U.S. REINVADES CAMBODIA
CIA “Freighter” Is Set Up For Provocation

CAMBODIA - The act of piracy in the China Sea, complete with massive invasions, bombed oil fields. CIA set up ships that just happen to be accidently 8 miles off the Cambodian Islands, should open peoples eyes still further to the absolute, impotence and bankruptcy of imperialism. (Furthermore the U.S. casualty count is much higher than yet released!) As people around the world were still celebrating the whipping imperialism had received in Cambodia, and Vietnam, news flashed around the world that the United States had reinvaed Cambodia! Ford & Rockefeller, unable to look fellow imperialists in the face, or alllay the fears in its lackeys & running dogs, the duo chose a plan to reassert the illusion U.S. imperialism, and domination thru out the world. A ship, the Mayaguez entered Cambodian waters, (as had two other ships & was seized by the Cambodians, in an effort to defend themselves from spies, spying ships, counterinsurgents - all U.S. owned and operated mechanisms trying to stir trouble in the newly freed land. The ship owned by the Sea-Land Co. listed as coming from the port of Elizabeth, N.J. was divested of its crew and the boilers shut off 12 miles within Cambodian territory, Koh Tang Island. Without word to the people of this country, or Congress, the dirty duo sent 1,100 marines to Thailand to augment the troops already in Thailand. Next, without any attempts at diplomatic channels, or without apologizing to the Cambodian government for spying in their waters, the U.S. sent planes to bomb the Cambodian territory, and boats, armed with U.S. marines to invade, Koh Tang, the island, Kompany Saig, and Sihanoukville, on the mainland. The intent, very obviously, was to provoke an international incident and to spy on and retard the economic development of the Cambodians. Since the U.S. knows Cambodia has just emerged from a war with the U.S. and its lackeys, the U.S. imperialists could not stand the self-defence position taken by the Cambodians. In order to divert public attention from internal problems & humiliate the-Cambodians and boost Ford’s dubious image with the bourgeoisie Ford ordered strafing and bombing the boats, forcing Cambodians to protect the American crew from harm. At least two small motor boats were destroyed, belonging to the Cambodian government. 13 marines, (and probably many more) were killed in this overt aggression-signifying that imperialism was not playing at picking

Zimbabwe liberation fighters on patrol against attacks by racist white minority regime of Ian Smith in Zimbabwe (Rhodesia). Armed struggle is the only way Zimbabwe and the rest of Southern Africa will be liberated. Collaboration and sellout stance of some African “leaders” will be exposed as being opposed to the people and in direct support of colonialism, neo colonialism, exploitation and racial oppression of Africans in Azania (South Africa), Namibia, and Zimbabwe. But practice is the test of all theory. The resolution grandly proclaims “End Support to Rhodesia, give Namibia its independence” , and it condemns detente as fostered by South Africa (U.S. - U.S.S.R. collaboration for the African continent). And it suggests to the struggling Azanian freedom fighters to unite and take up arms for their just cause. In the same sentence - almost - the resolution praises Tanzania, and Zambian efforts for bilateral peaceful negotiations with Ian Smith’s illegal “Rhodesian” regime, supported by Vorster and the Superpowers. In fact the document suggests to the freedom fighters of Azania’s Pan African Congress to unite with African National Congress to take up arms. The ANC, is the only liberation movement in Southern Africa that is pushing collaboration with apartheid, and illegal regimes. It seems unrealistic to suggest they take up arms when they are the exponents of “set down right now & let’s talk.” The Dar Resolution simultaneous to the contradictory phrases in its pages, refutes, and puts down the countries

OAU Meeting on South Afrika Support or Sellout?

...Yet experience tells us that no reactionary forces will step down from the stage of history of their own accord. (chinese position on detente) The Organization of African Unity, in a document to be known as “Dar Es Salaam Declaration on Southern Afrika,” theoretically rejected detente with apartheid, white-majority ruled Southern Afrika. with detente and they were defeated.)

This is one of the last results of the

resolution that contains detente.

Moreover Cambodia is not just abstractly
talking peace, it has trade agreements
with African states, and they fear they
would be in jeopardy. They are protecting
peace not in the interests of just Afri

cans but peace so business can con-

continue as usual. This is the essence of
detente.

What cannot be overlooked though,
past the words and even limited prac-
tice, is that while the conference was go-
ing on, Pyongyang ordered the arrest of
the Supreme Council of the Zimbabwe
African National Union, at the funeral
of Herbert Chipe, slain (by detente
seekers) field commander of ZANU.

This outrageous act is a concrete move
to eliminate ZANU, because it would not
be able to sellout and doublecross the
people. Kaunda is obviously in

 collusion with the South Africans, other
wise he would not have ordered the
arrest of the leadership of the only fight-

ing force in Zimbabwe. Kaunda was
instrumental in the detente talks known
as the "Lusaka Agreements" that called
for the fighting forces of Southern
Zimbabwe to lay down their arms to
enemies troops and retreat from the
country. This is absurd.

No one expected an agreement
with the policy of detente - which is in
continued enmassment for the masses of
Africans living undercolonial justice.

This means that if today rika would believe that present rulers
would peacefully surrender their power.
to the same people they have been kill-

 ing to keep the power.

Watchers of the OAU and their
members, are subjected to the most
inhuman treatment when they are
arrested in 1973. They had all been
under continuous torture since the time
of their arrests.

