By WILLIAM Z. POSTERNAK

The threat of war, the Eisenhower-Dulles speech on the "unlimited" rearmament and the B-47 "invalidation" by the United States forces, and mutual rearmament in Europe, all contributed to the "spirit of aggression" that was being demonstrated in the world. The United States is, in fact, the main aggressor in this contest for world domination. The "secrecy" of the United States is the main cover for this aggression. The United States is the main aggressor, and the United States is the main rearmament center.

When Dulles was appointed to the position of Secretary of State, a few weeks ago, the Daily Worker wrote an editorial condemning this appointment as the most ardent warmonger in the country, since it is evidence of the fact that the United States government is determined to win the war.

The "spirit of aggression" is the main cover for this aggression. The United States is the main aggressor in the world, and the United States is the main rearmament center.

The proposed "spirit of aggression" is the main cover for this aggression. The United States is the main aggressor in the world, and the United States is the main rearmament center.

Preliminary Meet Held on May Day Celebration

Bank and Oil, AFL, and independent trade unions, plus representatives from other many organizations throughout the city, as a preliminary meeting at the YWCA Hall, this week, established the May Day Committee for the 1969 Anniversary of May Day, The Provisional Committee announced that application to the Police and Park Department have been made for the Annual May Day parade and demonstration for Saturday afternoon, May 1.

A call is being issued for the broadest attendance at a Planning Conference at the YWCA Hall April 23 to make May Day plans.

At the preliminary meeting will be those interested in the May Day parade committee.

Judge Delays Dolsen Release Another Day

WASHINGTON, March 18—Staff correspondent James Dolsen was in jail today, awaiting release on $20,000 bail, because a judge had neglected to sign the necessary papers.

Dolsen, 38, a New York newspaperman, was originally released on Friday, March 11, on $10,000 bail of his own recognizance, after more than a month in jail on charges of alleged spying for the Communist party in New York. He was released because of a technicality in the law, and the bail was set at $20,000, because the provision of the law is to the effect that the case must be continued before the United States District Court.

Since his release from jail, Dolsen has been in jail daily, pending his release, which was delayed by the order of the Court.

NIXON TALKS $35 INTO 'WORKER' FUND

President Nixon’s "tax cut" to workers is a farce.

Nixon himself is not a worker, but he is certainly a rich man. He is a rich man who has come to power through the manipulation of the rich and the poor.

He is a rich man who has come to power through the manipulation of the rich and the poor.

He is a rich man who has come to power through the manipulation of the rich and the poor.

He is a rich man who has come to power through the manipulation of the rich and the poor.

DATE OF ORDER

By ALAN MAX

WARNING

Crude and Britons are being ordered by the Administration’s “New Look” military policy. They figure that before Washington will release any more vaccines against the virus, they will have to sign a million-dollar contract with the British government.

Candidate Favored by Shoe United Rank and File Elected

The administration of Philip de Vries, a former shoe worker, was elected by the Steelworkers District Council, CIO, as the new United States Steel Corporation General Executive Board. Martin defeated the administration of the United Steelworkers district council.

Dolles says the American people can rely on Eisenhower’s judgment as to when to start a war. A man who uses such good judgment as that, believes that it is not only impermissible to have a war, but also with other words to be in the war.

At his Chicago meeting, McCarthy suggested that a recent Communist party meeting is of particular interest to be written by Alan Max. New York’s Times & More.

McCarthy’s idea seems to be that the destruction of Independence is not only impermissible to the 15 million citizens of Britain.

Dolles says the American people can rely on Eisenhower’s judgment as to when to start a war. A man who uses such good judgment as that, believes that it is not only impermissible to have a war, but also with other words to be in the war.
