REVOLUTIONARY NATIONALISM

The belief that our people make up a nation. A nation without power, a cultural nation, i.e., a people with a common past, a common present, and hopefully a common future. Our task is to gain, maintain, and use power for National Liberation, the freeing of our people from foreign domination. We do this through the internalization and practice of a revolutionary value system and the development of alternative institutions, the most basic of which is the Revolutionary African Nationalist Cadre.

UNITA RECOGNIZED BY OAU

The Organization of African Unity (OAU), at the 23rd session of it's Liberation Committee, has recognized UNITA, The National Union for the Total Independence of Angola, as a legitimate liberation movement in Angola. This has great significance, because it means that UNITA will receive financial and material assistance from the OAU in its fight against Portuguese colonialism, and clears the way for full UNITA participation in the Sixth Pan African Congress in Tanzania.

The Congress of African People has been an ardent supporter of UNITA's just struggle in Angola, because UNITA, led by Dr. Jonas Savimbi and based inside Angola, is struggling not only for National Liberation, or the freeing of Angola and Angolans from foreign (Portuguese colonialist) domination, but also struggling for Pan Afrikanism, the unification of Afrika under socialism, and for the self-determination, self-respect, and self-defense of Afrikans all over the world.

UNITA recognizes that the glocal expression of Nationalism. The belief that Black People all over the world are Afrikans, with a common struggle and a common enemy, and that we must unify Afrikans all over the world to struggle for the unification and independence of Afrika under socialism, and for the self-determination, self-respect, and self-defense of Afrikans all over the world.

1. Suppose Richard Nixon will not resign, or even “allow” himself to be impeached?
2. In NewArk, just as Black people and other oppressed people in this city, have grown up fed with neo-colonialism, in the person and methods of Kenneth Gibson, the powers that be run Anthony Imperiale, TO FORCE US BACK TO A NEOCOLONIAL POSITION! Now we are supposed to all rally to defend Gibson. In other words, “if you niggers won’t go for Neo-Colonialism, you’ll get Neo-Fascism. Take Yr Pick!” So the masses (or 40% of our population registered to vote — a minority) choose Ken NeoColonialist over Tony NeoFascist, and the rip off bandwagon goes on and on.

3. The term Minis and agents perverts openly supported Imperiale, in NewArk. In Alabama, Nigger “mays” come out for George Wallace (Johnny Ford, Jay Cooper, etc.) and Wallace and Kennedy openly carouse to put together a Populist Demagogy.

Socialism

To struggle for cooperative economics (communism) as a scientific world system for the reorganization of world society and the redistribution of the world's wealth.

CAPITALISM IN TROUBLE!!

Turbulent times for Imperialism countries as contradictions of capitalism become more evident. Britains Heath, Canada Trudeau, & Germany's Brandt are out of office now (L-R), while Spain's Fascist Franco barely hangs on.

Capitalism is in deep, deep trouble! And getting deeper in trouble all of the time. While profits for the capitalist vultures continue to rise, the contradictions in capitalism are becoming more and more obvious.

Last year, for example, the profit for the 500 largest corporations went up by almost 60%. But all of this increasing wealth continues to be concentrated in the hands of a few, who specialize in stealing all the world's wealth and keeping it for themselves while the rest of the world remains poor and starving.

So Rockefeller can resign as governor of New York! But no matter, he owns New York anyway, along with governor wilson, 85% of the state's banks, exxon, guill and mobi, and what, Alia Peoples, Rockefeller doesn't own, the carriages, meloons, and kennedys do.

But while profits continue to rise for rocky and his imperialist clique, the contradictions become greater, for the simple reason that the rest of the world is starving, unnecessarily, and everybody knows it. All of that wealth, which is produced by the hard labor of the masses of the world's people, benefits only a small fraction of the world's population.

So a worker who works forty hours a week for $100 wages, actually earns the $100 in the first eight hours of his week's labor! The other thirty-two hours belong to the slave-masters, known today as owners. So workers spend 80% of their time producing wealth, called surplus value, for the capitalists. And these same capitalists turn around and charge the workers rent, sell them food, fuel and clothing at increasing prices, force workers own money and coax interest from it, build no new housing, refuse to share their food with those starving in the Sahel, throughout Africa, Asia and Latin America, and even the united states, all the time maintaining that the masses have "nothing to complain about," since they are "living better today than ever before!"

