Since the onset of the current crisis, in July 1974, the profits of the rich have steadily increased at the expense of the working class and the poor. The conditions of the workers have been improving at a rapid pace. In Canada, a wave of strikes and picketing actions by workers has taken place. The working class is actively accelerating in the conditions of stagnation and declining production, the ruination of whole sectors of the economy, huge states of under-employment, tremendous unused capacity in the industry, slump in sales, and so on.

The fact that in the conditions of the crisis, the rich are becoming still richer is one more testimony to the decay and decay of the capitalist system which has reached its highest and final stage and is heading for collapse. In the monopoly capitalist system, which prevails in Canada, a large number of financial oligarchs, the milliardaires and zillionaires of Canadian and foreign origin, own and control all the main means of production and dominate the political and social sphere of the economy and every aspect of the public life of the country. The parasitic stratum is the finance capital — rentiers, the people who live by "clipper coupons", who take the capital their fathers made and live off that capital, whatever the proletariat, in spite of the fact that they say this work "very hard", is something.

These finance capitalists enrich themselves by robbing the working class, that is they make off with their invested capital, in the form of debts, bonds and stocks, from rampant speculation and manipulation on the money market and the stock market, etc. We have already described in recent weeks how hundreds of millions and billions of dollars have been made by bankers, and speculators on the gold market, and the stock market, etc. By various means these debts are now being expanded and consolidated on the stock market day after day as well.

The sway and domination of financial capital in Canada is vast and pervasive and there is not a section of the society which is not sufficiently touched by the thumb of the banks and other money-lending institutions and other sources of finance capital. The entire population is in black tether, as are the governments at every level and the country itself.

There is the consumer-debt, the mortgage debt, the personal consumer-debt, etc., which, by the end of last year, had reached $1,400 billion. The situation is about the same in other countries, the consumer-debt, mortgages, and personal consumer-debt, etc., are now at the stage of a billion dollars. This is a very heavy burden on the shoulders of the working people in the United States, Canada and other countries. The burden is even heavier when we remember that the mortgage debt of the banks is also among the major sources of financial capital and the interest on it.

Between the consumer-debt, the mortgage debt, the personal consumer-debt, etc., we have to add the various social and individual debts, the mortgage debt, the personal consumer-debt, etc., which are among the major sources of financial capital, and the burden is considerable.

The government claims that the mortgage debt is not a problem, that the mortgage debt is not a burden, that the mortgage debt is not a threat, that the mortgage debt is not a danger, that the mortgage debt is not a danger to the country, that the mortgage debt is not a danger to the working people of the country. But the reality is different. The government claims that the mortgage debt is not a problem, that the mortgage debt is not a burden, that the mortgage debt is not a threat, that the mortgage debt is not a danger, that the mortgage debt is not a danger to the country, that the mortgage debt is not a danger to the working people of the country. But the reality is different.

The government claims that the mortgage debt is not a problem, that the mortgage debt is not a burden, that the mortgage debt is not a threat, that the mortgage debt is not a danger, that the mortgage debt is not a danger to the country, that the mortgage debt is not a danger to the working people of the country. But the reality is different.

You are Warningly Invited to Participate in the Election Rally of the Marxist-Leninist Party of Canada

Main speaker: Comrade Hardial Bains, President of the Marxist-Leninist Party

Local candidates will also be addressing the meeting.

Cultural Programme: Canadian revolutionary songs to be performed.

The Marxist-Leninist Party of Canada firmly believes that: 1. for an end to the all-sided crisis with economic crisis at the base by making the rich pay for the crisis; 2. for an end to all war preparations and Canada's participation in an aggressor and predatory war, by opposing all imperialist policies, including U.S. imperialism, Soviet social-imperialism, and British social-imperialism.

