movements of the 1960's, it is only a matter of time before they do. Communists are only revealed the scope and intensity of the mass movements, even in a small extent.

wildcat strike by 120,000 auto workers, the spreading movement growing in scale. For example, we have the recent "larının Oversight Against Police Abuse in Los Angeles," reveals the following:

A sober appraisal of our movement with them, large organizations as well as co-operatives. Perhaps "historically speaking" he is on the right track. But of course, communists can be realists, able to make a sober appraisal of the situation. Against the "nationalization of the working class" and the "industrial midwest," the working-class are often young, inexperienced, unprepared for the lack of calloused hands in the-mass movements, almost without exception they have been dominated by the communist forums. They are not representative of the working-class. The level of actual fusion of Communism with the working class is low. Although the League for Proletarian Revolution correctly criticizes the movement for "nationalization," the actual content of this fusion, they too fail to do so. They simply state that one group is a party and the other is not, a low level of fusion. This is not an ANALYSIS. One could have made the same statement in 1960. In the case of the steel strike, there has been a profound change in the past 10 years, and that change remains to be seen. We think it is better to judge the level of fusion, not on the political slogans raised by the working class, but on the level of actual fusion of Communism with the working class. SADLOWSKI, AN INSIDE-OUT ABEL
Social Props in Steel Elections

Next February the United Steelworkers of America will hold union-wide elections to select a new international president. The $70,000 a year post is being sought by Lloyd McBride and Ed Sadlowski. McBride represents the present leadership headed by J. W. Abel, while Sadlowski purports to represent the "rank and file." Let's take a look at the policies and actions of both camps to see exactly whose interests they ACTUALLY represent.

MAJOR SAFE... MAJOR SAFE... ROBERT JONES, MARCH 7

THE UNA and file want democracy IN and the class-collaborationist Abel/McBride (left) machine CONTROL. The rank and file want a real union (one that is not in the grip of the big steel companies). They seek to regain control of the union and to return the leadership to the "rank and file." The union must be transformed from the inside out, to become truly democratic.

Sadlowski showed a true commitment when he chose in 1972 to "cross a line around the question of dues, a major issue in comparison, and to keep his union in the Mediation and Conciliation Service there has been an effective weapon in the class struggle — the "reverses discrimination". This is a blatant attempt to scare Anglo workers with the fear that they will lose their jobs because of "pushy" blacks, Chicano, etc. (McBridea pamphlet "Reconstruction of the Union")

8 After several Black steelworkers were beaten up by white thugs and Klan elements in District 31, a member of Sadlowski's machine, Local 1035 President Frank Gnatzo, actively opposed rank and file efforts to mobilize against these fascist assaults. He instead forced through a resolution calling on Mayor Daly (1) and the Chicago police to end this terror (2)

SADLOWSKIl

Ed Sadlowski was elected president of District 31 of the Steelworkers Union in 1974, even though the ballot box was filled with a wave of powerful rank and file anger at all those national union leaders, including Abel-McBride do likewise in their pamphlet entitled "Collective Bargaining in a New Era" (3). It is an absolute necessity that the capitalists defend their system against the attacks of the fascist "national state" of Jeanne Marie

2 According to an official of the Federal Mediation and Conciliation Service there has been a significant increase in the number of rank and file disputes in the last few years. In fact to Abel's OPES class collaboration, Sadlowski pointed out that the key to victory is the struggle against the companies. He claimed to be against the ENA, and for the right to strike, to protect the rights of the national minorities, etc.

3 Sadlowski stands shoulder to shoulder with Abel-McBride in supporting the Concept Decrees as written by the bureaucrats. He is a "true Marxist" in his views. He has not lifted a finger to organize the rank and file to a point where there is a chance to set up in industrial parks north of Chicago. These shops contain a significant number of Mexican, Chicano, and Black workers.

4 According to an official of the Federal Mediation and Conciliation Service there has been "no dramatic difference" in the number of rank and file disputes in the last few years. However, Sadlowski's election into office, (THE MILL STEEL, 1976/7) shows that the efforts of the rank and file militants in District 31 have not been in vain but Sadlowski is doing no better than his Abel-McBride predecessor in fighting workers grievances.

5 40,000 steelworkers from District 31 were thrown out of the Steelworkers Union. "The Steel" Sadlowski didn't do a thing about it

6 Sadlowski supports James Carter and his plans to "define the issues" for the Italian-Americans, which is apparently all that Sadlowski can offer to get workers to give credibility to Carter's plan. His policies are no better than the "Left" and the "Right" in the Social Democratic party.

7 Sadlowski supports Zionism and will continue the Social Democratic policy of active aid to the racist state.

8 Sadlowski has backed off on the right to strike issue and now confines himself to "protest" about the undemocratic way the ENA was passed. If he is trying to blu the issue here — whether or not the labor bureaucrats can derive the strength of one of their most effective weapons in the class struggle — the strike.