Who were the 9?
The 9 intellectuals, seven belonged
to a group known as the "Jazani Group", 1 of whose members were
arrested in 1968 as a result of their lead-
ing role in organizing a massive
demonstration of approximately
500,000 people. The protest movement
was launched in order to silence the intense
anger of the public generated as a result of
the vicious murder of a famous cham-
non wrestler, Gholam Reza Takhti.
Takhti who had gained massive popular
support for his opposition to Shah's
rule, was murdered by SAVAK who in a
futile propaganda effort had tried to
portray the death as being a "suicide."
Since their arrests in 1968, the group
and particularly their leader B. Jazani,
were subjected to the most inhuman
tortures. The regime did this in order to
accomplish its two-fold aim of extrac-
ting confessions for use in its propaganda
fro m its prisoners, and to force them to succumb to the wishes of the regime in
publicly recognizing the groups participation in the
progressive movement of the Iranian people and its aims. The regime's bar-

ric treatment of these and other prisoners were thoroughly exposed
when, CIS-NU, along with several
humanitarian organizations like
Annoys International, sponsored three
separate delegation (Wilson, a member
of British Parliament; Cavaliere, an
Italian lawyer; and Guatras, a French
lawyer), who were able to travel to Iran
an d confirm use of savage torture
methods by the regime.

Political Prisoners
... And Torture

Inside the prisons, the prisoners are
subjected to the most inhuman
treatment. As late as February 18, 1975,
the London Sunday Times reported:
"Prisoners also claim to have been
subjected to psychological torture. This
includes being forced to watch their
children savagely mistreated. 'I found it
so unbearable," one man reported, that
I wished I had a knife so that I could kill
my son myself, rather than see him
suffer.'"

SAVAK also has the grim dis-

tribution of having invented an

withdrawal of South African forces
from Zimbabwe. The date given was
May 1975.

3. Vorster was also pressurized to get
Smith to accept the ANC as a
representative of the six million
Zimbabweans and to negotiate with it.

His conclusion on that score was that
in the final analysis the South African
government accepts the inevitability of
majority rule and is ready to assist in
the peaceful change which makes the
achievement of the objective possible.

On the other hand warning of the im-
portance of armed struggle, he said
"The term armed struggle is sacred to us.
It means loss of life for a noble cause.
We do not assist freedom fighters to
wage a war for the sake of killing. Most
of us gained our independence by
peaceful means and it is our sacred duty
to spare the blood of our brothers and
sisters if it can be avoided. It is our
duty to fight on whatever strategy we
gain our independence by peaceful
means first and foremost."

He continued "Tanzania and Zambia
have been involved in armed struggle for
a long time. We know what armed struggle is. ... You are intarct in
talking about "FEM AR" and the TABLE WILL COME TO OUR AID
WHEN WE FACE THE CONSEQUENCES OF ARMED STRUGGLE."

world imperialism. Black masks were worn to avoid identification by the SA VAK—the military & illegally annexed the kingdom of Sikkim on the people. In a referendum in 1975, the people did not know what was happening or what the bill was for, & the entire hoax was done in the space of 72 hours. Chogyal Namgyal exposed the referendum as illegal and will not accept the results of the referendum aimed at derailing him and making Sikkim an Indian state. The so-called democratic government actually has no power. The Sikkim people have vowed to continue the struggle against the Indian aggressors & the real culprit of Indian state. The so-called democratic government sets an example of a puppet government and the government says it will rule until the next election. But it has not said when.

Chad

FROLINAT DEMANDS RELEASE OF POLITICAL PRISONERS. The Chad Liberation Front, Frolinat has demanded that the new military government release all political prisoners. Frolinat has also demanded that the people of Chad be allowed to choose their own form of government. But the military government says it will rule until the country is ready for another type of government, but it has not said when that will be.

Soviet Union

Social imperialist Soviet Union in its greed for more profits & attempts to exploit & control the people has reneged on an agreement with East European countries to keep fuel prices unchanged for 5 years, and raised the prices by more than 100%. This action has upset the economies and production plans in Hungary, Poland, Bulgaria, Czechoslovakia and the German Democratic Republic which import 90% of their oil from the Soviet Union. Already being seriously affected by the world economic crisis, now they are being forced to buy oil from the Soviet Union at hiked up prices. This action has only served to heighten the contradiction & further expose the Soviet Union's social imperialism to the peoples of these East European countries and make them more determined to wage just struggle for their national rights.

Puerto Rico

SOLIDARITY WITH PUERTO RICAN INDEPENDENCE. 28 countries and 12 international organizations are calling for the convening of the International Conference of Solidarity with the Independence of Puerto Rico, to be held September 5-7 in Havana Cuba. The main themes of the Conference will be the colonial reality of Puerto Rico, the struggle of its people for independence and sovereignty, and the necessity of building for the national liberation struggle. Struggle against U.S. imperialist puppet government in Puerto Rico continues. Over 3,000 Puerto Ricans occupied the Capitol building in San Juan denouncing Governor Color's resolution to the coming crisis, which aimed to increase U.S. imperialist control in Puerto Rico & further exploit the people. Colour is proposing a industrial incentive program that would subsidize capitalists who would set up industries in Puerto Rico. Already he has agreed to supply factory buildings, low interest loans, 100% tax exemption on profits, & large cheap labor force. These multinational corporations are being allowed to come in and exploit the masses of Puerto Rican people in order to make maximum profit, while the real thing the people are getting is increased taxes, cutbacks in health and educational services and layoffs.

