

# China's Great Cultural Revolution Strikes Terror Into U.S. Imperialism and Soviet Revisionism

— Speech by Comrade E.F. Hill, Chairman of the Australian Communist Party (Marxist-Leninist)

**Comrades,**

Australian Marxist-Leninists greet China's National Day. China's liberation was achieved only in protracted struggle led by the Chinese Communist Party guided by the thought of Mao Tse-tung. It directly continued the Great October Revolution led by Lenin now so shamefully betrayed by

Khrushchov and his successors. The great proletarian cultural revolution carries China's revolution forward. China's socialist revolution strikes terror into reactionaries particularly U.S. imperialism and modern revisionism headed by the leading group of the C.P.S.U. The U.S. imperialists and the Soviet revisionists see China as their mortal enemy just because China is the firmest upholder of socialism. Precisely because the Soviet revisionists have betrayed Lenin and the October Revolution, they fume and plot against the Chinese people. They do not scruple against entering into an unholy alliance with U.S. imperialism to try to subvert China from within and attack her from without. They despicably co-ordinate their anti-China,

anti-revolutionary, anti-national liberation plans. Their attempt to strangle the heroic Vietnamese people and the firm Chinese support for them is the shameful carrying out of their foul counter-revolutionary plot. The notorious "joint socialist action" will deceive no serious person. The Vietnamese people will be victorious. All the U.S.-Soviet plans have failed and will fail. Isolation of China and defeat of the Vietnamese people are dreams of paper tigers. China will never be isolated no matter how hard U.S. imperialism-Soviet revisionism try. The Chinese people armed with the immortal thought of Mao Tse-tung are indestructible. Their cause and the cause of all the world's toiling people are inseparable. Today's celebration is a celebration for all the world's people against the puny enemies U.S. imperialism-Soviet revisionism. October 1 is indeed an international celebration.

Long live the victory of the Chinese revolution.

Long live proletarian internationalism.

Long live the Communist Party of China.

Long live the thought of Mao Tse-tung.

Long live Chairman Mao.