DEMONSTRATE ON FEBRUARY 17TH AGAINST ALL IMPERIALIST POWERS

END
COMRADE BAINS ADDRESSES A VIGOROUS MEETING IN QUEBEC CITY ON THE KEY ISSUES OF CONCERN TO ALL CANADIANS IN THE ELECTION

A very enthusiastic meeting was held in Quebec City on February 6, the second of a series of meetings all Canadians held in the region. The meeting was addressed by Comrade Hardial Bains, President of the Marxist-Leninist Party of the North. Many of the party's representatives were present at the meeting, which was well attended. More than 50 people attended the meeting in Quebec City, many coming late in the afternoon, showing the fruits of the Party's work in taking the programme of the Marxist-Leninist Party to the people.

More than 50 people attended the meeting in Quebec City, many coming late in the afternoon, showing the fruits of the Party's work in taking the programme of the Marxist-Leninist Party to the people. The programme of the party, which includes the following points, was presented at the meeting:

1. Make the Rich Pay for the Crisis
2. End the Occupation of Quebec
3. End the Occupation of other territories
4. End the Occupation of the United States
5. End the Occupation of all occupied territories
6. End all wars
7. End all occupations

The programme was well received by the audience, who showed their support by applauding at the end of the meeting.

COMRADES BAINS IN QUEBEC CITY ON FEBRUARY 6TH, 1980

Excerpts from the Speech Delivered by Comrades Bains in Quebec City on February 6th, 1980

Comrades and Friends,

I want to begin this meeting by expressing my deep concern about the very important election that is being called in Canada this time. It is the first time in the history of Canada that a general election has been called by the government of the day. The government has been in power for the past ten years, and the people of Canada have supported it in the last election. But now, the government has decided to call an election to try to win the support of the people. This is a very serious matter.

I want to emphasize that the government of the day is not interested in the well-being of the people of Canada. The government is only interested in its own interests, and it is only interested in the interests of the rich and powerful in the country. The government is only interested in the interests of the rich and powerful in the country.

The government is only interested in the interests of the rich and powerful in the country. The government is only interested in the interests of the rich and powerful in the country. The government is only interested in the interests of the rich and powerful in the country.

We must be very careful in this election. We must not be deceived by the government's promises. We must not be deceived by the government's promises. We must not be deceived by the government's promises.

I want to ask you to vote for the Marxist-Leninist Party of Canada. The Marxist-Leninist Party is the only party that can save the people of Canada. The Marxist-Leninist Party is the only party that can save the people of Canada. The Marxist-Leninist Party is the only party that can save the people of Canada.

Thank you.
CONRAD'S EXTRACTS FROM THE SPEECH DELIVERED BY CONRADE BAIMES IN EDMONTON ON FEBRUARY 10th, 1980

Conrad's and Friends.

At last, an election, our Party pointed out that it does not matter what government organizes, its activities remain basically the same. They tend to overprotect the present social system. Our Party has been the first to identify the crisis is to make the rich pay. The issue is not whether we have a government or not, but whether we are presenting this as the solution. The issue is that the government is not the solution to the problems of the businesses. In general, the Progressives, Conservative, or even the New Democratic Party has the same ideas as the Liberals, the Progressive Conservative, and the Liberals. These parties -- are presenting other solutions and you will find that there is no real difference in the solutions of the government and it does not matter which solutions they provide, they are still the same. The solutions are real solutions and they will not sort out the problems.

For example, the economic crisis in Canada cannot be sorted out by having either the government or any individual business. The NDP is proposing or building the industry. This is not the way to solve the crisis. The government will not solve the problems facing Canada, because the crisis comes from unemployment, inflation, and other aspects of nationalization, there is nothing that can be done to solve these problems. What we need is the re-establishment of nationalization, eliminating the monopoly of financial capital in all sectors of the economy. Financial capital dominates in such a way that it is the government that is in charge. This financial capital is merely there to collect interests, to participate in the economy, and control the stock market deals, as well as engaging in financial and monopolistic practices in any other way. As everyone knows, the most parasitic class of society at this time.

When the economic crisis has gone beyond recognition. For instance, during the last few days, the government has announced that the economy is in a recession. The last recession in 1911-12 was 70 per cent. On the one hand, the factories are producing products which are of no use and the destruction of small farms. In Canada, there are all sorts of factories, and one of the myths is that Canada is self-sufficient. It is, however, a fact that we are importing in the food. Cereal grains were removed from the picture altogether, which means that this is a great mistake.

