October 29th outside the United Nations in New York hundreds of demonstrators protested the visit of Egyptian President Anwar Sadat to the U.S. to hold talks with the spokesmen for U.S. imperialism in the Middle East - Ford and Kissinger and Rockefeller. Sadat also addressed the United Nations General Assembly calling for resolution of the Iraqi-Palestinian Peace talks and made it seem that he was not satisfied with the Sinal Pact made with Israel with the help of U.S. Kissinger diplomacy. This apparently was to calm the Arab nations and the PLO who have attacked Sadat and the Sino-U.S. agreement as a sham and smoke-screen for U.S. imperialist dream of neo-colonialism, contention and collusion with the Soviet Union social imperialists.

**KISSINGER IN CHINA**
Dr. Strangelove Gets A Tongue Lashing

When U.S. Secretary of State Henry A. Kissinger and his party visited China recently to confer with the Chinese government, Chinese Foreign Minister Chiao Kuan-Hua delivered a sobering speech summing up the world situation and the imminent prospects of war and The real intentions of the U.S. imperialists are revealed in the terms of the agreement itself. It extends U.S. presence in the Middle East by putting hundreds of U.S. military personnel in the Non-Arab countries as "technical experts" much like the U.S. laid the groundwork for war in Vietnam. Egypt also has agreed to allow Israeli goods passage thru the Suez Canal. The same desperate movement of U.S. imperialism in collusion with Israeli Zionism, paid for an imperialist offensive in Lebanon, where they have instigated a bloody civil war against the people of Lebanon.

**Police On Rampage In South Bend**

South Bend police, in a savage move against the black community, recently attacked the family and home of Mrs. Shirley Winston. The situation developed when two white officers patrolling the South Bend side ghetto area demanded that a group of young blacks get off the car they were sitting on. The car belonged to one of the young men, and was parked in front of his home so, of course they refused to move. These racist killer cops, infuriated at not having their commands obeyed, immediately attacked the youths and arrested one of them for disorderly conduct!!! The other young brothers courageously replaced the attack and freed their captured friend. He then ran across the street into his house closely followed by the fascist goons who finally caught him and began to double-team him. Mrs. Shirley Winston, the young man's mother, came to defend her son and together they were able to send the two bullies scrambling out of the house, bruised and bleeding, to the hospital emergency ward.

But these cowards, not accepting defeat, called in more of their brother officers to take up the fight for them. So in just a matter of some 24 policemen stormed in Mrs. Winston's house Gestapo-style and began smashing pieces of furniture in every room. Still not satisfied, these fiends then attacked three of Mrs. Winston's young children and several other people there. One child was handcuffed and rammed head-first into the side of the police van (This was witnessed by a member of the South Bend police).

Three important developments should make serious Republicans take a closer look at how broad is the time frame they see for U.S.A.'s hunch toward the far right and the time it will take to put together a revolutionary Marxist-Leninist party that will be able to seize state power and bring socialism to this country. Because those are the clear alternatives, either make revolution or prepare for fascism. But either way, "Cast Away Illusions. Prepare to Fight the Enemy!"
Superpower Contention Will Be Defeated By The People In South Africa

The question in Southern Africa, as correctly pointed out by the Chinese is one of opposition to Colonialism and Imperialism and Hegemonism. "With the collapse of the Portuguese colonial system, the birth of a number of newly independent states the African national liberation movement has advanced to a new stage, and last stragglers of colonialism in southern Africa are assailed from all sides by the multitude of African people and countries persisting in struggle". But colonialism has developed to neo-colonialism. And it is neo-colonialism in southern Africa that has tried to confuse the people. Black skin united with U.S. or U.S.S.R. to oppress Africans. "But even before old-line colonialism dies out, the 2 superpowers have already stepped in. The United States has long supported colonial rule in Africa, and southern Africa in particular. It is even more obvious that "socialism" has infiltrated into the African national - liberation movement to sow discord and stir up trouble in an attempt to bring the movement within its social-imperialist orbit." Anyway, the so-called "new" colonialism, in the form of Super-Power manipulation as a result of their contention which are the chief contradictions in capitalism to their extreme. The contradictions between labor and capital, between imperialism and socialism (especially the Superpowers - U.S. vs. U.S.S.R.), and the contradiction between imperialism and Socialism. Today the contradiction between the Third World and imperialism constitutes a revolutionary motive force propelling the wheel of world history and the main force combating colonialism, imperialism, and particularly, the superpowers." (Vice Premier Deng Hua- ping's speech before the U.N.) The Third World's leading struggle against imperialism is sharpening the contradictions between the Superpowers also. Already driven by contention over foreign territories, orthodox and raw materials, the Superpowers are locked in a frozen struggle for hegemony! Palestine Liberation Organization and the Lebanese Resistance Movement led progressive Arab forces. Here, as always, the art of war is defense against the imperialists use right wing "christian" attacks led by the Phalangists against the"martyrs" and left "muslim" forces, as the over-used smokers of "religious conflicts" to mask the raging class struggle in Lebanon between the reactionary political forces who want to keep Lebanon safe as a base for U.S., British, and French imperialism, while the masses of people who suffer the brunt of imperialism's superexploitation are struggling against foreign domination. Progressive forces are bringing the old reactionary gangs back into retrograde, but this imperialist intrigue has cost the Lebanese people more than a thousand casualties. But very clearly, this frenzied offensive against the steel of Arab unity in support of Arab Liberation will not work. The imperialism of U.S. and British imperialism and Zionist Israel are continually isolated, and there is a firm, mighty front of the U.S.S.R. to pass a resolution that "zionism is a form of racism and racial discrimination." The resolution would further steel the bond between Arab and the other 3rd World peoples, because in this class struggle against imperialism, racism has been one of the main ideological weapons used against the 3rd World. And, in the face of this international defeat, where progressive forces in the world will hold up a mirror to strengthen the tension in the face of U.S. imperialism can only threaten the U.N. with the cut of funding, and characterize the majority of the world's people, as "unimpor tinant".

