

# Akron C. P. Members Follow Zack to W. P.

---

News that three of the most influential members of the labor movement in Akron, Ohio, have left the Communist Party and joined the Workers Party is received as the **New Militant** goes to press. These three new comrades, whose names cannot be given at this time, were the leading members of the C.P. in Akron.

The Akron branch of the Workers Party is especially fortunate in getting these three trained militants at this time. A strike of the rubber workers is pending. And it is very likely that Akron will be the Toledo and Minneapolis of the 1934 strike wave.

Announcement of this important news, which is further evidence of

the drift toward the Workers Party, came in the following telegram to the **New Militant**:
