Michigan CIO Retreats from Its 1943 Militancy

By MARTIN HARVEY

GRAND RAPIDS—Over 1,000 organi- zed workers from the state gathered here today for a three-day convention of the Michigan AFL-CIO, which is expected to draw a total of some 20,000 union members. The convention is seen as an important test of the unions' ability to adapt to economic changes and new challenges.

The Michigan AFL-CIO, which represents a diverse range of industries, has been a key player in labor relations in the state for many years. The convention is an opportunity for union leaders to discuss strategies and priorities for the coming year.

The convention agenda includes sessions on improving wages and working conditions, organizing new members, and addressing issues like workplace safety and immigration.

The Michigan AFL-CIO is one of the largest and most influential labor federations in the country, with more than 1.5 million members. It has played a significant role in shaping labor law and policy in the United States.

The convention is also expected to draw attention to the ongoing struggles of union members, such as the fight for a living wage and the need for affordable healthcare.

Overall, the Michigan AFL-CIO is committed to building a strong and united labor movement that can effectively represent the interests of workers in the state and across the country.

---

The Michigan AFL-CIO is proud to serve as a champion of workers' rights and a leader in the fight for a better future for all. We invite you to join us in our efforts to build a stronger and more equitable society.

---

The Michigan AFL-CIO is committed to the principles of democracy, equity, and justice. We believe that all workers deserve fair treatment, safe working conditions, and a voice in the decisions that affect their lives.

We are dedicated to the goal of creating a more just and equitable society for all workers, and we strive to achieve this through our work and our commitment to the values of solidarity and compassion.

Ten Million Unemployed, Normal, Say Experts

The news of the week has been dominated by the news of the Great Depression. The number of unemployed has reached ten million in the United States alone. The economy is in shambles, with factories shutting down and workers being laid off. The situation is dire, and there is still no sign of recovery. However, the workers have been organizing and fighting for their rights, despite the odds. The labor movement is stronger than ever, and the workers are determined to stand up for their rights.

Little Fiorello Is a Four-Alarm Fraud To New York City Firemen

By WALTER WEISS

The CIO's Political Action Com-
mittee is setting up a new round of al-
leged fraud charges in campaign of a re-
cent election in which the victim was a
number of "little Fiorello". The CIO has
told the New York State Labor Board
that, when voting results come to be ex-
terminated, there will be evidence of
pressure and threats.

It is not clear whether the CIO will
wage a successful campaign in the
next election, nor whether the CIO will
be able to secure a significant number of
votes. However, the CIO's actions are
likely to be closely watched by the Con-
servative and anti-CIO forces in the
State.

Andreson, the Democrat, Jaffe, the
Labor League, and the CIO are all
likely to be involved in the next elec-
tion. The outcome of this election will
likely have significant implications for
the future of the CIO in New York State.

Four Million Army Rejection Reveal
U.S. Workers' Health Shattered

By DAVID COOLEGE

According to the "Steel epoch", the
number of workers who have been re-
jected by the Army is 900,000. This is
a remarkable figure, considering how
many steel workers are employed in
the industry. It is also interesting to note
that the number of workers who were
rejected in the past has increased signifi-
cantly.

The Steel Epoch reports that in the
past, the Army rejected a smaller propor-
tion of workers than it does today. This
is likely due to the fact that the Army
was less selective in the past.

The Steel Epoch also notes that
many workers who were rejected in the
past have since been re-employed by the
Army. This is likely due to the fact that
the Army was more lenient in the past.

However, the Steel Epoch reports
that the current rate of rejection by the
Army is higher than in the past. This is
likely due to the fact that the Army is
more selective in the present day.

The Steel Epoch concludes that the
Army rejection rate is likely to remain
high in the future. This is due to the fact
that the Army is not likely to become
less selective in the future.

BLS 'Price Index' No Substitute For
Real 'Cost of Living' Guide

Perhaps none of these statements
are new to the steel workers. In fact,
they have known this all along. The only
difference is that the Steel Epoch is
noting it in a more public manner.

No other news of interest is included
in the BLS 'Price Index'.

NEGROES NEED A LABOR PARTY

By W. E. B. CARVER

Why don't Negroes stand up for themselves? Why don't they say to the white man, "Don't talk about our God, but come up with a demand that's worth something?"

If you can't do it and stand up for yourself, you certainly cannot expect your God to do it for you. No matter how great or how small a thing it is, you must do it yourself. If you can't do it, you can't expect the white man to do it for you.

The Negro must understand that he is a man and must stand up for his rights. He must stand up for his God and his country. He must stand up for his family and his home.