Revolutionary and progressive forces in the Middle East are not caught off guard by the Sinai Pact, because they understand that in the final analysis, as the Chinese delegate--to the U.N. summed it up, "it is not agreements on paper but the realities in the Middle East" (Chinese Foreign Minister Chiao Kaun-Hua). So progressive forces are criticizing and rallying against U.S. imperialism, and other superpowers, "imperialism, and revolution are inevitable. Imperialism constitutes a revolutionary motive force propelling the wheel of world history and the main force combating colonialism, imperialism, and particularly, the superpowers." (Vice Premier Deng Hua- ping's speech before the U.N.) The Third World's leading struggle against imperialism is sharpening the contradictions between the Superpowers also. Neocolonialism

Kenya in East Africa, a neo-colonialist state, has again given us information on the intense class struggle going on there. The class struggle between the Kenyan bourgeoisie and the masses of the people.

Recently, the Deputy Speaker of the Kenya Parliament, John Seroney and another legislator, Martin Shikuku, were arrested because of their opposing views to the repression and hardships forced on the Kenyan masses by the Government.

The Mau Mau Revolution of the 1950's in Kenya was supposed to have been defeated by the Kenyan people, but it was not completed. The national democratic revolution was waged and won, that is British colonialism was "overthrown." The revolution stopped at this stage. The proletarian revolution still has to be fought in Kenya for dictatorship of the proletariat.

The Kenyan Revolution was betrayed. These traits who are now in power in Kenya are the lackeys of U.S. and British imperialism. They repress the people and are incapable of improving the lives of the majority of the society. The hereditary i.e. the Kenyan revolution can be seen everywhere. The government ministers and members of the National Assembly (native bourgeoisie) have become capitalist owners of shares with big foreign capitalist corporations. They are prop- ectors of firms and big landlords. Ten years after independence, British imperialism still runs the affairs of Kenya. British judges still preside over the national courts, British officers still hold many of the top army commands, British officers still control the national police force, and British capitalists still own nearly all of the national economy (utilities, transportation, newspapers, manufacturing, banks and big commer- cial establishments).

Kenyan society is based on the capitalist mode of production, which

Kissinger In China

While in the Peoples Republic of China recently, U.S. Secretary of State Kissinger met with Chairman Mao Tse Tung, but U.S. policies were thoroughly blasted, especially by the Chinese analysis of world affairs which characterized the rising prospects of war and revolution throughout the world and pointed unstintingly at "detente" between the U.S.A.-U.S.S.R. superpowers as an "illusion" which would lead to world war. (Continued from page 1)

Foreign Minister Chiao Kuan-Hua is referring to the laws of development of imperialism and to the fact that imperialism takes the contradictions in capitalism to their extremes beyond which war and revolution are inevitable. Imperialism means war! The basic contradictions in imperialism that are sharpening today are the contradictions between labor and capital, between imperialism and socialism (especially the Superpowers - U.S. vs. U.S.S.R.), and the contradiction between imperialism and the Third World, as well as the contradiction between Imperialism and Socialist countries. Today the contradiction between the Third World and imperialism constitutes a revolutionary motive force propelling the wheel of world history and the main force combating colonialism, imperialism, and particularly, the superpowers." Systematic repression continues against AIM, being new law and the harassment continue against Indians and members of AIM (American Indian Movement). 5 Indians were indicted on possession and transportation of fire arms. Supposedly they were riding in a car that exploded although they were actually at a hospital ten miles away. 34 AIM members and sympathizers were arrested and jailed. One Ogalla was beaten to death. In Minneapolis, government agents broke into a home without a search warrant and found a so-called "weapon". Six people were arrested. On the Rosebud Reservation in South Dakota, FBI agents and police raided Crowboy's Paradise, the home of AIM spiritual leader Leonard Crow-boy and arrested 7 people. In Manderson, South Dakota, an Indian was arrested for the murder of his best friend, another for assault, but he was actually trying to escape from the persons assaulting him. The Native American Solidarity Committee of Wichita was formed to "defend" those being charged and bring the key issues of treaty rights and self-determination to the forefront. The Committee states that "The charges represent part of the continuing program by the U.S. government to suppress and destroy Native peoples. The people must resist these efforts by every means available. These arrests were made over a wide area yet the federal government seeks to connect them all together to make it seem like a giant movement towards violence. They seek to destroy us by putting us in jail. These strong arm tactics have only served to strengthen our people." What it is?? Outlining the growth of the Nation, International Representative Hakim Farrakhan of the Nation of Islam, said that "everything can drug you if you hold on to it beyond the value of time. Blue Cross, Blue Shield Strike over, but the Struggle Continues. After 12½ weeks of union cooperation with Blue Cross Management's attempts to suck the funds of the masses of working people for the bourgeoisie ruling class, the strike is over. The Union leaders helped Blue Cross-Blue Shield get its rate hike, but after the smoke screen of tricky words and clever tricks, what did the workers actually get? Nothing but more hard times: 1) Sick Leave - the management will keep hands off for 6 months and watch the attendance records, if it exceeds 4% they will cancel the policy of pay for sick time. So the workers cut each others throat doing the management's job of "attendance control", which really aids the bourgeoisie in breaking down worker solidarity. 2) Wage increase of 19½% over a 3 year, 8 month period. That wage increase decreases in 11½% in 6 months. 3) Sub contracting of work when the owners can prove it is cheaper. This is done by necessity of the union, which means they can prove it anytime they want to. The strike is over, but the struggle must continue. The struggle at Blue Cross-Blue Shield is a result of the general crisis of imperialism. With losses all over the world the capitalists have less and less at their disposal the super profits used to given concessions to the workers here with: sick leave, insurance, personal days, or other bonuses. And this is the death knell of capitalism.

International Conference in Solidarity with Puerto Rican Independence held in Havana. The International Conference in solidarity with Puerto Rican Independence took place in Havana, Cuba September 5-7. Dr. Osvaldo Dorticós Torrado, member of the Political Bureau of the Communist Party of Cuba, and President of the Republic of Cuba reaffirmed his party's and his government's total support for Puerto Rican Independence, reaffirmed that Puerto Rican independence was nonnegotiable, especially in the context of bilateral discussions with the U.S. and recognized the fact that the Puerto Rican Independence Movement was the sole representative of the Puerto Rican nation. These points were positive along with calls of solidarity and support by honest forces, but the Conference was a contradiction in that it was clearly stacked heavily with the revisionists.

