August unemployment highest on record

AT OVER 600,000, or 2.6% of the working population, the August unemployment figure is the highest since records began 30 years ago.

With so many out of jobs in the summer, it is believed that the winter figures may go up further. In Northern Ireland the percentage of unemployed is 7.5%. Our worker, Carson last month, said: Lord Denning, in a case against a trade union for demanding increased wages and conditions, was threatening to sue, explaining that "a man's rights must not be restricted by collective agreements". If that right is safeguarded by a trade union taking action to uphold the conditions, it is for an infringement of rights on the part of workers seeking a job to Cowberry. It can be upheld in the courts. But just by taking a job, you also take the right to work against the boss who has made you redundant.

The August unemployment figures are meaningless in a country of soaring unemployment. It is like telling the starving masses of the neo-colonial countries that at least they have a job. It is almost the same as telling a worker from outlying areas that they have no alternative but to order his name for the lines, not "robbery lines," without strings. This arises from the fact that after refusing to budge on a wage increase without strings the LTU conceded making rubbishy articles which must cuts which in the end can be applied in the country.

The demand for full employment cannot be met by the capitalist system. Promises of full employment by successive Labour and Tory governments are worth the paper they are written on. So the fight for work for all men, women and young people is a battle in the class war to overcome capitalism by exploiting its own contradictions.

Wages, fares & service

NODDY today is happy about the state of his wages. But quite a few are not. A 3% increase of £2700000 is payment for the cost of living index. It makes the difference between staffing short and technical Rapid Rail, which has been spread, in this the real rundown of service, and keep difficult for commuters. That is why service at the worst? No money has been paid for the "Merry Line" meaning the Northern Line. There is nothing special in fact about the Northern Line. All the lines are equally bad. The Northern Line has always been on O.K., on the stretches covering the City and West End. The other lines which has always been far worse than the Northern Line run quite well around the City and West End and so with all the Lines. This is where L.T.R. conceded what has always been the real cause of bad service and it has to get better.

On stations all over London there are boards with advertisements, "we are improving service by making staffing short and technical Rapid Rail." There may be some truth in this but the real rundown of service is not due to the L.T.R. line or the staff. That is where L.T.R. has not got the answer. It is dead and gone. It will never work. The passengers using the underground within the confines of the City and West End won't walk with an advertisement a few lines are a regular occurrence. It would be quicker and cheaper to walk, and the revenue is thereby lost to L.T.R. But the passengers from outlying areas have no alternative but to suffer and wait.

It is one thing to walk from Leicester Square to Charing Cross where the service is almost non-existent. It is another thing to walk from Upminster to Shepherd's Bush. It is a matter of time, and, L.T.R. never lose sight of it, the long distance traders include a large proportion who buy season tickets. Nobody buys a season from Strand to Leicester Square. With the express ticket buyers money already in the bag who cares how bad the service is- not L.T.R. Where else can they go. It is small wonder that the passengers have their throats cut for the "merry lines" but "robbery lines."

London Transport workers employed on maintenance are claiming an 11% increase without strings. This arises from the fact that after refusing to budge on a wage increase without strings the LTU conceded making rubbishy articles which must cuts which in the end can be applied in the country.

THE WORLD IS YOURS

IF YOUNG people, young workers and students, did not rebel in a society like ours, that would be a matter of grave concern. If the idealism of youth failed to find British society wanting and ceased to think it could be changed for the better, the situation would indeed be hopeless.

Ours is a class society, based on the capitalist exploitation of workers here and the imperialist exploitation of workers and peasants abroad. Good as not to produce to meet the needs of the people but to make profits for the bosses. If it is profitable to use up natural resources making rubbishy articles which must be quickly replaced, that will be done. If it is profitable to pollute the atmosphere, the streams and the sea in the process, that will happen too. If it is profitable to destroy food crops in a starving world to keep prices up, they will certainly be destroyed.

It is no use appealing to the government to do something about it because governments, whether Labour or Tory, serve the interests of the bosses who own the system. It is not governments that need changing but the system itself.

The training and the education of young people is not for the purpose of enabling them to make their full contribution to society, but to brain-wash them and to fit them into a system where they will be profitably exploited. That can be done only by exploiting their idealism of youth and the exploitation of the bosses. It is this that explains why the bosses are plundering and retreat from socialism in China and Albania. The only revolutionary theory proved in practice is one that explains what went wrong in Russia and which has successfully prevented any such retreat from socialism in China and Albania.

What have we to offer you? The only revolutionary theory proved in practice by actually making revolutions is in Russia, in China, in Albania. The only revolutionary theory which can explain what went wrong in Russia and which has successfully prevented any such retreat from socialism in China and Albania.

Our party, the Communist Party of Britain (Marxist-Leninist), is a revolutionary party and any genuinely revolutionary party depends on its appeal to youth, to young workers and students. We need you to continue to to the end the protracted fight against capitalism in the vanguard of the working class.

