

## ARE YOU READY TO DIE FOR ROCKEFELLER'S MILLIONS?

War is about to erupt in the Middle East. The workers of the United States of North America could well become cannon fodder for the oil monopolists. Why?

THE U.S. CAPITALISTS WANT TO CONTROL THE MIDDLE EAST, ESPECIALLY ITS OIL, NOT BECAUSE IT IS SO NEEDED HERE, BUT IN ORDER TO DOMINATE JAPAN, EUROPE AND ALL THE OTHER COUNTRIES DEPENDENT ON ARAB OIL.

Our government backs Israel, which is their only secure foothold in the Middle East. The present rulers of the USSR also want to protect their interests in the Middle East. This has brought the two powers face to face in an uneasy "stalemate". The Zionist rulers of Israel have taken advantage of this situation to unleash furious attacks against the Palestinians and now the Arab countries. Inevitably, the Palestinians and Arabs will rise up together to crush Israeli Zionist aggression once and for all.

Will the Rockefellers, the DuPonts, the Morgans - in other words, the U.S. imperialists stand by and let this happen? No! They will defend the Zionists by attacking the Arab countries. But the Soviet rulers have commitments to the Arab states which it must also honor or lose their sphere of influence in the Middle East. Thus, the U.S. imperialists will drag us into a world war, solely to enrich themselves and the rulers of Israel. A world war which destroys millions of workers is the only "answer" they have to unemployment and inflation. This war is against the interests of every worker throughout the world.

THERE IS ONLY ONE JUST SOLUTION FOR THE PRESENT PROBLEM IN THE MIDDLE EAST. THIS IS THE CREATION OF A DEMOCRATIC STATE OF PALESTINE IN PLACE OF THE CURRENT STATE OF ISRAEL WHERE PALESTINIANS, ARABS AND JEWS WOULD ALL HAVE EQUAL DEMOCRATIC RIGHTS.

What can we do to help bring this solution about?

We must refuse to fight against our class allies, the Palestinian and Arab workers and peasants.

We must expose the conspiracy between the United States imperialists and the Zionist rulers of Israel against peace in the Middle East.

We must fight against every attempt of the U.S. state to take away any of our democratic rights and establish a fascist system in order to force us to fight in their war.

We must bring resolutions about this issue to all our trade unions and public organizations so that they can join the fight for peace.

Finally, the Communist Labor Party urges all workers to support those actively working for a real peace in the Middle East. We should force our elected officials to stop military aid to Israel and fight for the just cause of the Palestinian peoples.

LET THEM KNOW THAT WE WILL NOT DIE FOR ROCKEFELLER'S MILLIONS!