The Conference agreed upon 3 basic points: 1) Puerto Rico is a colony of the U.S.; 2) The sole representative of the Puerto Rican people is the national liberation movement of Puerto Rico, which is being forged by its patriotic, independence and revolutionary forces; 3) A specific plan of action to be implemented on an international basis. The General Statement of the Interorganizational Conference reads: "in view of the armed struggle that must be waged for independence. In fact, the problems of peaceful co-existence among states with different social systems, the international process of detente which was reflected in the outcome of the Conference of European Security and Cooperation held in Helsinki, and the "Detente" is actually the main threat to liberation struggles. Plus Conference supported U.S.R. backed MPLA (Popular Movement for the Liberation of Angola) rather than calling the United Front of all the forces in Angola. The independence of Puerto Rico must be supported, but Soviet Social Imperialism must be denounced & its lackeys exposed.

Fascist Spanish Regime Executes Five Revolutionaries. In defiance of international protest to commit their crimes, the Fascist Franco regime in Spain exectuted five revolutionaries, members of the Basque revolutionary organization ETA (Euskadiko Ezkerra, or Basque Democracy), who have been waging a struggle for the self-determination of the Basque people. Mass demonstrations of protest and resistance in Spain came as a result of the executions. In Madrid, over 1,000 people demonstrated in the streets. In Bascay province, 1,000 people blocked the highways. Workers of all kinds in Argentina demonstated their tools to take part in the rallies. Over 30,000 Basque workers took part in one strike, while 100,000 workers and 150,000 students organized a 48-hour general strike throughout Spain. The fascist police attempted to stop the demonstrations by firing into them. There were also demonstrations throughout the world, with countries condemning the fascist France regime. The governments of Britain, Germany, Denmark, the Netherlands, Norway, Sweden, France, Belgium, and Portugal recalled their ambassadors to Madrid. In all those countries except the U.S., the American imperialists, who have aided Spain and Franco to continue its repressive rule and are now actually negotiating to continue use of 4 military bases in Spain paid Spain $750 million in military aid. Now a new element has been added, Franco is on his deathbed. Prince Juan Carlos de Borbon is his designated successor, but already forces have aligned themselves to struggle against the continuation of the fascist regime in Spain supported by U.S. imperialism.

Ford-Rocky Divorce?

(Continued from page 1) but keep revolution in the distance. These vetoes now topped, by the refusal to grant New York guaranteed for the bonds it wants to sell to the banks and other large investors. If the city can't sell these bonds it will default meaning it can't pay its creditors eg, the banks and the many city workers, police, firefighters, etc dependent on service programs. Obviously, Rockefeller who just owns New York State opposed the city's sale of federal guarantees for the bonds, because most of those bonds were going to be sold to Secretary of State. But also, and as the debts now owed by the city are owed to Rockefeller banks and they want their money. Ford, in his extreme rightist posture, reflects the thinking of the southern, southwestern and western new money financial groups who by and large are not tied up in the northeastern banks. As a matter of fact those interests who were Nixon's last backers figure that Rocky need to take the weight, and this means that the open competition between the groups intensifies despite earlier cries of "national unity", after Nixon's destruction.

2. The firing of Schlesinger, Colby, Morton and the demotion of Kissinger. All these moves are to do these things: a) put new men in sensitive spots like the cia where there has been a great deal of-public criticism, b) put Ford's "own boys" in top spots who can make decisions from the bottom up, c) to take some power away from Kissinger to appease the Reagan faction to the right of him who say that Kissinger has too much power being the head of the national security agency as well as secretary of state. But also, and this is key, take additional power from Rockefeller, since Kissinger is Rockefeller's man and ex-employee and Rockefeller's policy is Rockefeller's.

3. The Rockefeller statement of not being a candidate for the vice presiden­
tial spot in 1976 is therefore to be taken as a move to stop the New York no longer sit still under the rightward move, meaning increasing support of interests of the San Antonio New York groups (California, Texas, The South), when these interests are opposed in the short run to his own. The New York policy of Ford's must sting. Second, the international situation, particularly around detente the arms record, China Policy and other Rockefeller sanctioned bits of bourgeois interna­tionalism, always conflict with the Reagan right and the south, southwest and western groups, who Ford now

**ECONOMIC CRISIS:**

New York City then "supposedly" had enough money to operate, until December 1st, at which time, Governor Carey, the city must get federal help.

While pressure was supposed to be mounting steadily in Washington for some form of Federal aid to rescue New York City (Rokey's Banks) the Mayor of New York, Abraham "no-count" Beame and the Emergency Council Board announced massive new cutbacks in city services and the elimination of 50,000 more jobs in the next three years. The city union leaders have threatened a general strike if the new cutbacks are pushed too far. Into this chaos, these labor aristocrats are afraid of mobilizing the workers in such a fashion, because the workers would see their own strength, and see that the big labor hacks and bourgeois lackies are their enemies too. General "Vice President" Rockefeller on the other hand, the giant among multimillionaire corporate wealth make it seem as if he is opposed to a takeover of New York City when in fact his financial arm - "Big Money's" Rockefeller Astor Corporation headed by Felix Rohatyn, Rockefeller's personal banker and a partner in the banks of Hearst, Fruehling-Rokey's banking firm of Lazard-Frances', and mastermind behind the growth of the New York City banks, is a member next to president Harold Greenen; and member of board of directors of the New York Stock Exchange, Rockefeller can do anything he wants to do without having to answer, writes Roger Alcyon and Helen Bodian in a recent magazine article, New York City basically defaulted last spring when the Municipal Assistance Corporation Act legislation was passed last June and on that day. Patty the city went into virtual receivership with representatives of its major creditors taking over, (Continued from page 1).

The bonds causing New York City to be short of $95 million for the day; total expenses were $851 million due that day. While Governor Hugh Carey of New York and other New York Politicians were putting the pressure on U.S. president Albert Shanker for that $95 million in union's retirement funds, the Sanitation Department held back its checks to workers while the city drew up a list of money priorities. Later on Shanks was informed by the political presus.

