DEATH TO SOUTH AFRICAN COLONIALISM!

South Africa is in political turmoil because of the recent rise of rebellions of the heroic Azanian people and the reactionary crackdown and fascist repression against the masses in South Africa by the racist colonial Vorster regime. U.S. imperialism’s apologists would like for people to believe that the Vorster regime will have a change of heart and lay down the butcher knives of while colonialism, that somehow UN resolutions will make Vorster the murderer & robber change into a man of peace and virtue. They say if you could just talk sense to Vorster, everything would be alright. So they advocate more “talks” with the racist South African regime. But what we must understand very clearly, despite all the lies of the bourgeois press—is that Vorster’s regime is following a very clear logic:

It is a vicious logic that Chairman Mao summed up from the experience of the people’s struggles throughout the world—a-gainst imperialism. And it is this: “Make (contd. on pg. 4)

MASSIVE LAYOFFS:

Capitalism on its Deathbed

The recent series of attacks against the U.S. workers in the form of shutdowns and layoffs, especially in the steel industry, force more and more workers to ask the question: WHICH WAY CAN WE TAKE OUT OF THE ECONOMIC CRISIS? 5,000 steel workers in Campbell, Ohio, 650 at Akron’s Goodyear Tire and Rubber Co., all of these providing service to the Ford Lordstown plant in Youngstown, Ohio. Another 3,000 laid off in South Chicago, 340 at US Steel in Pittsburgh and still another 4,000 at Bethlehem’s Lackawanna plant in New York. The so-called “economic recovery” that the bourgeoisie used to try to kill the workers to sleep with earlier in the crisis, was forced to fade out of the bourgeois press. Because the fact that the capitalist system cannot show the masses of people the way out of the hell of the imperialist economic crisis is becoming common knowledge.

In the steel industry, the capitalists have told the workers a whole series of lies, and the trade union bureaucracy in its betrayal of the interests of the workers, consistently attempts to fool the workers to sleep, so the working class cannot get itself together to fight the vicious attacks of the capitalist class against the American workers. So that in Youngstown, Ohio where the workers heard of the possible shutdowns and layoffs months and months ago, the bosses told the workers they had nothing to worry about because hard working factory hands like them should never fear losing their jobs. All this because they were tricking the workers into breaking production records so that the bosses could stock up on steel and lay the workers off! A long history of experiences in the working class movement has confirmed that modern capitalist society is a battleground of two political and economic struggle: on one side is this handful of super rich blood-sucking billionaires, such as the Rockefellers, the Morgans, Duponts, Fords, Millionaires, and various other imperialist financial groups.

And on the other side stands less of millions of American workers, black, Latin, Asian and white, i.e., the U.S. national- tional working class. The millions of dis-inherited, who are forced to beg these super-billionaire moneybags for permission to work for them. The labor of these workers creates all the wealth, but all their lives they are forced to struggle for enough food, clothing and shelter to provide for their families, struggling for jobs as if it were “charity” from the capitalists, and suffering daily from the blows of the imperialist system. The current economic crisis intensifies the massive layoffs, shutdowns, the national housing crisis, the rise in police brutality and killer cops, and the cutbacks in all social programs.

The role of the traitorous leadership of the United Steelworkers of America, was to expand the workers in their struggle in Youngstown, as they dismiss the steelworkers throughout the country. The criminal No Strike clause that the two outlaws, Abel and McBride, agreed to behind the backs of the workers is a sample of their general role in the worker’s struggles, to tie the hands of the working class, so that the working class cannot struggle to defend itself against the attacks of the capitalist class. This is why Lenin correctly labeled them long ago, the agents of the capitalist class inside the working class movement, and our experience has confirmed exactly what Lenin pointed out—that capitalism could not survive without the labor aristocracy (workers who have been bribed and detached from the real needs of the working class) and the trade union bureaucracy (paid trade union functionaries and the trade union apparatus), which act as]

PRE CIVIL WAR REVOLUTIONARY BLACK NATIONALISM

The series “Pre Civil War Black Nationalism” was put together in 1966, by H. Ford Douglass, under the auspices of the “Black Liberation Commission” of the Progressive Labor Party. McAdoo was obviously the most prominent advocate for this position, not only at the time of the Tom Paine-Episcopal period, and the article itself, is from a time when PL was seriously considering black nationalism.