The reactionary National Assembly has been officially dissolved in Laos which creates favorable conditions for the work of the Provisional National Union Government and the National Liberation Front Political Council. The rightists with the support of U.S. imperialists wanted to maintain the National Assembly in place of the implementation of a progressive program. A handful of reactionaries are trying to sabotage and undermine the struggle for democracy and national accord being waged by the people, under the leadership of the Lao Front Central Committee.

Ethiopia

U.S. IMPERIALISM BACKING ETHIOPIA JUNTA'S STRUGGLE. The U.S. is the main source of military assistance to Ethiopia, which just received $7 million worth of all kinds of modern equipment including tanks. The U.S. also has troops in Ethiopia under the guise of an advisory group. But back in 1961, this was the same way that the U.S. got into Vietnam with a small advisory force. The Eritrean Liberation Front is continuing its just struggle for national liberation. U.S. imperialist forces did not win in Vietnam and Cambodia, and will not win in Eritrea or in the rest of Africa.

Jamaica

ACTION AGAINST RACIST REGIME IN SOUTH AFRICA. The Commonwealth conference ended in Jamaica, W.I. with an agreement to intensify sanctions against the racist minority regime in Zimbabwe. The two major decisions were to increase support of the liberation movements in South Africa & to draft a plan for reforming the international trade & financial system. Contradictions arose between Britain, Canada, New Zealand & Australia and the African and Caribbean countries over the issue of providing arms to the liberation movements. Britain & her cohorts went along with the sanctions but refused to provide arms showing their support of detente - a way to make sure that Zimbabwe & South Africa remain neo-colonial puppets.

Laos

A MAJOR DEFEAT FOR US IMPERIALISM IN LAOS. After their U.S. back coup attempt failed, all five right wing members of the Laotian cabinet resigned on May 9, leaving the Laotian Front Patriotic and the neutralists in control of the government. The rightists failed to gain support for their coup, as the masses of people rallied in support of the Laotian Front Patriotic. Over 4,000 students & teachers marched on the U.S. Embassy in Vientiane condemning CIA intervention in Laos. U.S. backed coup, CIA training of mercenaries armies and/or years of massive bombing have failed to stop the Laotian Front Patriotic & the people.

OAS

OAS TO LIFT EMBARGO AGAINST CUBA. The OAS (Organization of American States) agreed to meeting in July to lift the embargo against Cuba. Already at least 9 of the countries have diplomatic & trade relations with Cuba except those lackey countries of the imperialist bloc, Paraguay, Bolivia, & Brazil. Regarding the OAS, U.S. imperialist attemps at coup, overthrow, & assassination, Cuba has continued to move forward, with the drafting of the first constitution which is being studied & looked at by Cubans in their factories, agricultural units, & other organizations & will be voted on later this year. It calls for an elected national assembly called the "National Assembly of the Peoples Power" of 360-400 members & a smaller 31 state council. It says the economy would be fully socialized and all means of trade & production owned by the state. Local assemblies would work with communist organization to draw up guaranteed free education, free health service, everyone a place to live, complete equality between men & women.
Stop Killer Cops

In Albany, N.Y., the campaign to "Stop Killer Cops" is exposing the present corrupt, bourgeois class control of the police as well as the racist brutality that is being utilized against Blacks and other oppressed people. This is a direct attack on the police, for they have broken the command of the people's war and moved in on the people's houses. The police are a primary target in any struggle to change the conditions of life for the masses, and any movement must make the struggle against police a central issue.

The masses of poor & oppressed people in D.C. must see very concretely the oppressed and exploited conditions we live in while the few capitalist robber barons control the material wealth of this society.

As we begin to examine this closer we see these same four firms in 1965 had 67.6% of the total food market and in 1973 had 71.8%. This increase in concentration was the largest single increase of any large city in the U.S. This tightly knit oligopoly bars any type of realistic competition, barriers for new stores and the monopolists can set prices as high as the sky because the people have no valid alternatives. But not only are profits ripped off from the masses, but "official" unemployment in the District is 5.33% the conditions in which masses of people find themselves and the condition that these food monopolies who have exploited and stolen from the masses have helped create, is very very to the contradiction within the capitalist system - riches for the few and poverty, exploitation and suffering for the many. It shows that an elite and corrupt class of bloodsuckers can fix prices, prevent competition and completely control the so called "free market" and can extract the maximum profit through the world while the masses have nothing but their ability to sell their labor power for some jive chump change to one capitalists and give it back to another so that they can get what they need to survive. These food pirates must be stopped and the only way that this can be done is by the organization of the many people to defeat the few. The Peoples War Against Imperialism!

instrument of torture which victims call the "hot table," an iron frame, rather like a bed-frame, covered with wire mesh which is electrically heated like a hot plate. "If a victim would, it is alleged, be strapped to the table while it was heated until it became red." Other torture methods include "the sustained flogging of the soles of the feet, extraction of finger and toe nails, electric shock treatment to sexual organs, and the thrusting of a burning bottle into the anus of prisoners suspended by their wrists from a beam," the Sunflower article said.

Aside from the inhuman torture and the brutal murder of the 9, the fact remains that the regime of the Shah is still holding thousands more in captivity under the most ruthless repression unheard of elsewhere. As reports by international organizations, as well as those in Iran indicate the LIVES OF MANY IRANIAN POLITICAL PRISONERS LIKE PAKNEZHAD AND OTHERS ARE IN GREAT DANGER. WHERE ONLY MASSIVE PROTEST BY WORLD PUBLIC OPINION CAN FORESTALL THE REGIME FROM RESORTING TO SUCH DEPLORABLE ACTS SO MANY IRANIAN POLITICAL STUDENTS AND WORKERS ARE IN GREAT SIVE PROTEST BY WORLD PUBLIC OPINION TO SUCH DEPLORABLE ACTS SO THE 9 IRANIAN PATRIOTS!