**Pattie Harty—What it is?**

"Now that Pattie's home I really don't think that too much is going to happen to her," Randolph Harty's response to a reporter's question as to what was to become of his daughter after her capture, seems to accurately sum up the mood of the masses regarding the activities of Patricia Campbell Harty.

Question. Did the events of the last 19 months serve to politicize "Tania" to a degree that she has completely aligned her class interests with those of the workers? How can we understand nationalities of the U.S. to the effect that she has committed class suicide, is dedicated to waging revolution, and remaining the Bourgeoisie State, and seeing that the masses whose socialized wealth producing labor that is ripped off by the Capitalists (Rocky, Morgan... Hearst, etc.) sete the means of production and directly control the distribution of wealth and the operation of the State and all its facilities.

We can only attempt to answer this by analyzing objectively what "Tania" has done in the past, and in the present. (Continued on page 3.)

California, an exclusive wealthy suburban community, where she received a traditionally "sheltered" Catholic private school education upbringng give no indication of revolutionary consciousness or radicalism, unless you consider the class struggle and the mass struggle for freedom in the class struggle and the mass struggle for freedom.

In South Bend, St. Louis (above) and in communities across the U.S., national oppression and racism and the oppression of the working class is maintained by the repressive, brutal "hit men" of the state, the police, these "special bands of armed men," who set the rules to protect the ruling class and repress and murder Blacks and Third World people and poor working class Whites. Increasingly the people refuse to keep poor and exploited in the face of a super-bourgeoisie profit for the filthy few of the capitalist ruling class who will have their hit squads, brutalize and terrorize even our children, as shown above. Attica—Trenton State

"We want complete Amnesty, meaning freedom for all and from all physical, mental and legal restraints..." this was the demand of the Attica Brothers in 1971 and remain their cry four years later. The Attica Brothers—62 prisoners from Attica who are being charged for the murder and assaults committed by state troopers during an incredible "riot" (these charges carry a maximum sentence of over 60,000 years in prison).

The Attica Brothers—62 of the 2,000 men of Attica who united on September 9, 1971 and rose in rebellion against the inhumane treatment and excessive conditions at Attica; they rose with 31 demands of self-determination and democratic rights. "We are men, we are not beasts, and we will not be beaten or drove as such. This is the sound before the fury of a people who are oppressed," (L. D. Barkley, murdered in the Attica rebellion). This rebellion was crushed—don't believe the state propaganda. The people had to storm the prison armed with M16s, Gun-Dum bullets, CS gas—they killed a police officer and injured and brutalized and wounded 100 more.

In this bourgeois democracy, a country which prides itself Rule by the people, the people, and of the people, actually encourages the masses of people who own nothing and must struggle just to survive everyday, the killer policemen with alarm. But the state's government is the tool of the ruling classes; 16 families, the 16 families about, to oppress the working class. The state uses "special bands of armed men" (Marx)—police, troopers, national guard, etc.—to support this class. So now Black freedom seeking men are on trial for their lives, not Rockefeller and the high official responsible for the killings.

"76" STRATEGY-FORD VETOES

As the U.S. economy falls deeper into depression the bourgeoisie and its Democratic-Republican political party must think of new ways to cast the illusion of democracy upon the masses of American working people who already should be conscious of the bourgeois threat to imperialism. The most extreme pose of his and the Republican-Republicaarty party totally bourgeois character is his proposed $26 billion dollar tax cut in a trade off for an equivalent reduction in government spending. This move by further cutting the amounts of the monies spent on federally funded social service programs in an attempt to cut back one billion dollars in the food stamp program, which has only a total budget of five billion dollars, and serves 18.8 million people, which if cut will affect 3.4 million poor and working people. At the same time that he is cutting off poor working people from purchasing food, he is reducing the amount of income taxes to be paid by those in the upper income brackets. Close to 75% of the reduction in taxes will be from this strata.

Out of the October meeting, the Greensboro conference, at which locals were hearing criticisms of the SOP, was laid out - namely by Arthur Johnson and Abdul Alkalimat were supposed to be "dealt with" the document. It was also decided to send a letter to both within a Black United Front, which has only a few months before been characterized as a "dealing with" and has no way of character, including at one point almost the entire spectrum of the Black Nation, classes, organizations, tendencies and formations around support for African Liberation struggles, which had moved from June 73 to February 74 to broaden front to an anti-imperialist (anti- racist, anti-capitalist) formation, which called for a United Front but at the same time put out a document, some 60 pages in length, extremely well documented and researched arguments not altogether (correct) which also looked exactly like an official document of the entire ALSC which are done without quarter; the theoretical positions of most of the people initially in the front. Any resistance sharpened ideological struggle not only inside the ALSC but also in separate areas of the Black Liberation Movement. And the error in this document and position represented, without a doubt, accept many of the pro-So called patriotic brothers and sisters stand in the front, as well as much of the "right wing" element who all left the ALSC around the struggle over the SOP were not right wing elements in the con- solidated sense that term, making them simply alarmed by the swiftnes with which they now had to consider sets of theoretical assumptions, many of which

they had even previous hostility for, or at least no clear tradition of support for.

By April of 1974 Haki Madhubuti had resigned from first the CAP and ALSC initially for various reasons: hostility to developing theoretical positions. Jitu Weiss also recently resigned from the CAP on the theory that resignation from ALSC was less precise, but it also followed, in fact. These were significant moments in the symbolic moment for the Greensboro conference. So the resignation of Brother Mwanza and his mysterious and unqualified ALSC. The series "Pre-Civil War Black Nationalism" was put together in 1966 by Bill McAdoo, as part of the "Black Liberation." Progressive-Labor Party. McAdoo was one of those arrested for refusing to testify (Bill was also charged with "Criminal Anarchy," in the Harlem Rebellion in 1964. Observably the Mecha- nistic Viewpoint, whatever it is, from a time when PK was struggling to take progressive stand.

Since then, the Progressive-Labor Party has become the most our rageous carriers of the American sickness and most not even a serious campaign, organization. Unfortunately, while choppin' out the construction and growth of atrailvanguard communist part in the USA.

