Soldiers Against Labor Draft

"The voices of those soldiers speak out clearly today in the struggle that Americans accept the same burden that a soldier must carry for service to his country"—SAYS STIMSON.

Says Staff Sergeant John O. Rainer, member of the Socialist Labor Party: "In our army paper, the "Stars and Stripes," we have been following the debates on the national service law up to the present time, and we have listened to a few words. We like to state and we may quote -- that we are firmly against this bill."

"We were led to understand that the subject in question once caused a civil war in England some years ago. It is sick and tired of hearing a few politicians try to bring slavery back into our American soil."

"If anyone would care to see how misfortune has foisted upon them in England, tell them to come over. It has ruined thousands of homes and broken other combat necessity."

"There were, of course, shortages in some parts of the world, but great quantity of food and clothing has been gathered and distributed to the civilian population."

"The War Department has discovered that the American people are not as hungry as the European people."

"The Phillips Petroleum Company has been accused of the theft of the company's fuel oil. The Phillips Petroleum Company is a large oil refinery that supplies products to the American people."

The Phillips Petroleum Company has many plants in America, and the Phillips Petroleum Company is a large oil refinery that supplies products to the American people. The Phillips Petroleum Company has been accused of the theft of the company's fuel oil.

"The War Department has discovered that the American people are not as hungry as the European people. The order of the day is to save the lives of the soldiers."

"Disputing Antis -- Including Anti-Semitic Jabs -- As Congress Stalls On the Soldier Vote"

"The President, according to the undisputed facts, has already offered a reward for all who may report any evidence of the passage of a law that can bring about such a result."

"The President has declared that he will not permit such a law to pass."

"The President has declared that he will not permit such a law to pass."

What's Stalin up to now? This is the question everyone is asking since the establishment of the Union. It is still a question of how the new Soviet Union will emerge. The American and the European Cartels have been instructed to prepare plans for the establishment of an international council to deal with the question of the new Soviet Union. "Common Man" Wallace Can't Fight Fascism

By RALPH MARVIN

Vice-President Wallace, running with the spirit of his great grandfather, is the soul and spirit of the American people. He is the best of all Democrats, the only Democrat who is not afraid to stand up and be counted. He is the champion of the little man, the champion of the working man, the champion of the American people. He is the great American hero, the great American leader.

The great American hero, the great American leader, is the champion of the American people. He is the champion of the little man, the champion of the working man, the champion of the American people. He is the great American hero, the great American leader.

Hillman and Stalins Bring ALP to Verge of Crack-Up

By ALBERT GATES

The American Labor Party of New York is now scarred by a difficult struggle for power. In the years since the mid-1930's, the ALP has been a major force in the American labor movement. It has played a significant role in shaping the political landscape of the country, and has been a powerful ally of the Democratic Party. However, it has also been plagued by internal conflicts and divisions. In recent years, the ALP has faced a number of challenges, including a decline in membership and support. This has led to a struggle for control between factions within the party. In the words of one observer, the ALP is now "on the verge of a crack-up."
