Watch Hoover and Prepare to Fight!

The apparatus of the Hoover Administation is now being erected. Hoover is in Florida. His closest hangers-on are drilling for oil in the most muck and mineral wealth of the "royalty" and the "shale" of the American oilfields.

We recall that Harding went to Florida during the twilight of his career and that the same organization which made him have been working with the muck and mineral wealth of the "royalty" and the "shale" of the American oilfields.

As for the moment, the moment seems to be coming. The moment when the social democratic party can and must be the most determined in its efforts to control the natural resources of any and all countries. It is the time of the moment, the moment when we can and must be the most determined in our efforts to control the natural resources of any and all countries.

The social democratic party is not the only party that can and must be the most determined in its efforts to control the natural resources of any and all countries. It is the time of the moment, the moment when we can and must be the most determined in our efforts to control the natural resources of any and all countries.

German Social Democrat Crisis

By Frederick C. C. Haywood

With the arrival of the new year, the social democratic party of Germany has been thrown into a state of agitation by the news that the party is to be put on trial for its activities. The trial of the party, which is due to begin early in the year, is expected to be a long and formidable one. The party is expected to be represented by an able and experienced counsel, and the case is expected to be a difficult one to argue.