(3rd Part)

It is a consideration of the national question that the reactionary nature of the black masses of Delany and other black Zionists called for the establishment of a black capitalistic state in Africa in the view of "possessing" and exploiting the entire continent of Africa. He definitely excludes the black masses of the sovereign black state on the Northern American continent.

Why was this a fundamental question of the reactionary state? The answer is simple, when one views the history and objective conditions of life of the black masses.

The black Zionists believed, in effect, that slavery in America could not be overthrown and that the revolutionary potential of the enslaved black masses, even though the multitude of the revolutionary state in the emergence of revolutionary nationalism gave irrefutable proof of this potential. In fact, the black masses looked upon the black masses (including the multiplier state) and argued that the destiny of the black nation could not be entrusted in their hands. Only "worthy gentlemen," only "harry- colored feme'" were capable of becoming "joint proprietors" in determining the destiny of the black nation. The class prejudices displayed by Delany were not alien to the black masses.

The facts are that there was no way in hell that the 90 per cent of the black masses could leave North America while the power of the slavery was supreme. The only people that the blacks could take to any "promised land" would be the free blacks. The vast majority of the black masses have been subdued and surrendered to the oppressor. The black Zionists believed that the power of the slaveholders could not be broken, so it is obvious that aban- doning the cause of the black masses was a necessary part of their scheme.

They would, in effect, help to make America safe for slavery, by siphoning off the free black population and preventing a united front revolutionary state in black North America. The primary role of the black militias was that they gave to the American Colonization Society.

The other reason the black Zionists gave to justify their plans, the fundamental fact is that they served the interests of the interests of the enslaved black masses. But this is only the obvious side of black capitalism.

The black Zionists had designs on Af- rica, but they were not in the spirit of a "self-defense" descendants of an ancestral home (after two centuries of emancipation) to live among their own in peace and harmony. This was not their intention, nor was it possible. Africa was inhabited by many different tribes, which imposed their own internal and external encroachments.

They had been enslaved by both blacks and whites. Therefore, the mere quality of the blacks who were not a privileged special privileges in Africa. The North American blacks were just as much stronger as the African peasants, and the white French and English. After 250 years of physical separation and separation, the development of the North American black had little in common with the various African peoples except for a common historical ancestry. But the African peoples weren't reading history books that year.

The various African blacks did not make special allowances for a person because he was black or because he had been wandering in the wilderness of oppression for 250 years. Each inch of inhabitable land in Af- rica was fought for to secure them which one of the many African peoples. Wars were fought to secure these claims to work. The found the black lifeblood of each of the African cultures and societies, therefore, "visitors who came to stay" were most unwelcome, and only superior force of arms and defeat in bloody battles could make

Where the people are held in a virtual condition of slavery. Concerning this fact of history, the noted black his- torian, Carter G. Woodson, has said of Liberia: "Unfortunately those in control bear the scars of the natives from the slaveholders of the United States by which they forebore were... sent to Africa." So the crimes that the white founders of the United States committed against humanity, namely, the extermination of the American Indians, the seizure of the land of the Indians, and the enslavement of Africans, were repeated on a smaller scale by the founders of Liberia and their white imperialist sponsors. The black Zionists aspired to this type of brutal, primitive, capitalist accumulation. It was the logical extension of their doctrine. Africa as the "promised land" and Liberia was their model even though, for practical political reasons, they verbally dis- associated themselves from the American Colonization Society and the American government which established Liberia. The capture and exploitation of African labor power and African resources, with the aid of the white imperialists, in order to fulfill black capitalist aspirations, were fundamental to black Zionism.

The black Zionists believed that they had little faith in the revolutionary movement of the black masses of themselves under the wing of an imperialist sponsor, imitated the oppressor, and became tools of the oppresor. The black Zionists took their cues from the most reactionary American traditions.

Have we not seen this happen in the recent past? If black Zionists would have seized and occupied the Palestinian state after making a deal with the Britishe (who were in establishing a "favorable balance of power" black Zionists would have displaced indigenous peoples, seized their lands, and carried on a vicious predatory war against them; would the victims of this infamy have looked the other way, simply because they were black? Simply because they had been oppressed? Would the Egyptians, Syrians, and the Jordans have said: "Welcome! my land is your land. You've been gone so long, but now you're home. Good thing you're black or we would have been as mad at you for killing our people, taking our land, etc." No, indeed! No, indeed! There would have been no welcome to the "promised land" on that day.

A word about Liberia. Liberia has never been free of white imperialist domination (usually through control of the economy). In the beginning, the U.S. Government and its American Colonization Society front sponsored Liberia as an American-controlled en-clave, for a foothold. After it was realized Liberia fell to British domination, after which America moved back in on the wings of the American-sponsored "Clean Corporation," which virtually controls all of the plantations in Liberia today. The black Zionists of 1952 expected any better than domination by the very imperialist powers to whom they wedded for sponsorship? History proves otherwise. They would have just been part of France and England's over-all plans for controlling Africa.

Who Is The Enemy?

(Continued from page 9)

The "Black Zionism" or "Back To Af- rica" movement and others has had latter day spokesmen with great influence such as Marcus Garvey, who was the largest black mass movement in the U.S., having "Back To Africa" as one of its central programs, with the "promised land" put to the majority of the black nation then as it is now. Groups like YOBU's African Nationalist Pioneer Movement, UNIA, PAC, JAASS pushed an updated Back To Af- rica in the 60's, and some, including Stokely Carmichael's AAPRF, continue to do so in the 70's. But black people have continuously provided a clear example that they intend to Stay & Fight the actual struggle for democratic rights, self-determination and true liberation of the Black Nation through Socialist Revolution.

These various African peoples surrender their lands. The blacks who were freed from slavery, as well as anyone else. That is why they opposed upon the chance to ex- tend the necessary "provisionary state inclusive military aid, of course) to ac- cept the isle of Dominica for the black masses exploiting Africa. Their plan was one of conquest and exploitation. They were not returning such "bequest of Africa" to regime the "tribe" after a long group in the wilderness of oppression. They were returned to conquer the most. They were returning to possess and exploit Africa in accordance with their black capitalistic aggressions.