The economic crisis has affected all segments of society; from the super rich billionaires like Rockefeller, Hughes, Mellkin, Kennedy etc. to the suffering masses whose work and exploitation keep the bloodsuckers never quite satisfied. While the ruling class gets richer, we suffer cutbacks in social services, hospital care, jobs, welfare and education. City College of New York is no exception. Greeting the returning students from a summer vacation was the stark reality of SEEK (Search for Education, Education & Knowledge) Funds cutbacks, the threat of losing free tuition, cutback in Ethnic Studies & particularly layoff of those teachers who showed the relationship between oppressed nationalities and this exploitive capitalist system - the increasing of the student teacher ration; and cuts in financial aide. The students took up the struggle almost immediately by forming coalition organizations such as Committee for SEEK and Financial Aide and Ad Hoc Committee Against the Budget Cuts and united minority students around common issues which were formerly divided.

Minority workers in the grip of the same crisis were confronted with half-step racist contractors and the State Dormitory Authority who refused to take steps to implement the Affirmative Action Program on City College's North Academic Center. This program promised 50% of all jobs would go to minority workers and 25% of all the contracting would also be for minorities. When a suitable agreement was not reached between the Manhattan North Coalition (workers coalition and negotiating team) (and the contractors plus The State Dorm Authority.) workers decided to take over and stage work on the site as of Oct. 3, '74 until their demands were met. Some concessions in the form of jobs were given, but not the full 50% as outlined in the agreement.

Throughout both struggles, workers and students gave each other support acknowledging that it was monopoly capitalism in crisis that was causing the breakdown of all the social reforms national and oppressed minorities had gained during the 60's. It was this increasing awareness of the people's enemy that brought workers and students into a joint coalition which simultaneously took over the College's Administration Building and the North Academic Center sites on May 8, '75 after all negotiating attempts had been frustrated. On the one hand the oppressive racist Administration could not see saving the very student programs that allowed minority students to attend college in the first place; and the Dorm Authority could not come up with the 56 jobs that would raise minority employment to 50%.

This is always the response of those who see self, wealth and exploitation as their priorities. To enforce their racism the Dorm Authority & the Administration ordered hundreds of cops - the hirnens of the ruling class - plus 2-3 hundred goons posing as white workers to break up the takeover. This led to workers and students being brutalized for standing up for their just cause.

Another attempt to harass & break the strike of the workers was the arresting of Reuban Colon - a MNC member, Beo. Colon, arrested at his home at 6:00 a.m. on the morning of May 22, by cops of the 26th ptc. was falsely charged with assault with a deadly weapon (1st degree) by one of the hired goons from Local #3; Colon was paroled that same evening with a court appearance coming up.

On the same day, the MNC decided to accept 20 jobs that were promised by the (Continued on page 9)
On May 3 Black women from across the country met in Detroit for the first National Assembly meeting of the Black Women's United Front, an anti-racist, anti-capitalist, anti-imperialist, militant front to struggle against all forms of oppression and exploitation and especially take up the struggle against the triple oppression Black women face: race, sex and class, as part of the Black liberation movement, and the struggle for socialism.

Detroit—May 3, 1975

The National Assembly of the Black Women's United Front was called to order by Staarabahiba of the Congress of African People. The welcoming statement was followed by a re-cap of January 25th BWUF meeting in Detroit. The attendance was not as large (about 200) as the January meeting but the active participation in open discussion was more intense and productive.

The BWUF National Task Force report outlined the work of the Task Force from January 25th to May 3rd, stating that the principle participation and work at the Task Force meetings had been by the Congress of African People and All African People's Revolutionary Party.

The work of the many Black women across the country who have been building local BWUF's was seen in the local reports given by elected representatives from 21 different cities, from Berkeley to Atlanta, from Houston to Albany, woman's committee to the principles of unity set down in the January organizing meeting, anti-racist, anti-imperialist, anti-capitalist, have been recruiting members, participating in local and national events, programs such as fund raisers, demonstrations and petitioning for JoAnn Little, International Women's Day, International Workers' Solidarity Day, organizing classes, forums and discussions.

The common program from the organizing meeting in January called for locals to do a mass survey to find out Black women's needs, concerns, and interests. The summaries of these surveys were reported on as part of the local reports. The survey results indicated that most Black women are concerned about unemployment, decent salary, housing and better living conditions in general including day care and health facilities and services.

After a brief recess for lunch the body moved into plans for action thru motions for programs and resolutions being put forth from all cities represented and resulted in much discussion, and positive plans for mobilization and political education on issues directly affecting Black Women's daily lives but which showed the Black Women's United Front's solidarity with the struggles of all oppressed people here as well as with international struggles and victories of fighting oppressed peoples.