Help Build the Revolutionary Cause

Revolutionary Cause is published monthly by the August 29th Movement (Marxist-Leninist). We need the financial support of all our readers, workers, students and others. We need your contributions, study programs, schools and bookstores in your area that might be interested in carrying the paper. (Get or subscribe to the paper yourself and send them in to us). And distribute the Revolutionary Cause at work, at school, and in your community.

tools as possible. If our experience proves of some value to the building of the party, to the newspaper and journal of the party, then we shall be satisfied that we have made a small but important contribution to the movement.

We are also bound to hear that we are becoming "just like the Old." This knee-jerk response can only come from people who are confused or who do not think. Comrades, what distinguishes Communists from opportunists is not whether their newspapers are merely agitation or mostly propaganda. REVOLUTION is mostly propaganda for instance. What distinguishes us is our movement. The AIM may have the same economic causes, but the AIM very definitely is not the same, as it works for the unification of the whole country, the national liberation, the defense of the democratic rights of the people, etc. This is true although we may be writing about identical issues.

CONCLUSION

Comrades, let's make fusion a reality. Let's get serious about answering the questions posed by our movement. We dedicate the REVOLUTIONARY CAUSE to this task and call upon all workers of all countries toilers and workers to make your own--to write for it, to criticize it, and to do it as a tool to help you carry out the task which history has placed before you--to build the MarxistLeninist party of the working class and to smash U.S. imperialism to atoms. We must caution comrades against seeing the REVOLUTIONARY CAUSE as merely something to be studied; it is meant to be used in conjunction with our day to day work in order to train and organise the class. Only in this way does the REVOLUTIONARY CAUSE fulfill its purpose. Only in this way can we win those honest "numbers" under their own economic harassment of those involved in the working class. And only in this way will we have the confidence of the masses. In this way the CPUSA can develop the RCP, the COMMUNIST PARTY of the working class.

Cut back our loans. In support of one social prop (Sadlovi) against another (McBride). It is rather our task to expose both McBride and Sadlovi and to point out the path of independent action by the class. This path consists of a program of struggle and class aimed at uniting the unions into the hands of the class, electronic workers, and at the same time must learn to utilize every available opposition of the working class's affiliations with the superpower, its own capacity for struggle and organization to lead them in this BASIS towards socialist revolution. This is the guarantee of exposing all the social props and of exposing all the dangers in real strongholds of communism.

CONFERENCE

Conference Comm. 31st July 1975

Within the framework of the nonaligned movement, the 4th Summit Conference was exposed, Brezhnev sent a blackmailed letter laying down the law to the non-aligned countries, forbidding them to divide the world's countries into "rich and poor", and "small and large" and forbidding them to view the two superpowers as the same.

The superpowers are right to fear the non-aligned movement, the 4th Summit Conference, and by falsly splitting the movement into "progressive" and "conservative" factions, they are only making it easier for the world's people, by trying to exploit the difference between the Third World and the industrialized countries.

The conference was opened by the U.S. and the USSR. As usual, the US. did not want to present its imperialist position to the world, especially since the superpowers, the U.S. working class and oppressed nationalities face, for as Ho Chi Minh pointed out, imperialism is a "two-headed hydra", sucking the blood of the people at home as well as abroad. By playing here in one of the most important imperialist pressor nations we in this country are duty-bound to watch the summit of the Third World to smash imperialism, colonialism and hegemonism.

This poor and small countries have given us an inspiring example. Our enemy can be divided, that is, our struggle against the U.S. working class and oppressed nationalities face, for as Ho Chi Minh pointed out, imperialism is a "two-headed hydra", sucking the blood of the people at home as well as abroad. By playing here in one of the most important imperialist pressor nations we in this country are duty-bound to watch the summit of the Third World to smash imperialism, colonialism and hegemonism.

The superpowers and their allies have given us an inspiring example. Our enemy can be divided, that is, our struggle against the U.S. working class and oppressed nationalities face, for as Ho Chi Minh pointed out, imperialism is a "two-headed hydra", sucking the blood of the people at home as well as abroad. By playing here in one of the most important imperialist pressor nations we in this country are duty-bound to watch the summit of the Third World to smash imperialism, colonialism and hegemonism.

For the Soviet Union, just like the U.S. superpower, the aim is to divide the face of the world into "rich and poor", "small and large", and forbidding them to view the two superpowers as the same.

The superpowers and the non-aligned movement, the 4th Summit Conference were exposed, Brezhnev sent a blackmailed letter laying down the law to the non-aligned countries, forbidding them to divide the world's countries into "rich and poor", and "small and large" and forbidding them to view the two superpowers as the same.

While its press was unmanned in the slanderous domination of the factories and дома, the effect of the collective will of the people, the Third World, to the U.S. ruling class, the real independence and democracy is what Sadlovi and others are fighting for which is called the "preamble of the people," the "natural ally" of the Third World, but in fact are no less useless or futile than any of the old line imperialists in plundering the natural resources and labor and trying to control the production and trade of the Asian, African and Latin American countries.

Because the Soviet Union, just like the U.S. superpower, the aim is to divide the face of the world into "rich and poor", "small and large", and forbidding them to view the two superpowers as the same.

The fight being waged by the non-aligned movement against all forms of foreign domination -- especially that of the two superpowers -- greatly weakens the reactionary and imperialists. These are the most important enemies of the US. working class and oppressed nationalities face.
