Draft Program of the Communist Party

The Program Committee of the Communist Party is making available for publication, following articles and letters which it has received as "On The Program of The American Workers Party" in John Reed Street. It has been submitted by the Committee to its General Committee.

The Worker and People's Bulletin believe that the program and its discussion should spread far and from time to time are publishing the discussion pieces pleasure.

The program of the Communist Party is a synthesis of the experiences of the American workers in the struggle against the New Deal and for peace. The program is based on the belief that the only solution to the problems of the world is a socialist revolution which can be achieved only by the united action of the working class of all countries.

There are two main points of difference between the Communist Party and the American Workers Party: first, the latter is a political party which asserts the right of the working class to organize itself for the purpose of overthrowing the existing social order and for the establishment of a socialist society; second, the former is a trade union which is devoted to the protection of the interests of the working class and to the advancement of the cause of socialism.

The program of the American Workers Party is therefore a political program and a plan of action for the working class. It is based on the belief that the working class must take the lead in the struggle for socialism and that the only way to achieve it is through a revolutionary socialist revolution which will be led by the working class.