For example, one resolution put forth by the local BWUF of Berkeley, Califor­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­…
Our communities must be educated to the real meaning of the Nixon pardon for high crimes against society, or Agnew’s smooth exit once it became obvious that Nixon could not win the Watergate case. We must educate them to the Watergate conspirators various suspended sentences, 4 and 5 month sentences to expensive country clubs where they can write books on Watergate. Nixon’s instant illness should also be pointed out as another case of defrauding the American people. Also the value of formulating various programs during the “high crimes.” We would be coming to some basic understanding concerning the role of Ford and Rockefeller as stabilizers to maintain American imperialism in the face of its own contradictions. The moral ruins of the government are now actually being placed directly into the hands of the controllers of the international money market. So shaky is the economy that now an actual member of the ruling class comes to D.C. to write books on day to day running of the government. And that is the exploitative as well as the currently shaky aspect of the economic system that has caused wide spread inflation and unemployment. And as this shaky condition of the economic system continues to exist, the resulting unemployment and high prices must cause blacks and other oppressed people to come under heavier and heavier oppression and despair, and for the crime rate to continue to go up, and the government forced to go further and further to the right in order to deal with a nationwide disaffection of the masses with a system that will no longer be able to hide its exploitative character. Hence the need not only for campaigns like Stop Killer Cops, but also the creation of an anti-fascist united front to broaden the struggle. That the reins of the government are now actually being placed directly into the hands of the corporate classes comes to D.C. to participate in the shaky condition of the economy which might mean anything from the crime rate to continue to go up, and for the many, anywhere in the world.

We must show that these attacks upon our community are not limited merely to us, but to oppressed people around the world. That the same statistical incidence of oppression and high crime rate can be cited in any community oppressed by the system of profit for a few and poverty for the many anywhere in the world.

Riots are fueled by the relative freedom up the productive forces within the international African community by the ruling state of colonized nations creating just enough wealth and mobility within the African world to create a situation wherein middleclass negroes could finally consolidate themselves as a potential class with its own interests, consciousness and position as opposed to the interests and necessary position of the masses of black people, is to be naïve, idealistic, and to go for the ghost as Rap Brown would say. For a Charles Rangel and Shirley Chisholm to march out on nationwide TV and tell black masses to support Ford and we’ll get over, is to state clearly the interests of our black bureaucratic elite, that is support Ford and they’ll get over, but for the masses of blacks it is a traitorous act. In the face of mounting unemployment, inflation, and police violence and murder, our so called representatives come out and tell us to support our enemies rather than providing us with a plan to get rid of them and the system they represent! Such traitors as these are not puppets, they are collaborators, they help pull their own strings. And probably in 1976, these same collaborators, in the face of even more repressive and reactionary demands by the American ruling class will also be equally more repressive and reactionary in order to support their own class interests.

We must show that these attacks upon our community are not limited merely to us, but to oppressed people around the world. That the same statistical incidence of oppression and high crime rate can be cited in any community oppressed by the system of profit for a few and poverty for the many anywhere in the world.

We must show that these attacks upon our community are not limited merely to us, but to oppressed people around the world. That the same statistical incidence of oppression and high crime rate can be cited in any community oppressed by the system of profit for a few and poverty for the many anywhere in the world.

Military victories in 1974

Because MPLA (Popular Movement for the Liberation of Angola) and FNLA (National Front for the Liberation of Angola) were not entrenched inside the country but working from foreign bases, because MPLA was suffering from internal schisms, UNITA emerged in 1973 and 1974 as the major military force against the Portuguese. Having been permanently based inside the country from its inception, was possible for UNITA to launch and sustain attacks against the Portuguese colonial government in South, Central and Eastern Angola, including Moxico, Bie, Huambo and Benguela Provinces.

At the end of 1973 the colonial army staged a desperate retaliatory campaign with the objective of wiping out the remnants of the Angolan and Mozambican liberation movements. Because our bases had to be dismantled and we hid among the rural masses. Attempts to capture UNITA militants were an unmitigated disaster because the masses, who had been well served by the Party, continued to protect us. This left the Portuguese with no choice but to launch a massive counter-offensive, using the colonial barracks, and at the same time taking cities like Benguela and Lusso. It became clear to the Portuguese that they were being defeated in Angola and in their other African colonies, as confirmed by one of their own ex-men, General Spinola in his book, Portugal and the Future.

Portugal's coup d'état

The Portuguese were demoralized both at home and abroad. The defeats suffered by them in the colonies had the effect of heightening internal contradictions in the metropolitan centre leading to a result of war losses internal contradictions between reactionaries, like (LONKHO) which has extensive holdings in various African countries and based in London. The other British interests are landholding, especially huge beef ranches and the manufacturing of which are important to the British economy. After the defeat of the settler branches, a strong counter-offensive, achieving victorious victories, overrunning the colonial barracks, and attacking cities like Benguela and Lusso became clear to the Portuguese that they were being defeated in Angola and in their other African colonies, as confirmed by one of their own ex-men, General Spinola in his book, Portugal and the Future.

Prime Minister Vorster of South Africa, fearing the fall of the Portuguese government led by A. Cabral, with which he did not exist. The Portuguese sought out UNITA because they knew that within a year or two, possibly even less, no meaningful discussion could take place. Ironically, while the O.A. group still had a tenuous recognition of UNITA, the Portuguese were frantically trying to come to terms.

Now, the propagandists and Euro-American experts had to do an about-face. The movement which previously did not want to negotiate with the Portuguese had to turn to her internal problems.

In August, 1974, Portugal began to meet contact with UNITA representatives. For UNITA this initial contact did not signify negotiations for independence, but it was understood that such contacts could be a preliminary to negotiations. No ceasefire agreement was signed at this time. UNITA insisted that Portugal's recognition of UNITA as the Government of the Republic was based on certain conditions laid down by UNITA. These conditions included the recognition of the right of self-determination for all Angolans.

