Hands Off Guatemala!

By WILLIAM Z. FOSTER

"Today, the little country of Guatemala is a world issue. That is why the United States has once again expanded its occupation of that country." The reactionary "democratic" forces in Guatemala and the United States know that a defeat of the United States occupation will mean a victory for the democratic forces in Guatemala. They are afraid that their occupation will be reversed. Therefore, they are trying to establish a so-called "neutral" government in order to keep the United States occupation in Guatemala.

GUATEMALA is the symbol of Latin American resistance to U.S. domination. It is also the symbol of the determination of the Latin American peoples to maintain their independence from U.S. domination.

It was the victory of the Guatemalan revolution that, in 1944, brought about the downfall of the United States occupation of that country. It was the victory of the Guatemalan revolution that, in 1944, brought about the downfall of the United States occupation of that country.

DOCKERS

For the second time this week several hundred dockers, mostly members of the International Longshoremen's Association)—the ILA—met at the Federal Building in Philadelphia to discuss the possibility of striking the ILA's contract for wage increases and improvements.

Such a contract is to be signed by the ILA before the end of the month, when the old contract expires.

"Dockers News," said the ILA's general manager, "is the picture our own." The strike is a serious threat to the economy of the country and the AFL officials are in a quandary.

"We will take to the streets if they don't listen," said the ILA's general manager.

Foster

It is announced to the American public that the Foster Wheel company has added a new division to its line of products. This division will be in charge ofroll forming, and the Foster Wheel company is looking forward to increased sales in the near future.

The Foster Wheel company has been in operation for the past 30 years and has been a leader in the field of wheel manufacturing.

Los Angeles—With rates of 25 percent higher for some, with rates of 25 percent lower for others, the Los Angeles dockers are looking forward to a better year.

"We have been working hard to improve our conditions," said the ILA's general manager.

McCarthy

"We are haying a busy time," said McCarthy.

"The Amalgamated Clothing Workers are looking for a new agreement, and we are working hard to secure it."
