**POLICE TERRORISM OF NEGROES IN HARLEM**

By GREGORY BLOOM

The police are said to be on the lookout for Negroes in Harlem, according to reports from the neighborhood. The raids, which have been increasing in recent weeks, have caused great alarm among the residents.

The raids are said to be part of a campaign by the police to disrupt the activities of the Negro community. The police have been known to target individuals and groups who are seen as obstacles to their efforts to maintain control over the community.

The residents of Harlem have expressed their concern about the raids and have called for the police to be held accountable for their actions. They have also called for the community to come together to support each other and to stand up against the police.

Spies Watch Men at All Times

(As a Worker Correspondent)

I say all my interest towards the postal workers, who are being driven to the verge of insanity by the postal officials.

The postal workers are being forced to work 12 hours a day, with no break, and are being subjected to constant surveillance.

The postal workers are being denied proper rest and are being subjected to constant harassment.

They are being forced to work in conditions that are unsafe and unhealthy.

They are being denied proper pay and benefits.

The postal workers are being denied proper recognition and respect for their contributions.

They are being forced to work for the benefit of the rich and powerful, while being denied proper rights and benefits for themselves.

The postal workers are being driven to the brink of madness, and need our support and solidarity.
