. This is the lowest rate since 1930, when the Bureau started collecting data.

There are too many self-appointed experts, politicians, and labor leaders who have become so accustomed to the dole that they automatically think of welfare as the solution to all problems. This is a dangerous and dangerous policy for the country as a whole.

Wisconsin Farm Bureau files action against "farmers'" union

The Wisconsin Farm Bureau has filed an action against a union that it claims is a "farmers'" union. The union, according to the Farm Bureau, is not representative of the farmers of Wisconsin.

April 28—The Wisconsin Farm Bureau has filed an action against a union that it claims is a "farmers'" union. The union, according to the Farm Bureau, is not representative of the farmers of Wisconsin.

The Farm Bureau claims that the union is not representative of the farmers of Wisconsin because it does not represent the interests of the farmers in the state. The Farm Bureau argues that the union is more interested in its own profit than in the welfare of the farmers.

"Farmers'" unions are a threat to the free enterprise system, and they must be stopped. The Farm Bureau is committed to the free enterprise system, and it will do everything in its power to protect it.

The Farm Bureau is committed to the free enterprise system, and it will do everything in its power to protect it. The Farm Bureau is committed to the free enterprise system, and it will do everything in its power to protect it.