And these food imports are not merely restricted to tropical fruits and other foods which cannot be produced in Canada. They are also restricted to food which can be produced in the country.

When we look at the financial crisis, it has been invested in the manufacturing sector. It is clear that the financial crisis is not the reason for the financial crisis. In other countries, the financial crisis is not the reason for the financial crisis. The financial crisis is caused by the fact that financial capital is in control of the economy. They control the debts, the interests, and dividends on the foreign financial capital invested in the country. It is the government which is required to go deeper into debt to compensate for this balance of payments deficit, thus compounding the problem. The financial crisis is the main problem, because it is not the problem of the economy. All the economies are going through this problem, because it is a problem of the government. The government is always involved in these problems, because it is the government which is in control of the economy. When the government and the government are concerned about the financial crisis, it means that the financial crisis is the main problem.

On another example, where large amounts of money are invested in the Canadian health sector. It has become impossible for ordinary workers and ordinary people to have any kind of health care on a private basis. The rich people have all the benefits, while the poor people have to suffer. When there was big unemployment put forward by people like Conrad and other people, this is running out carrying this propaganda on the health crisis.

An example of another field where large amounts of money are invested in the Canadian health sector. The government has invested a lot of money in the health sector. When it became impossible for ordinary workers and ordinary people to have any kind of health care on a private basis, they started this propaganda of having the health insurance schemes. In Canada, the government is the one that set the premiums -- how much everyone should pay. The government is the one that sets the price, the government is the one that gets the benefits. When the premiums are too high, the government is the one that gets the benefits. When the government is involved in these schemes, it means that the government is the one that sets the price, the government is the one that gets the benefits.

Who are the people in the health sector who are the real beneficiaries of this propaganda? They are the owners of the insurance companies, who control the premiums and the health insurance schemes. They are the people who own the insurance companies, who own the health insurance schemes. They are the people who are the beneficiaries of this propaganda. They are the people who own the insurance companies, who own the health insurance schemes.

The government is the one that set the premiums -- how much everyone should pay. The government is the one that sets the price, the government is the one that gets the benefits. When the government is involved in these schemes, it means that the government is the one that sets the price, the government is the one that gets the benefits.

What is the conclusion from all this? All political parties and the government are involved in the propaganda. They have an ulterior motive to keep things the way they are. For this reason, the political parties of the government are involved in the propaganda. They have an ulterior motive to keep things the way they are. For this reason, the political parties of the government are involved in the propaganda. They have an ulterior motive to keep things the way they are. For this reason, the political parties of the government are involved in the propaganda.

There is propaganda carried out that for the benefit of the government. It is a bungled situation that these parties of the government are involved in the propaganda. They have an ulterior motive to keep things the way they are. For this reason, the political parties of the government are involved in the propaganda.

The propaganda is used to keep people in the government. This is a bungled situation that these parties of the government are involved in the propaganda. They have an ulterior motive to keep things the way they are. For this reason, the political parties of the government are involved in the propaganda.
Speech delivered by Comrade Baines in Quebec City, February 6, 1980 ... from page 2

VOTE FOR THE CANDIDATES OF THE MARXIST-LENINIST PARTY OF CANADA!

The patriotic traditions of the people of Quebec who rejected the domination of the Anglo-American imperialism at the time of the First World War, and who fought against discrimination during the Second World War, and refused to side with these imperialist powers. But today the same imperialist traditions of the people of Quebec, he only represents the industrial and middle-class interests, and the traitors who never for a minute hesitated to slaughter their own people, does not find a place in the political life of Quebec for the liberty of the people of other countries or the liberty of the people of Quebec itself. The Quebec Nationalists and the progressive workers were persecuted. He represents the bourgeoisie who are being enforced against the democrat and progressive forces. Quebec Nationalists and the progressive workers are put on the same plane as the bourgeoisie of indissoluble alliance, the people of the world and we should oppose it. It is very clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear. The people of the world and the bourgeoisie who work for the revolution and for the liberation of the people of Quebec and the world, which is the basis of the bourgeoisie for the struggle against imperialism. It is clear.
