The development of the U.S. as one of the great powers of the world, is in the most brutal exploitation and oppression of nations and national divisions. The right to self-determination, up to and including secession from the U.S., is a right of the working class and all nationalities within the U.S.

The right to self-determination, for all nationalities and for national liberation demands and for national liberation from U.S. imperialism.

The right to insurrection and qualified housing, food, transportation and medical care.