The circumstances surrounding the initial contact prove that no sell-out was involved. Instead of having to meet an armed, while UNITA's representatives were armed, they met in Cangonbe, Angola, a place peacefully, that is, the government continued moving and began moving throughout the country in order to politicize more people. Obviously, this contact could have taken place without a cessation of hostilities, but this was not a ceasefire agreement in that sense.

To make clear the dialectical-materialist movement of cognition arising on the basis of the practice which chapter machine creates the gradually deepening movement of cognition—a few additional concrete examples are given below.

In its knowledge of capitalist society, the proletariat was only in the perceptual stage of its practice in the first period of its practice, the period of machine-smashing and spontaneous struggle; it knew only some of the aspects and the external relations of the phenomena of capitalism. The proletariat was then still a "class-in-itself." But when it reached the second period of its practice, the period of conscious and organized economic and political struggles, the proletariat was able to comprehend the essence of capitalist society, the relations of exploitation between social classes and its own historical task; and it was able to do so because of its own practice and because of the prolonged struggle, which Marx and Engels scientifically summed up in all its variety to create the theory of Marxism for the education of the proletariat. It was then that the proletariat became a "class-for-itself.

Similarly with the Chinese people's knowledge of imperialism. The first stage was one of superficial, perceptual knowledge, as shown in the indiscriminate anti-foreign struggles of the Movement of the Taiping Heavenly Kingdom, the Yi Ho Tuan Movement, and the First War of Resistance against Japan. The second stage that the Chinese people reached the stage of rational knowledge, saw the internal and external contradictions of imperialism and saw the essential truth that imperialism had allied itself with China's feudal landlord and feudal classes to oppress and exploit the great masses of the Chinese people. This knowledge began about the time of the May 4th Movement of 1919.

Next, let us consider war. If those who lead a war lack experience of war, then at the initial stage they will not understand the profound laws pertaining to the direct experience of war (such as our Agrarian Revolutionary War of the past decade). At the initial stage they will likely experience a good deal of fighting and, what is more, suffer many defeats. But this experience (the experience of battles won and especially of battles lost) enables them to comprehend the inner thread of the whole war, namely, the laws of that specific war, to understand its strategy and tactics, and consequently to direct the war with confidence. If, at such a moment, the command is turned over to an inexperienced person, then he too will have to suffer a number of defeats (gain experience) before he can comprehend the true laws of the war.

"I am not sure I can handle it." We often hear this remark when a concurrently hesitates to accept an assignment. Why is he unsure of himself? Because he has no systematic understanding of the content and circumstances of the assignment, or because he has had little or no contact with such work, and so the laws governing it are beyond his reach. After a detailed analysis of the nature and circumstances of the assignment, he will feel more sure of himself and do it satisfactorily. If he spend some time at the job and gain experience and if he is a person who is willing to look things over with an open mind and not one who approaches problems subjectively, one-sidedly and superficially, then he can draw conclusions for himself as to how to go about the job and do it with much more courage: Only those who are subjective, one-sided and superficial in their approach to problems will stumply issue orders or directives the moment they arrive on the scene, without considering the circumstances, without viewing things in their totality (their historical and their present state as a whole) and without getting to the essence of things (their nature and the internal relations between one thing and another). Such people are bound to trip and fall.

Shah of Iran

The Shah (brought to power by U.S. backed coup in 1953) pictured here with Ford toasting the fascist economic and military schemes to continue his rise as jr. partner for U.S. imperialism in the Persian Gulf (Iran is the 2nd largest oil producing nation in OPEC). The Shah has over 40,000 political prisoners jailed and continually tortured and has led military aggression against the people in neighboring Oman's Dhofar province. Part of the deal with the U.S. ruling class murder ring is a 22 billion dollar bilateral trade agreement to include 8 nuclear reactors, military hardware, and multi million dollar technical assistance contracts with U.S. corporations (over 2,000 in Iran now) military agencies and universities. Growing opposition is mounting to the Shahs fascism, murder and torture of progressive forces.

Finally I would like to comment on the current-regime-in-the-years that the respective, to purchase arms from the $8 billion in arms the U.S. sold to the world in 1974, the regime alone bought $4 billion. Moreover in March 1975 U.S. and Iran announced the signing of a $22 billion "economic" agreement out of which $5 billion were set aside for fresh purchases of weaponry.

In these years the regime's huge military machine has not been idle. On the contrary, in fulfilling the tasks set forth by the Nixon Doctrine, the regime began in Dec. 1973 an invasion into Oman so as to crush the peoples attempts to free their country from U.S. imperial domination. To date over 30,000 Iranian troops have been sent to Oman's western province (Dhofar) on the southern part of the Persian Gulf region.

Although it is the Iranian troops that have invaded Oman, the American people must be made aware that it is their government that is becoming involved in what is going to be the next Indo-China, with Iran as its new Vietnam. It is evident in the recent $100 million U.S. arms deal with Oman, and the fact that the U.S. asked, and was granted permission to use the British and U.S. base facilities at Masaya (an island off the coast of Oman), the U.S. is taking pre-emptive measures for direct aggression in the area.

to an end with the complete emanципation of the Black people." (In support of the Afro-American Struggle Against Violent Repression, April 1968). It is very important that we take a correct political line to qualify as revolutionaries. The correctness of the political line determines everything, said Mao. Protecting the reactionary wing of the petit bourgeois elite or even "liquidating" Africa, and in some extreme cases even feeling that black liberation itself is a secondary focus, to "struggle against imperialism", is not a revolutionary line. It is a bourgeois line, and the masses will ultimately reject which is the test. The struggle against imperialism must be legitimate and actual must in our case, black people in the U.S. take the form of struggling for the liberation of the black nation and another important aspect must be revolutionary solidarity with African Liberation struggles so that Africa is unified and independent under Scientific Socialism an accomplishment that will bring imperialism to its knees. But it will be buried on the funky streets of North America! These are two of our basic responsibilities, though to be unsure of and of an integral part of the struggle against imperialism, internationally, and wherever and however it shows itself are requirements for any revolutionary socialist.

