Angered MPs Force Churchill To Set Debate on Issue Monday

LONDON, March 31—Prime Minister Winston Churchill today bowed to mushroom Laborite demands and promised to declare Britain’s position and policy on the U.S.-bombed Commons debate, which will not be impossible to support him on this decision,” the Sketch reported.

The Leader Daily Mirror headlined, “Churchill confesses!” It said the speech failed to answer questions that are “agitating the country,” and that the people “are the whole world.”

Soviet Union Cuts Retail Prices 5 to 44%

MOSCOW, March 31—The Soviet Government today ordered a reduction of from 4 to 44 percent in the prices of food and other consumer goods.

The list of price slashes was distributed by the State News Agency and was announced by state radio and TV to crowds gathered in the streets.

The biggest reduction was 44.5 percent in the price of gasoline, and 34.5 percent in the price of furniture. The price of bread and bakery goods went down to 5.15 percent, a 10 percent reduction, while the price of meat went down to 20 percent.

The price of clothing was reduced by 15 percent, and the price of bread and bakery goods by 20 percent.

Soviet leaders have ordered the prices of soap, matches, cameras, drugs, cosmetics and building materials to be reduced by 10 percent.

In capitalist countries, where the price of food is falling, there is no price reduction among consumers. In capitalist countries, where the price of food is falling, there is no price reduction among consumers.
