WHY THE STALIN REVALUATION TAKES PLACE AT THIS TIME

BY WILLIAM Z. FOSTER

In thewortentation that is being asked on many sides in the world in reaction to the latest Stalin venture of buying up Western goods, the isolation of the country, the political atmoshpere of the last traces of McCarthyism.

Donovan’s introduction of a bill to “correct” the decision is based on a bounty by empowering the states to prosecute persons for sedition airl him, to nobody’s particular surprise, with the rabid right-wing cognates that are spread across the restoration of democratic process in America.

But if Donovan’s action is not out of character, it will, we are sure, occasion a remonstrance of civil rights by those who went along with the Republican-Liberal combination to elect Donovan over the late Vito Marcantonio.

The McCarthyite Donovan, waving the soiled banner of the Senate committee to the memory of a kiddie contingent led by the racist Disraeli, Eastland, is the end product of the movement, born of hysteria and fear, to defeat Marcantonio, the best friend, on the decline in our land, this terrible creed of C. D. C.

The bill that lies in the past. Now, the Democrats and Liberals have repudiated Donovan—an action all small-d democrats of every party will applaud.

But the time has come for a contempt for democracy and civil liberties should give added impetus to the effort to get rid of him and elect a Congressman who at least has an A in D.

EVIDENCE NEVER REVIEWED

THE STATEMENT by the eminent British philosopher and scientist Bertrand Russell that the executed Julius and Ethel Rosenberg and the imprisoned Morten Sobell of Hungary are all victims of a mob hysteria and apparently alarmed those who want to keep the lid on this monstrous framework of lies.

When all said, those who have accepted the “official” finding of guilty.

We see two Americans have written to the Manchurian Press. One was the late Lord Russell’s letter, defending his findings. They are Harold Green, who termed himself a former member of the U. S. Atomic Commission security program, and Irving Feerman, Washington director of the American Civil Liberties Union. They write:

“Let no one be deceived into believing that the facts recently learned by Lord Russell have not been thoroughly reviewed by the courts of the United States in accordance with the long-standing Anglo-American tradition of due process.

Ah, but this happens not to be true.

The fact, the terrible fact, is that the Supreme Court never reviewed the evidence which sent two innocent persons to the electric chair and put Morten Sobell in Alcatraz for 30 years in America’s shameful Dreyfus case.

This is what the executioners have tried frantically for years to conceal from the American people and to the world. They haveGetType the document's natural text here.
