

**DEATH TO THE KLAN!! PREPARE FOR REVOLUTION!! BUILD THE COMMUNIST
WORKERS PARTY!!!**

The newspapers fanned the Klan wildly and said they were strong and people should be afraid of them. But the Workers Viewpoint Organization said "NO, they are weak, two-bit cowards." On July 8th, the people showed this to be true by burning the Klan's flag in front of their eyes!

The newspapers pushed that it was just a few misguided racists and if we left them alone they would go away. But the Workers Viewpoint Organization said "NO, they are being promoted by the capitalists to split up and wreck the unity of the working class and they should be smashed by the people."

The newspapers said this is a question of two hate groups. WVO said, "NO, this is a struggle of the entire working class against the handful of parasites who use scum like the Klan to help rule over us."

The police said we should not defend ourselves in this march, that they are neutral and they would defend us. WVO said this is a lie. The police are the biggest butchers in our society. They are 100 times more dangerous than the Klan. The people must organize to defend ourselves.

The police, backed by politicians, tried to stop the march by scaring people and forcing the weak-kneed preacher, Rev. Johnson, to deny us his church. But WVO said, "NO, the people will have the march and it will be more powerful than ever."

The ruling class, the newspapers, the police and politicians are on one side and the working people on the other. The lines are drawn and this is the way we must look at things today. In every aspect of everyday life, the working people are on one side struggling against the brutal, vicious, dying capitalist class on the other.

Today, we can hardly scrape by. More and more working class families go hungry. Inflation destroys our standard of living. Many of us are getting laid off. If we still have jobs we are being worked to death. But as the working class gets poorer and poorer, the government gives billions of our tax dollars to make the rich get richer (\$1.5 billion to Chrysler). We can hardly fill our tanks with gas, we will freeze to death this winter, and the oil companies have doubled their profits in six months. This is the rotting capitalist system the working class will destroy! It's nothing less than the capitalist government that we need to tear down brick by brick and rebuild a government that serves the working class, the dictatorship of the proletariat.

To lead this revolutionary struggle, the working class needs its Party. That Party has just been founded this October. The Communist Workers Party was founded by the Workers Viewpoint Organization to lead the struggles of the working class to victory. As hard as we led the fight against the Klan, we will lead even harder the fight against their supporters, the big capitalists. Destroying the Klan is one step in our struggle for a bright future. . . . the end of exploitation of man by man.

The Communist Workers Party will celebrate the founding of the Party of the U.S. working class the first week in December. We invite you to celebrate with us.

Fellow workers, the Communist Workers Party, U.S.A. has been founded! It calls on all conscious workers searching for answers to study, to struggle, to join our ranks. We must fight for our lives and for our future; to bury the criminal rule of the monopoly capitalist class once and for all.
