Truman to Outline Policies to Nation

FDR's Spirit Will Live, Boarder Tells Memorial

The spirit of President Roosevelt will live if the legacy left to the nation is not "frittered away," said Harry S. Boarder, president of the Communist Party. "It needs to be preserved so that in the years to come the working people of the world will remember that our Watchtower is still alive in the body and leadership of the world's most progressive political party."

Mr. Boarder, speaking in the grip of an inexpressible sorrow, said that their Commander-in-Chief has been taken away, but that the man who restored our national unity, who led the nation back to the path of historical progress, who finally united us with our Allies in the Great Coalition and thus spurred the dawn of the Axis, who revealed to the nation the spiri
tuous possibilities of a world of long-time peace and prosperity—this man is no mere mover among us, no more do we speak to us. The void created by his absence is too great for us to comprehend. It will require time to readjust ourselves to such a world. We could not spare this man.

In these first hours of the nation's loss, shock is the dominant feeling of all lands. It is hard to find those words we need to help us take the blow and rise stronger from the debris. The shock must be felt, it must be fulfilled. The nation's grief must be transformed into the nation's strength.

Some, however, are saying that the heavy responsibilities that were borne by the man whose passing we grieve, it would be a burden too heavy for any man even were he not supported and maintained by the great legacy of his predecessor. It would be a responsibility too great for any man were he not firmly grounded in the active support of the people. We must now organize to maintain this legacy, this body will honorably and successfully bear this unprecedented burden because the man who will add us to the world's solidarity and bring this to bear that he will walk along this path, because we will guard and utilise the great legacy, because he will thereby have the firm support of the great majority of the people who are the nation.

Out of America's grievous loss, the nation must learn how to rise stronger than ever before. And America will grow stronger, in the knowledge of Communists, who has the atmosphere of the forces through each and every one of us, if we do our duty, the leader of our country remains the great Roosevelt.

The President's message was read by Mayor La Guardia, the voice of the Big Apple, and the people of the city listened in amazement to the words of the mayor, who had long been the President's loyal friend and ally.

"This isn't the only war he fought," the Mayor pointed out. "This one fought against poverty, hardship inflicting, illness and injustice from the day he first took office.

La Guardia's message also included a call for a new and better world he planned.

La Guardia's words were echoed by all Americans who heard him today. "The President's spirit will live," said Mayor La Guardia. "It will live in all of us, an atmosphere of sadness. Our of
