CP Raps Press Hububb on Browder

CALL SPECULATION LABEL ON PARTY AND ON SOVIETS

The following statement was issued by the Secretaries of the Communist Party yesterday:

The reactionary speculation in the American press as to whether the Communist Party, as a result of the recent report from the Communist Party, may or may not visit the Soviet Union with Bender, may have been dismissed as mere rumour. The Communist Party has no knowledge as to whether or not the government of the Soviet Union will issue a visa to Bender. Nor, for that matter, does the Communist Party have any knowledge as to why the United States State Department issued a passport to Bender and facilitated his trip to Europe.

The Communist Party does know that Bender reviewed and abandoned Marxism. It does know that Browder's anti-party policies and actions caused great damage to the American Communist Party, as a result of the January 24th resolution. This is why our party expelled Bender from its ranks. A few years later, in the name of the Comintern, the Communist Party of the United States is a completely independent political party of the American working class. It is responsible for its own decisions and membership, which alone has authority and power to fix its policies, decide its actions and elect its officers. The policies of the Communist Party of the United States are based on the interests of the American people and its Marxist-Leninist analysis of the political situation both in the United States and the world at large.

On the basis of such an analysis, Browder's policies were the policies of the Communist Party of the United States, and leadership of the Communist Party because they were, and are, policies profoundly anti-Marxist and, therefore, contrary to the policies of the American working class and nation. Bender was expelled from its ranks by the Communist Party as an unrepentant regionalist, as a socialist reformer. He remains a renegade and his policies remain an anathema to American Communism.

Secretariat, CPUSA,
WILLIAM Z. FOSTER, CHAIRMAN
ROBERT THOMSON, JOHN WILLIAMSON.

PM's Wechsler on a Browder Jag

By Melton Howard

Once again, the press with an axe to grind seems to have found a new target in Senator Harry Browder. And, like many others before him, he has been the subject of much speculation and denunciation by the American press.

Browder's recent trip to the Soviet Union is causing quite a stir among political analysts. It is causing some to speculate that his visit may have been a calculated move to garner support for his upcoming Senate bid. Others suggest that it may have been an attempt to distance himself from the controversy surrounding his previous actions.

Regardless of the motives behind his visit, there is little doubt that Bender's recent activities have caused a stir among the press. His moves have been closely watched and his every action has been scrutinized.

The fact is, Browder's trip to the Soviet Union has been the subject of much speculation and denunciation by the American press. His actions have been closely watched and his every move has been scrutinized.

The real question is, what does Bender's trip to the Soviet Union mean for his political future? And what will be the impact of his actions on the American political landscape?

Based on the information available, it seems clear that Bender's trip to the Soviet Union was a calculated move to garner support for his upcoming Senate bid. His actions have been closely watched and his every move has been scrutinized.

The real question is, what does Bender's trip to the Soviet Union mean for his political future? And what will be the impact of his actions on the American political landscape?
