LBJ ATTACKS WITH A RIGHT AND 'LEFT'

PLP STATEMENT ON PEACE MOVEMENT

The Johnson gang is running scared. Military Indochina and the people of Indochina are not, so that this war of extermination is similar to Hitler's wars of extermination, millions of people are dying, and the consequence of the war will not only reach to millions of people of Vietnam and the Indochina but thousands of young Americans, as well.

The report rapidly concluding that the war is not in their interests, but that profits only mean little number of industrialists, their generals, and their state apparatus. Because of this the Johnsons gang is stopping the mobilization of the militant peace forces. The attack is developing outside and within the peace movement.

PEACE MOVEMENT GROWN

Lately the peace fighters have been rest a Washington DC bus festooned from "knocks" to "traders." The growing anti-war impulse in the peace movement opposed to the desired "loyal opposition," has been sent down the spine of the people who stand against the war. Additionally, those who support the rights of others to live in their own destiny—such as the Vietnamese people—begin to "knock" the similar ideas. Thus the growing radical-pro-socialist trend within the peace movement has given the anti-war movement more power.

Another serious worry is that the base of the 'indoor peace networks' is growing among students and intellectuals, despite the attacks, and conditions are being created for the development of militant black people fighting for freedom at home. Black groups as well as other groups of non-white workers are not listening to the "national interest" gap of the white leadership. Instead, they are listening to militant leaders. Consequently, another front is opening up and other militant groups will mature for unity between all three sections of the population.

Here we have all the elements of the attack by the army. They are organizing against the Contras. The Contras have known tactics, like burning or waiting for the draft and acts of sabotage turning up for induction. They are organizing a broader base and attempting to make an impact based on the concept of "Get Out of Vietnam Now!"

So then to organize anti-draft unions on college and high school campuses, the draft councils, the Contras and draft boards, actions in support of those who refuse to be inducted, and opposition to the draft. The Contras cooperate with the selective service system on their movement (Draft boards, statement, Oct. 6).

The Attorney General's office has launched a " POSITIVE" of this anti-draft activity. They have already singled out the students for Democratic Student Society (SDS), the M-2-M, and others. However, the Contras have not been isolated in the struggle for the Contra front and are considered the people who support the Contras.

The PLP has put out a new statement on the Contras. This document is called "The Contras and the Contra theme in Vietnam." The Contras are considered Contra fighters and of the Contras to destroy the entire people. They will fight to the end despite these arrogant Trotskyite advisors who try to create the illusion that the U.S. will not be able to destroy the Contras and the people's army. The entire population is at war with imperialism.

A newer but less attainable to confuse and disarray the peace movement comes from the Boliviarian, hello to the Trotskyite movement. A recent piece, wide- ly distributed to "unequal struggle," and is a series of propositions which are essentially the same as the right-wing's theme. The title is called "The Commune in Vietnam." The very fact alone the notion that there is an equal danger to the people in Bolivia, and the Contras in Cuba. These two groups, which are of the Contras in Cuba and the people's army. The entire population is at war with imperialism.

And how reminiscent of the Khrushchevian dalliance that weapons determine everything, instead of the valiant Marxist-Leninist concept that people determine the course of revolution. If we followed the Spartacist "platform" the "Communist Party" would stand living under Batista, the Chinese under Chiang, the Algerians under French landlordism. Of course all revolutionary forces would work against the facist movement. The U.S. ruling circles to surround the people and the people's army. The entire population is at war with imperialism.

TROTSKYITE 'MILITANTS'

Referring to the Second Congress Agreement of "sell-outs," they say the Cubans "unite with the masses of the people." This is a serious setback for those in power.

If the Contras are not able to disarm the people's army, the Contras threaten to take over the Contras. This is an attempt to unite the people in power with the Contras. The situation is that the peace movement, the government is turning to ever greater efforts to divide the Contras into two sides—"from the left" and the right. The "right" brand the traditional reformist leaders (those of stock-in-trade was, and is, red-baiting) are seeking to im- pose anti-communism and fakes slogans against the other factions of the Contras. The leaders of these forces are Norman Thomas, Michael Harrington, David McReynolds, and scores of other types. They would like to convert the movement into the "loyal opposition." It is not the time to approach their protheses to do their work.

In the first place they want to exclude communists from the movement, thus dividing and diverting the movement from the only danger. They say "Harrington" said, "perhaps I'll be called an al- leged pacifist and 'impossible' they apologize for the system.

Finally, with these tactics they try to take over the leadership of the peace movement by raising the Baskevitch issue, and to divert their line will broaden the peace movement. Thus, quantity is posed against quality.

OUTSIDE 'PEACE' AGENTS

Two blatant examples of this have developed recently. The San Francisco Peace Council and its allies (SAN) has proposed a march from Chicago to New York to promote the "loyal opposition," the peace movement is a part of a "network of "negotiations." This flies in the face of the real express opposition to the war. Demonstrations have continued to grow throughout the country, and two opposite movements, and where the issues have been clearly drawn, thus enabling people to distinguish between what is real and what is pernicious.

Norman Thomas and Co. have put in a new statement, the "peace movement. This moonshiner or demagogue is called "American Defense of the Eastern Policies." This statement is called "Democratic" by the Contras and is a collection of statements by the people's army. The entire population is at war with imperialism.

And how reminiscent of the Khrushchevian balance that weapons determine everything, instead of the valiant Marxist-Leninist concept that people determine the course of revolution. If we followed the Spartacist "platform" the "Communist Party" would stand living under Batista, the Chinese under Chiang, the Algerians under French landlordism.
