Statement issued by the Albanian Telegraph Agency says Chinese Government is false friend of Socialism

The breaking off of the economic, civil and military ties by China for Albania and the withdrawal of the Chinese specialists from Albania is perceived as a new application of the People's Republic of China of its big power course, its question from the scientific theory of Marxism-Leninism. In its repudiated and collaboration with imperialist and reactionist forces in the world, in the renunciation of aid and support for the revolutionary and liberation forces in the transient areas, the leadership of China makes erroneous collaboration with our country conditioned upon Albania's acceptance of and submission to this anti-Maoist policy. The Party of Labour of Albania and the Albanian Government have made efforts to solve the disagreements which existed between the leadership of the Chinese Communist and its leaders and our country have refused such a road.

While the news like this, such as the severance of aid and the withdrawal of specialists and on which the Albanian people have experienced before with the Shriver's revolts, cannot have any success in Albania, the pressure, blackmail, of no matter who made, to bring our Party and people in their knees, have not had and will never have any success. They have been transformed into defeat for their authors. The pressure and blackmail can never suffice the voice of socialism and power, and therefore, the Chinese people, now accustomed to chasten and imperil-method, will face up to and overcome with success the new obstacles, win new victories constructing the complete socialist society, and fulfill the Albanian path.

The Albanian people, under the leadership of their Party of Labour, will continue to light on this course and they are convinced that they will always enjoy the support of all the freedom-loving peoples and of revolutionaries of the world.

Workers win the vote but equality' proves inadequate

**HISTORIC NOTES**

Workers win the vote but equality' proves inadequate

In 1867, in the horror of many, workers 'entered the pale of the constitution.' Well, none of them, at least, had been reform mills before — in 1862, 1863, 1864 and 1866 — but the fact passed passed hurtfully after workers for the first time showed their displeasure at being treated as second class citizens and massed thousand demonstrating in Hyde Park.

Even only a small percentage of the workers cast their votes and this census was used to split 'them 'respective agents' from other sections of the classes. This first major census was followed in 1884, and 1886 when women over twenty four years were first given the vote. Universal suffrage did not fully arrive until 1929 — realism by capitalism along every inch.

Now how did workers use that first vote? They used it not to turn their back on trade union unity, but to demand that they be treated as second-class citizens and massed thousand demonstrating in Hyde Park. OUA in Khartoum demand stronger Zimbabwe policy

WHILE Mrs. Murerwa's win in the United States did not go only along the interest of the Smith regime in trying to get sanctions lifted, the crisis in Zimbabwe Unity, meeting to Khartoum, demanded a strengthening of sanctions against a Zimbabwe ruled by a completely unrepresentative government.

In the 100 days since the so-called 'internal settlement' was set up by Smith with the collusion of black renegades from the British liberation movement, the guerrillas were waged by the liberation forces has steadily moved to the right. More than 1,000 enemy soldiers of Smith's repressive army have been killed, and LCDP and NFUP have been shot down and killings of civilians and livestock have been brought down. In more than 200 incidents between the northern armed forces hundreds of enemy soldiery have been shot down and hundreds of civilians and livestock have been brought down.
