**The Hydrogen Bomb Danger**

By VIRGINIA GARDNER

ROZENBURG, South Africa—Bobby R., aged 6, was awarded yesterday to her grandmother, Sophine Rosen- 
berg, but Dean Kenneth D. Schramm of the University of Chicago called with Mrs. Rosenberg as her gen-

The Surrogate’s decision came three years in the day after the conviction of Dr. Rosenberg and his brothers by a New York court on charges of conspiracy to steal the atomic secrets of the U.S. government.

**The Truth About the Hydrogen Bomb**

By WILLIAM Z. FOSTER

The explosion of the H-bomb on March 30 in the far Pacific brought forth a wave of indignation 
from frustrated and enraged people around the world. India even threatened to withdraw from the U.N. if 
the U.S. did not withdraw from the Korean war. In France 
a joint protest by the workers of France and 
the Daily Worker said: “Only the working class can 
stop the hydrogen bomb!”

The event was a momentous one, a momentous 
turning point in the history of the world. It was 
not a question of whether the H-bomb was to be used, 
but a question of when and under what conditions. The 
atom bomb was not the beginning of the end, but the 
end of the atom bomb. The hydrogen bomb was a 
new weapon in the struggle for world revolution.

**Some Thoughts on the Hydrogen Bomb**

By Frank B. Furman

The hydrogen bomb is a weapon that can be used to destroy the world. It is a weapon that can be used to 
start a new world revolution. It is a weapon that can be used to 
stop the war and start the peace. It is a weapon that can be used to 
save mankind from itself.