Liberia provides us with a good ex- ample of this. The black North Americans from Liberia seize the land by force of arms (with the military aid of the American and the English), but they also enslaved various tribal peoples and forced them to labor. The black North Ameri- can were slaveholders, and there are many plantations in Liberia to this very day (To Be Continued)

First of all, no single man in this country (with the exception of David Rockefeller or Kissinger) has the im- print of the financial groups as does Richard Milhous Nixon. Nixon firmly believed that the 1960 election was a referendum on the cold war, and that the black Zionists of 1952 were "not in the spirit of" the black masses.

But because aerospace and organized crime interests and their representatives, who will defend local, regional interests not the global interests of primary groups. And because New York bankers, and David Rockefeller in particular, have ex- pressed some reservations about back- ing the black-Zionist plan for the sake of the pale of the primary groups, the Nix- on campaign in 1960 suffered from less- than-enthusiastic backing from Rockefeller banks.

JFK, on the other hand, came from the black masses who, in the further, coveted the wealth of Joe Kennedy, who interlocks with Morgan and Texas.

Anti-racism, anti-imperialism around anti-capitalism, analysis of Capitalism was very evident everyday. We must struggle harder. Victory will be ours! The people will win!

LISTEN TO THE PEOPLE!

QUESTION: What do you think about the BWUF meeting?

Odessa Grant, St. Louis.

I like the very good in their responses. I like our bodies.

Janet Wheat, Atlanta.

The principles of unity are vital to this organization. We are some of the most progressive groups that had to be eliminated before Black Women or Black people can think.

Melvin Bailey, Indianapolis. I was impressed with the strength of the group of sisters, although it’s small in number. They are dedicated to the struggle. The principles of unity of the BWUF that they had adopted are the only women face but Black women face on a day to day basis and I think it’s ironic that more sisters aren’t participating.

NEW DEVELOPMENTS

of the BWUF

1. National Newsletter was proposed and discussed at length and finally adopted by the assembly. Executive Director of the BWUF is to have a propaganda person who will be responsible for articles being submitted from each chapter. Theanda person will also be a part of a national board of the Newsletter. This National Board will make up of the national board meetings of the BWUF. But in the interim the elected Propaganda and political education committees of the national board committee will be responsible for receiving all the local news articles and putting them together. The first edition of the Newsletter will be out March 8th, 1976, in collaboration with International Working Women’s Day.

2. Each BWUF is to develop a local organizing brochure - a sample for such a pamphlet had been developed by propaganda was brought to the mtg. as an example)

3. Introduction of the BWUF organizing button to be sold on a National scale was voted.

4. A National Political Education Committee was put together that will include the person from each local that will represent at National meetings to discuss political education and how to develop political education both locally and nationally.

5. Anti-Semitism is to be added as a 4th principle of unity of the BWUF. The meetings were long and tense about how to define with anti-Semitism. The people of the BWUF, the working class, and the growing revolutionary organization of the BWUF.

The anti-Semitism line will be a part of the items to be ratified at the next National Assembly.

National Programs

1. BWUF will sponsor a multi-ethnic, multi-class experience in New York City March 6th to discuss the formation of a Revolutionary International.

PROLETARIAT - propertyless wage earners.

The political working class and struggle of the multi-class in the interest of the proletariat.

DICTATORSHIP OF THE PROLETARIAT - the dictatorship of the proletariat is the form of government by law and based on force of the proletariat over the bourgeoisie by the state. The state is a hierarchal system of political and economic power. It is the only way to express the principle of unity of the BWUF.

Bourgeoisie: the ruling class under capitalism, that is, the majority of the large mines, oil, fields, factories, mass media, transportation, communications networks, etc., and their lieutenant: corporations and governments, upper middle class like the working bourgeoisie that makes methadone and barbiturates, is definitely put up for exploitation. The bourgeoisie is not our enemy.

One of the main enemies of the People’s Program is Harry Bronstein, Director of Personnel, a key executive officer of the Health and Hospitals Corporation and the distributor of 45,000 plus its pension to the 10,000 salary. He is a member of the Executive Board of the Health and Hospitals Corporation.

In addition, to the problems that people, return to history through the eyes of the bourgeoisie that has been dominated to which it has been subordinated.

The New National Liberation - the National Liberation of the oppressed people to have its own history, and the right to liberation to regain this right without conditions.

People!!
Before World War I, economists called the period "industrial capitalism," the era of "finance-fare, free competition of Adam Smith.

Subjective with respect to the working class and revolution, this system was largely free from monopolies and concentration. This began to change rapidly during the First World War (which was largely fought between the agrarian interests of the South and the industrial interests of the North East), where the emergence of New York banks was first manifested. The control of the nation's economic policies was further cemented after McKinley (representing the 'York banks') negotiated Bryan (representing the rising interests of the West). All presidents from McKinley to Wilson were dominated financially and geographically by the power of the New York financials and monopolists, which were usually controlled by the Federal Reserve Act (FRA).

The economic shambles left by the Depression were eventuallly controlled by the TVA and Public Utilities Holding Companies Act to bust up the Morgan trusts. Morgan was only allowed to keep some of his pieces of the former empire, like the Middle South Utilities and the United Communications Company. The latter was divided up as follows: two from Morgan Trust and one from Rockefeller; Morgan also got three from General Reinsurance (Morgan).

Dialektik und Historische Materialismus
from History of the Communist Party Soviet Union
(Bolshevik) 1939

In its essence, dialectics is the direct opposite of metaphysics.

a) Contrary to metaphysics, dialectics does not regard changes as an accidental agglomeration of things, of phenomena, unconnected with, isolated from, and independent of, each other, but as a connected and integral whole, in which things, phenomena, are organically connected with, dependent on, and determined by, each other.

The dialectical method therefore holds that no phenomenon in nature can be understood if taken by itself, isolated from its surroundings, phenomena, and much as any phenomenon in any realm of nature may become meaningless to us if it is not considered in connection with the surrounding conditions, but divorced from them; and that, vice versa, any phenomenon can be understood and explained in its inseparable connection with surrounding phenomena, as one condition of another, interdependent, phenomena.

b) Contrary to metaphysics, dialectics holds that nature is not a state of rest and immobility, stagnation and immobility, but is in constant motion and change, of continuous renewal and development, where something is always arising and developing, and where things always disintegrating and dying away.