Can't Free our People. Other means, political means, are necessary to fight against the oppressors to end our oppression. I will continue to work and intensify the struggle in the trade union movement for the immediate interests of the workers. This I regard as my democratic duty. But I say openly, as I have been saying to all who wish to hear for sometime now - only a party which represents the working people against all the capitalist parties, which can fulfill the deepest aspirations of the poor and oppressed, can lead us to freedom and real socialism.

I have been saying this and the workers are more and more understanding the need to get rid of capitalist politics. It is this simple fact that the capitalists fear, above all, much more than the challenge from a small union; this they are trying to prevent from coming to pass. They will not succeed. Our 2nd Annual Congress will proceed as scheduled on Sunday coming, 15th December, and the UAWU again takes the opportunity to invite all workers and progressive people to attend.

QUESTION: What affect does the diction s will intensify; more find s another war , their will be much agony . We will struggle. There is no answer in capitalism for common people.

Constance Washington, Detroit, Michigan: Basically, motivation for us - they end in their struggle.

Pat Lammers, Newark, N.J. Has a lot of affect, their victory was educational war of 30 years. Economic crisis will get worse. Leading up to another war - U.S. is murder, killing, killing. Shame so many people lost their lives in that war.

Harvard Stephens, Detroit, Michigan: It is proven that imperialism is paper tiger. People get together & wage a struggle together can win. Victory came high, lost millions of lives, shows that imperialism is not gonna give up easily. Have to expect a struggle. We will suffer losses as well, but we suffer anyway under capitalism. Encourage the BWU to struggle to pull oppressed people together. People are applauding struggles of people there, people will heighten struggle here.

American Metal Climax of New York; and LONRO of Britain. Furthermore, the lack of cooperation among parts needed to service this industry came almost exclusively from South Africa. Zambia needs passage through Rhodesia to reach Mozambique and South African ports to export her products. Also Zambia is dependent on South African products such as maize, her chief food commodity, and beef from Rhodesia and South Africa.

If western corporations are to continue to pour capital into the Zambian economy they require a quiet political climate which the presence of Zimbabwean revolutionaries upset. President Kaunda of Zambia was especially mindful of this fact since copper prices had been falling and this severely affected the economy of the country. The balance of payments has been worsening considerably since 1971—falling from K188.3m in 1971 to only K10.0m in 1973.

The recent actions of Kaunda, who owns a hotel in Switzerland, a chateau near Paris, and has been to the advantage of South Africa, Rhodesia, Britain and the United States.

When Vorster announced last Oct ober that he was prepared to withdraw his troops from Zimbabwe (14,000 South African police engaging militarily with ZANU if they get assurances that Kaunda would stop ZANU guerrillas from using bases in his country. Kaunda hailed Vorster’s words as “a voice of wisdom” Africa in which Kaunda has been waiting for a long time.

From that point on the Zambian government took steps to stop armed struggle in Zimbabwe (Rhodesia). Kaunda’s special envoy, Mark Chona, shuttled between Lusaka, Salisbury, and Pretoria almost on a daily basis while his Foreign Minister, Vernon Mwaanga, frequented London and Washington D.C., to consult with the Wilson government and the Ford administration. At the same time Kaunda was conferring with some African heads of state that he had assurances that Smith’s Rhodesian government was now ready to grant majority rule and therefore there was no need to continue to support armed struggle but to get the people of Zimbabwe ready for a constitutional conference.

The result was the united front that was imposed on the people of Zimbabwe at last December’s “peace and unity” talks and Kaunda’s attempts to pick who the leader of Zimbabwe (Rhodesia) would be—pushing to the forefront leaders who would be moderate and more acceptable to the white settlers, Britain, and the United States.

The strongest opponent of this arrangement was ZANU Chairman Herbert Chitepo. The night before his death, when Kaunda had called Bishop Muzorewa to come to Lusaka to take control of ZANLA, the ZANU army, Chitepo was firm and resolute in his refusal to hand over control of ZANLA. And Kaunda had to have a “no-poison” take control of the ZANLA forces in order to enforce a ceasefire.

The next morning, Chitepo was brutally murdered. It has been charged by the Zambian government that the murder of Chitepo was carried out by members of ZANU. The Zambian government had who their own interest in Chitepo’s death is not impartial in making his charge. For the investigation of this political assination to be fair, an impartial commission should address themselves to the economic and political interests of the governments of Rhodesia, South Africa, Britain, the United States, and Zambia in the suppression of the Zimbabwean African National Union (ZANU).

The October League is proud to announce the publication of "Class Struggle: Journal of Communist Thought." This journal is designed to address the new and increasing demand for revolutionary literature in the U.S. It is a forum for the discussion of the political economy of the U.S.; for the analysis of the role of the U.S. in the world; for the defense of the independence, freedom and solidarity of the Third World nations.