Capitalist nations, whose function it is to protect the world to insure profits for the parasitic corporations, are still in trouble, despite their fascistic use of police repression and violence in order to maintain their shaky grip!

So we see that in the U.S., watergate Nixon is in deep trouble, even though rodino refuses to stop stalling the impeachment. He is hoping Nixon will resign so he can save his hide from being exposed as a shoeshine boy for the mafia. Nixon refuses to get up off the tapes, and for good reason, because when he does gets off of them we see him as the perverted little chump he really is (explicative deleted). Somebody blew the whistle on the president, and his boss rockefeller is letting him go to the dogs, so he can step in as president, and consolidate all of that power.

Capitalist countries abroad are also in trouble, and so Canada's Trudeau gets dumped. The same thing happened to Britain's Heath earlier this year behind the Coal Miners strike. Germany's Brandt just resigned behind his own watergate. Meanwhile fascism continues in Spain, gets dumped by a new neo-fascist and France almost elects a "Socialist" Premier.

But no radical change has taken place in any of these countries, although it is plain to see that capitalism and imperialism are getting shaky, and will soon be resoundingly defeated. The masses of the world's people are tired of being exploited by rockefeller and the other imperialist powers, and will move to seize the world's wealth from the private ownership of the capitalists, and will redistribute the wealth to the masses of the world's people, reorganizing world society at the same time. Indeed, capitalism is in very serious trouble!

What makes our national liberation struggle in part a class struggle because we are not changing our system of capitalism, called us North to the factories, a national struggle spread throughout the mother country capitalist itself, and so the oppressed—oppressor relationships is ubiquitous throughout the total society—and simply from Europe across the sea to Africa, or Latin America. This captive nation, is spread throughout the society, espousing consciousness produced by different relations to the productive process as well as racial oppression! It is the consciousness of the economic oppression espoused as racial and cultural oppression, that gives our struggle its dual aspect.

MAULANA RON KARENGA DISCUSSES US/PANTHER
CONFLICT AND THE TACKWOOD DISTORTIONS

The Panthers and the Left were correct when they argued against our ideological insularity, against exaggerating the tendency to talk of revolution from the partial perceptions of culture, instead of from lessons learned from past history and struggle. But they were incorrect in their assessment and underestimation of the role of culture in the propagation and preparation of general struggle. As Mao states, "Revolutionary culture is a powerful revolutionary weapon for the broad masses of the people to overcome ideological ground before the revolution comes and is an important, indeed essential, fighting front in the general revolutionary front during the revolution." (On New Democracy)

Thus, if facts and reason were disregarded from ideological, fabrication and emotional deceptions, the liberating potential of culture was restricted. One cannot reductively translate cultural nationalism as simply song and dance, rationally Odetta, War, Curtis Mayfield, the Last Poets, Zululand & the Shimo and Zula dancers should be considered as having as much social function in building social consciousness as Teatro Campesino, Joan Baez, Soni Paz, Barbara Dane and Pete Seeger, and no doubt, more than Bob Dylan here. The function of the U.S. economy moved tostagflation"—i.e. low production and runaway prices. The monopolies make staggering profits, especially in oil, but nowhere else as well. The Nixon Supreme Court goes right on laying the foundation for state fascism with its precise stripping of rights from the oppressed and exploited aspects of the U.S. population, who are potentially the most in-curious.

In 1976 America will take a giant step to the Right! And whether it is Buellthead Ford (The president of the U.S.'s name in the Aldous Huxley novel, Brave New World, a fascist utopia where dogs are used for salaries, or smiling Teddy, or even if pathological nixon refuses to leave! Fascism, the imposition of totalitarian policies, measures throughout the society, especially intensified among the politically powerless and economically exploited will come. As usual, Black people will bear the great brunt of this!

Against this prospect we must organize to survive and defend. We must organize for the next crippling crisis which will pop america open like a fat raccoon. We must begin to bring our revolutionary movements into maturity, our mass parties into being.