The dialectical method therefore requires that phenomena be considered not only from the standpoint of their interconnection and interdependence, but also from the standpoint of their movement and change, their development, their coming into being and going out of being.

The dialectical method regards as important primarily not only the given moment itself, but also the given moment's given moment, that is, the given moment as something to be durable and yet is already beginning to die away, but that which is arising and developing, even though at the given moment it may appear to be not durable, for the dialectical method considers invincible only that which is not yet arrived.

All nature," says Engels, "from the smallest thing to the biggest, from a grain of sand to the atom, from the protista (the primary living cell) Ed. j0 to man, is in a constant state of coming into being and going out of being, in a constant flux, and in a constant state of movement and change." (F. Engels, Dialectics of Nature.)

The dialectical method, Engels says, "takes things and their perceptual images essentially in their inter-connection, in their interconnection in their mutual rise and disappearance." (Ibid.)

c) Contrary to metaphysics, dialectics does not regard the process of development as a simple process of growth, where quantitative changes do not lead to qualitative changes, but as a development which passes from a significant and imperceptible quantitative changes to open, fundamental changes, to qualitative changes; a development in which the qualitative changes occur not gradually, but rapidly and abruptly, forming the form of a leap from one state to another; they occur not accidentally but as the natural result of an accumulation of imperceptible and gradual quantitative changes.

The dialectical method therefore holds that the process of development should be understood not as movement in a circle, not as a simple repetition of what has already occurred, but as an outward and upward movement, as a transformation from an old qualitative state to a new qualitative state, as a development from the simple to the complex, from the lower to the higher qualitatively different from all other bodies!" (Ibid.)

Finally, criticizing Durhing, who scolded Hegel for all he was worth, but surreptitiously borrowed from him the well-known thesis that the transition from the insentient world to the sentient world, from the kingdom of inorganic matter to the kingdom of organic life, is a leap to a new state, Engels says:

"This precisely the Hegelian nodal line of measure relations, in which, at certain definite nodal points, the purely quantitative increase or decrease gives rise to a qualitative leap, for example, in the case of water which is heated, where boiling-point and freezing-point are the nodes at which—under normal pressure—the leap to a new aggregate state takes place, and where consequently quantity is transformed into quality." (F. Engels, Anti-Durhing.)

d) Contrary to metaphysics, dialectics holds that internal contradictions are inherent in all things and phenomena of nature, for they all have their negative and positive sides, a past and a future, something dying away and something developing, and that the struggle between these opposites, the struggle

Clarence Mitchell, the negro public delegate member of the U.S. delegation to the 30th General Assembly of the United Nations, also head of the Wash. D.C. NAACP, found it necessary (and probably profitable) to come to the defense of U.S. delegation head Daniel Moynihan's attack of Idris Amin, the controversial president of Uganda, who made an explosive exposure of U.S. imperialist backed zionist schemes to dominate and exploit all of Africa and the Third World.

Mitchell tried to parallel Amin to Hitler by echoing Moynihan's slur calling Amin a "racist murderer." In attacking Amin, Mitchell said "we will raise our voices against such an attack on any of our people, whether they be Jews, Arabs, Blacks, Whites or Asians, whatever their color, whatever their creed.

What nonsense! Mitchell may get paid to be the mouthpiece for international U.S. backed imperialism and Zionism but he definitely doesn't speak for Black or any other progressive elements in defending imperialist, zionist schemes for the penetration, subjugation and exploitation of Africa and the Third World.

A supporter of the "organization," to gain support for Israel among Blacks, BASIC put together by zionist lackey and Shanks Stove, Bayard Rustin, Mitchell has been outspokenly against the U.S. hegemonies for years.

world's population. The Chinese position is to try to utilize the con­

They have the press that the men wanted to come here and wanted to be released from the Vroom Building, but this is a laugh for there is no one at the Vroom Building in the infamous Segregation Unit that wants to be there and they ask all the time to get out, but when they ask they are laughed at and told they are a menace to the security of the institution the destruction of which...

Why were they on different floors of the building? I know full well that there was cold and deceitful neglect in this matter for there is no way those men who were in the Vroom Building should have been housed here at Tren­ton, on top of this the Administration knew it also. The excuse that they wanted to come back is null and void for as I stated many men who are in the Vroom Building do not want to get out of there. The day they came here there was no choice given to them, they were thrown in the front house and taken directly to the Vroom Building, no ques­
tions asked, nothing, then all of a sudden they say the men wanted to come out? Nonsense. I know that there was collusion somewhere and I would be surprised in the slightest if the motive same time, the Chinese strive to not allow the superpowers to reach unity the new imperialism,

means private ownership of the land, factories, industries . poverty for the many and the majority of wealth in the country goes to the exploiters, the few, the imperialists and their lackeys. In Kenya 95% of the people live in village shacks, town slums, service quarters while the Kenyan native bour­geoisie live in luxury and comfortable life on wealth stolen from the Kenyan masses.

Jomo Kenyatta, once a leader of the peoples struggles against foreign domination, has betrayed the people and become a agent of imperialist international. The Kenyatta government is continuing to show its face to the people in the recent murder of Karuki, two led political opposition in the Kenyan parliament against a recent constitution. It is continuing with U.S. and British imperialism in their ex­ploitation of the Kenyan masses. These neo-colonial puppets have to be ex­posed (like the Lon Nols of Cambodia, and the Phou of Laos, the Beng and Pak Chung Hees of South Korea) and will be smashed by the revolutionary forces all over the world. The Kenyatta government has to be completed! The people must control the measures in production in Kenya.

after being nominated "at the conven­tion" that they are not going to be any alternative to Ford and most important­ly to those opposing financial groups. One thing is certain, that his financial group are not going away, except with socialist revolution, and there seems to be an obvious strategy, that his ruling class that adds to the overall blackmail of U.S. society, which simply enhances the growing revolutionary movement in that country, but at the same time in a period in which the proto-fascist S.I.H is be­ing readied for passage through Congress and the threat of war with the other superpowers is S.R., it is inten­tifying (and Ford's sweep gives him fewer contradictions to put up with inc­
clude his war ring as the U.S.-S.U.R. as, con­

ification becomes a clearer and clearer eventualty), there is little doubt that the factions that had been strife and confusion moves towards the creation of the anti-revisionist vanguard communist party which will lead the working class in the seizure of power.
Sometimes it’s clear that many of us do not know where we are or what time it is in the world. In the U.S.A., the mindless messenger of monopoly capitalism, Jerry Ford stumbles around “demanding” that the people make revolution. His countless sets of figures about the new York City, as a challenge to the people, a confrontation that the capitalist hardliners are in the saddle.