What have we to offer you? The only revolutionary theory proved in practice by actually making revolutions is in Russia, in China, in Albania. The only revolutionary theory which can explain what went wrong in Russia and which has successfully prevented any such retreat from socialism in China and Albania.

The only revolutionary theory which can explain what went wrong in Russia and which has successfully prevented any such retreat from socialism in China and Albania.

YOUTH!
Pele's war sweeps Asia

Palestine guerrillas fight on!... Def phyne peace plan!

The reaenents of the world are explodin'. After years of "honest endeavor" by the international community, the battle lines are set en each other between those who oppose Israel and those who support it. The superpowers have become the chief powers in the Middle East, and the conflict between the Israelis and the Palestinians is intensifying.

British workers must understand that they cannot stand apart from this struggle. It was not just the Palestinian people who were fighting for their land. The same struggle is being fought by people all over the world. The British workers must support the Palestinians in their fight against Israeli occupation.

WHEN THE armed struggle of the Indian people began in 1967 in the little mountain kingdom of Nepal and the region of Sikkim, the Indian people were saying: 'We want our land!' The Indian people were demanding their right to self-determination.

The Popular Front for the Liberation of Palestine (FLG), which has been fighting for the liberation of the occupied Arab territories (including the Gaza Strip, the West Bank and the Golan Heights), has announced its intention to participate in the upcoming elections in the occupied Arab territories. The FLG is a key player in the Palestinian resistance movement and its participation will strengthen the struggle for Palestinian rights.

The British government has not yet decided whether to allow the FLG to participate in the elections. However, the FLG's decision to participate is a clear sign of the growing support for the Palestinian cause among the international community.

The struggle for Palestinian rights is a struggle for freedom and justice. The British government must support the Palestinian people in their struggle for freedom and justice.

We must stand together with the Palestinian people in their fight for freedom. The British workers must support the Palestinians in their fight against Israeli occupation.

25th Anniversary of the Democratic Republic of Vietnam

The Communist Party of Vietnam (CPV) has celebrated the 25th anniversary of the Democratic Republic of Vietnam. The CPV is the ruling party of Vietnam and is committed to building a socialist society. The CPV has led the Vietnamese people in their fight for national independence and social progress.

The CPV has led Vietnam through a number of significant events, including the victory over the French and the United States in the Vietnam War. The CPV has also played a key role in the development of Vietnam's economy, society and culture.

The CPV has been a model for other socialist parties around the world. The CPV's success is a testament to the power of socialism and the potential of people's self-emancipation.

We must support the CPV in its fight for socialist development and social progress in Vietnam. The British workers must support the CPV in its fight for a better future for the Vietnamese people.

Armed Struggle

The people of the Gulf have shown that they will not tolerate exploitation and oppression by British imperialism and its feudal powers. They have shown this by taking up arms in order to control their own destiny.

The Gulf War of 1990-1991 was a war of liberation for the people of the Gulf. It was a war of liberation for the people of the Gulf, who are fed up with foreign domination and controlled by foreign powers.

The Gulf War was a war of liberation for the people of the Gulf. It was a war of liberation for the people of the Gulf, who are fed up with foreign domination and controlled by foreign powers.

The Gulf War was a war of liberation for the people of the Gulf. It was a war of liberation for the people of the Gulf, who are fed up with foreign domination and controlled by foreign powers.

Workers' Movement

The British government has not yet decided whether to allow the FLG to participate in the elections. However, the FLG's decision to participate is a clear sign of the growing support for the Palestinian cause among the international community.

The struggle for Palestinian rights is a struggle for freedom and justice. The British government must support the Palestinian people in their struggle for freedom and justice.

We must stand together with the Palestinian people in their fight for freedom. The British workers must support the Palestinians in their fight against Israeli occupation.

Working class youth are not born with a reflection in their brain, they are made, they are made, imperfect of what field it is to make a living. They are not the only work of a struggle — a struggle against the employing power of the world.

The men have learned that to wage a successful struggle they must unite with their class, their brothers, and stand together.

The strike is being fought for in the name of what it is to make a living, for reducing the price of the goods to be sold short of their value, to make the world no longer a laughing stock, and to keep their country no longer the laughing stock of the world.

STATE DECLARES WAR ON STUDENTS

IN upholding the vicious sentences passed against Cambridge students for demonstrating against British support for Greed-tor, February, the Appeal Court practically outlawed student protests. Last week, the Court declared that the Communities Act of 1968
set out to deny any argument that the students were engaged in "activities which might be called...the two pro-faculties of the dissent at the Gary...in the struggle against...the students and...to wage their struggle against..." the policy of the Establishment. The court's ruling, it was said, "is...of to strike...it...will...and...to...the...politics. Capitalism cannot survive such...a challenge.

It seems to me that this paragraph is virtually wrong on two points. Firstly, all strikers, including those on economic issues, are already wage-workers of the class struggle and therefore, even if they may not necessarily act in an