The October League is also proud to announce the publication of "Class Struggle: Journal of Communist Thought," and applying them to the struggles of the working people, Illinois, to deal with problems and proposals with regard to the structure and character of the NBA.

The introduction of the double edition of ""Class Struggle"" is intended to provide a new dimension of political thought, and applyings these principles to the struggles of the working people, Illinois, to deal with problems and proposals with regard to the structure and character of the NBA.

masses of people in this country, who suffer under this oppressive system, regardless of their color, will not be able to rise up and seize all power from the class represented by Ford and Rockefeller and their collaborators. When these people speak of national unity, they mean a unity of all corporate capitalists and their lieutenants and petty bourgeois collaborators to throw back the struggling masses of people. When we speak of unity, we should be speaking of all those people who can be united around the recognition that the system of monopoly capitalism is corrupt and unworkable and it must be eliminated and replaced by a socialist state controlled directly by the masses of working people, of all nationalities. That is the meaning of national unity.

However, as part of a practical program moving against crimes to our community, I would recommend first

black liberation movement recently is the tendency to liquidate or cease to relate to Africa, and in some cases the national question (i.e., the question of Black Liberation) in general. The liquidation of Africa might lead the ALSF, for instance, to disband this summer because many of its leading forces no longer see the question of African Liberation as a priority in their version of struggle. This negative tendency has already allowed the Detroit ALSF to just about disband, and the Detroit ALD to be taken over by PAC Detroit and other reactionaries, who will lend a thoroughly reactionary character to African Liberation Day. For instance, of the two key speakers in Detroit for ALD ’75, one will talk bad about white people and good about organic foods, the other will tell us the other will tell us the story of the two key speakers in Detroit for ALD ’75, one will talk bad about white people and good about organic foods.

Except the Cambodian people. And in their haste to do that violence they ripped the as it is, that it had to come out and make U.S. did commit acts of violence against that will take more doing than the Thais are ready for right now, the Thai people are already putting a great deal of pressure on the neo-coys, to give U.S. Imperialism its walking papers, and have staged round the clock demonstrations at the U.S. Embassy with the familiar cries of Yankee Go Home. Why the U.S. would stoop to the Terry & The Pirates Comic strip level in its attack on Cambodia? Well partially out of viciousness and vindictiveness. They could no longer resist bombing what they felt were key naval em­ placements, shipping ports, oil fields, as their final goodbye to that part of South East Asia. But also, it is the macho Yankee craving to re-establish face as big muscle goon of the world, from which the whole world must cower in crown fear. Certainly that image is gone forever, whether Bill Buckley, Regan or Ford like it or not. Its practical uses, perhaps they feel they'll slow down the Thai's, Laotians, No, Koreans, in their move to throw U.S. Imperialism in a big garbage can. But that is surely backward. The only thing such piratical acts can accomplish is the steeping of the oppressed people to the fact that Imperialism cannot be bargained with (as some of our misguided brothers are squawking about in South Afrika) Imperialism must be killed! And when Yankee does go home, what awaits him there is more chaos. The world in great disorder, but it is a good thing, the Chinese say, for the people. A good thing because it means the old order is shaken andtopping. The Vietnams and Cambodias, followed the Guinea-Bissaus and Mozambiques! The rest of the Third World rumbles in expectation, and the mad doctor with the razor asset who sums up the U.S. image perfectly, zooms around the world like the proverbial chicken with his head cut off, babbling nonsense out of all of his apertures at once. The U.S. is the laughing stock of the world! At home, depression, layoffs, budget cuts. Ford's regime is like Through The Looking Glass, simply nonsensical. Sometimes its like the entire bourgeoisie is on Acid, and their lackeys hopeless vipers with astronomical joneses! In New York 1500 teachers, aides, security guards, maintenance workers, cafeteria workers, librarians are laid off at one time from the school system. Entire music, art, home economics, industrial arts and recreation programs are cut off. Second rate education now slips to third rate, and we are face to face with a real Third World perspective on the need for revolution, right in the central cities of the U.S. Capitalism is so greedy and mad it will devour itself to make maximum profit. It will eat its own stomach away and die in mindless agony! Theclass struggle in black and Third World communities in the U.S. also intensifies, because one sector of the class of lackeys in the intermediate or petit bourgeoisie level is black ( & brown & yellow & , & white) and the black people across this country are beginning to see clearly how their interests are different from the jr partners & lackies of monarch capitalism, whatever their skin color. The blow that will smash the bourgeoisie ruling class in the U.S.A. must be aimed in the direction of these lackies. They are the defenders of the ruling class, the manipulators and con­fusers of the masses. The petit bourgeois politicians, e.g., the misadministrators of these urban torture chambers; the corrupt union functionaries; the liberals of all stripes and fake communists; these are the main allies of the bourgeoisie upon whom they depend for continued mastery over the working class! And so part of the task of crushing the bourgeoisie is crushing their petit bourgeoisie lackeys. And though there are some people who talk to themselves socialists who say that we cannot attack this intermediate lackey sector, we must win them over, we can only this, to paraphrase Mao Tse-Tung, we will win over those who will be for the people, and that means to attack the reactionary sector of the petit bourgeoisie whose his­toric role is to manage the masses for the bourgeoisie! It is interesting that some of the same folks who talk about winning the most reactionary sector of the petit bourgeoisie over, also question the recent CAP fire aimed at Neo-Colonialism in Africa, e.g., the picket of Kenneth Kaunda's funnytime visit to Kissinger-Ford, to question why (Continued on page 11)