In the face of international defeats, and the general contraction of U.S. imperialism, really, its final contraction, which shows up directly in the domestic economic crisis, now comes a series of reverses very “equally” by U.S. imperialism all along the line. The ever intensifying contention and struggle between the world’s markets and influence, between the U.S.A. and the U.S.S.R., is another driving factor in the activities of the U.S. imperialists. After the Southeast Asia debacle, they go on the offensive in Bengal, Henry Kissinger, in the middle Angora. The rhetoric of U.S. imperialists grows even coarser and more shallow as they feel the pinch of their general retreat. The performance of the former U.S. Ambassador to the U.N. characterizing Uganda’s move as a “racist murder” is but a new “finger” from the hip of U.S. imperialism since it now understands that it is being characterized as an evil force by the whole of the world. The U.S. blockade on Amin was a thinly veiled attack on the whole of the Third World that is the most store supreme imperialism, and specifically on the OAU. The U.S. begins to perform like a fighter after robbing of trading heavy punches, though now begins to feel a bit of panic and starts to “attack” but losing all the weight.

The so-called Sinai past and Middle East shuttle diplomacy of the Mad Dr. Strangelo, the coming default in New York City, this determination not to “bail out New York” or really to support guarantees behind the bonds which New York is selling to the banks or wants to sell to the banks with the Municipal Assistance Corporation, which is Rockefeller’s Frankenstein, via his banker Felix Rohatyn, is to say that even if there is default in New York City and the city loses its billions of services have to be cut out, Ford will make certain the people and firemen are on the job and not on war support. The people, of course, can go to hell. Ford actually believes that he can bulldoze the whole class and oppressed nationalities by talking about “fiscal responsibility” which appeals to certain sections of the American middle class and the Chinese on the inevitability of the “detente” and in its contribution to the coming war between the superpowers. Ford’s trip later will merely give him an excuse in regards to further budget cutting and all around exposure, plus it will allow the dullwitted U.S. president further international exposure of his personal diplomatic moribundity.

Meanwhile, what are the forces on the Left? Against the shattering of the postwar bourgeois economy, the ever building crisis that portends the final op.d. of American monopoly capitalism what is the left about? The bourgeoisie is pump-in us full of “the 60’s are over”, and all this “era of impotence” and true a lot of deadheads gone with it. Cleaver and his pointed pants, Remie Davis and his Guru, Soul City Floyd, & c., is the core of revolutionary potential, the multi-national working class and the oppressed nationalities are not gone. The left meanwhile is in great disorder as well. White chauvinist Left subjectivism or revisionism declare that they are the new anti-revisionist vanguard communist party and the working class must lead them in the course of state power and the turning of the means of production to the public, and not to the private property under the dictatorship of the proletariat. And this is obviously untrue. R.U. definition represent the multi-national working class and its national-white chauvinist line has made close alliance with the oppressed nationalities impossible. R.U. is not the “advanced detachment of the working class”, it is more likely the largely White, largely student and ex-student petty bourgeois section of the U.S. oppressor nation. It is not “armed with revolutionary theory, with a knowledge of the laws of the movement, with a knowledge of the laws of revolution”. It does not “stand at the head of the working class”. It can not “serve better than the working class”. The contrary the Boston “Smash busing” line shows it tails the most reactionary sector of the working class. Nor can we find any work from R.U., now calling it the Revolutionary Communist Party. R.U. attempts to uproot us as a “obstacle toward the anti-revisionist party, by summing up all the questions, answering them and analyzing them in the way that say imperialism in deeds), but all that has happened is that Kissinger and U.S. imperialism received a thorough victory. The Chinese on the inevitability of the “detente” and its contribution to the coming war between the superpowers. Ford’s trip later will merely give him an excuse in regards to further budget cutting and all around exposure, plus it will allow the dullwitted U.S. president further international exposure of his personal diplomatic moribundity.

What Is To Be Done summed up the ideological preparation for the party, and One Step Forward was the organizational preparation, or the way Lenin’s Two Tactics Of Social Democracy in the Democratic Revolution was the political preparation for the party or Materialism and Empirio-Criticism was the theoretical preparation for the party. Where is such analysis for U.S.A. in the “70’s? Red papers are flawed attempts, but unanswerable not basically. But these few petit bourgeois subjectivists neglect to understand that the revolutionary van-guard party must lead the working class in the struggle for power. Such a party is the general staff of the proletariat, leading in the U.S.A. into the “second civil war” and to ultimate victory. It is a war not a football game or the rally which precedes it. If the party becomes strong by purging itself of opportunistic elements", perhaps what is happening by the opportunists declaring themselves the party, like the Progressive Labor Party and the Communist Labor Party" before them, they are merely declaring themselves purged from the genuine revolutionary communist party, but come into being in the next few years, and projecting their party is still stronger. But there must be strong clear strides towards that party. The study, construction of new lines and working class struggle against the incorrect line that will help put together the correct line, mass and united front work are all happening now, crisis-crossed in the stops and starts, but also many genuine threats by honest forces despite bogus cloudings of the scene by opportunists. Perhaps ultimately R.U. may correct its very serious errors and totally in correct line and development at this point and join with the comrades at some later date to help form the multi-national anti-revisionist party that we must have if the party “becomes strong but it seems very doubtful. We also hope that R.U.’s example does not cause some in the anti-revisionist movement to rush to the same grievous mistaken conclusion. But Marxists Leninists must prepare the people for the coming of war and to make revolution, and to do that Marxists Leninists must get prepared themselves. Unity and Struggle will build the party. Not subjectivism, chauvinism or opportunism.
