LOYALISTS DICKER OVER SELL OUT
Peoples Front Paves Way for Fascism
Workers Must Build Illegal Party and Continue Struggle

Although the Spanish Civil War has not yet terminated, the fall of Catalonia and the various "peace" negotiations are drawing the conflict to a close. But for the working class this only opens up a new stage and a different form of terror by the exploiters.

The conflict started on the basis of the internal decay of Spanish economy, with the bourgeoisie seeing the need of the strongest measures to suppress the developing social revolution of the working class and peasants — a war of classes. But the imperialist powers intervened for their own interests at the very beginning. Gradually, the betrayals of the working class and the imperialist pressure elevated to the forefront the imperialist conflict, while, with the aid of Peoples Front, the class war of the workers was dashed into support of the democratic bourgeoisie and relocated to the background.

It remained, nevertheless the underlying and determining factor in the Civil War.

On February 16, 1938, the Peoples Front coalition won an electoral victory in the majority of the Cortes (Parliament). The parliamentary gain was held by the reformists as a victory of the workers and a rout of the Fascists. Actually, however, it was a victory of the "democratic" capitalists over the workers. The Peoples Front lulled the masses to sleep, while the Fascists almost openly prepared their attack.

PEOPLES FRONT PAVES WAY FOR FASCISM

Workers Must Build Illegal Party and Continue Struggle

(Continued from Page 1)

The Fascist movement, which has gradually been gaining ground in Italy and Germany, is a product of the war. The workers, and especially the workers in the large cities, have been forced to fight for their lives against the war and the Fascists. The workers have been forced to organize to defend themselves against the Fascists.

The workers have formed an illegal party, the Fascist Party, and have continued to fight against the Fascists. The Fascist Party has been able to gain control of the government in Italy and Germany, and has been able to establish a dictatorship in both countries.

ed a similar role. These centrists preached under the flag of Marxism. For them, the "workers government" was Companys Generalitat and not the tattered rebels in exile fighting the capitalist state. They forget to smash the state. They failed behind the Anarchist leader whose the Anarchist workers.

A similar tragic role was played by the Trotskyites. Just because they had a large following in Spain and their influence was international. But Trotsky decided to liquidate his groups into the parties of the Second International. When the Civil War broke out, they backed the Communists in Spain and they were forced to leave France or internationally. They were all hostied by the Socialist Parties. Their international "Geneva" conference, meeting as the struggle began, in true sectarian fashion gave no directives and ignored the struggle. Later a number of militant elements from European countries entered Spain, but they were doomed to failure by their centrist line. Three times they tried to organize POUM, instead of carrying on an independent work to build a revolutionary force and carrying on fraction work. Most of them were deactivated by the Civil War. The United Socialist Trotskyites played the most treacherous role. As part of the Socialist Party they helped the North American Committee, which supported the Peoples Front. They called the POUM Marxist. This contributed to the Stalingrad-controlled International Brigade. Later, when the Socialists kicked them out they covered their support of the Peoples Front by calling for material aid (which is a form of political aid) and political aid aid of the POUM. Their Front in May 1979 the Trotskyites called for a "left" Peoples Front government — a Cabeto Anarchist government.

LESSONS OF THE STRUGGLE

Bourgeois Democracy cannot defeat fascism. The Peoples Front and the Labor Party are instruments to subordinate the workers to the "democratic" capitalists. The support of bourgeois Democracy covered the way for Fascism. Only independent working class action can defeat Fascism. Without workers control of production, without Soviets, without a Revolution the POUM, the sunny side of the workers, the decisive defeat of Fascism is not possible.

When the class war reaches the stage of open armed conflict against Fascism it is correct in our line of march towards the dictatorship of the proletariat to use a two-fold strategy of marching separately (from the "democratic" capitalists) and striking together with them against the Fascists. But this must at all times be carried out within the framework of INDEPENDENT working class action. It is the opposite of subordinating the working class forces to the bourgeoisie, or what amounts to the same thing, utilizing political dialogue (bargaining without political control) to the bourgeoisie. It is a policy of no support to the "democratic" capitalists, of continued struggle for immediate and other demands.

The working class to achieve power must SMOOD THE CAPTIALIST STATE. It is not enough to start towards workers power, anti-Fascist committees, etc. They must be developed and maturing the Revolution and smash the state.

The worksites must establish the Dictatorship of the Proletariat. This means DEMOCRACY FOR THE WORKERS, and a dictatorship against the former exploiters. This does not mean that a Party is the dictatorship. The Dictatorship of the Proletariat is carried out through the democratically elected Soviets under the ideological leadership of the Revolutionary Marxian Party. Above all the worksites in every factory, mine and mill MUST BE ARMED.

The developments in Spain, just as in Russia in 1917, called for SOVIET REVOLUTION. This is what Lenin's April thesis pointed out. It is the road the Bolsheviks marked. It should have been the road for Spain. Those who pointed out a different road: support of bourgeois democracy, for an armistice which can only be a PHASE in the revolutionary made defeat inevitable.

Without a revolutionary Marxian Party, a Communist Party, there can be no successful revolution. A Party, a program, a leadership, a mass base and mass movement. Ministry of War. Innumerable occasions that they were ready to seize power, as they have in over two dozen revolutions since 1917 — but their rebellions failed. They have tried and failed. Only a Marxian Party can guide this revolutionary action to success. THIS IS THE OUTSTANDING LESSON OF THE SPANISH REVOLUTION.

More lessons can and will be drawn. We have drawn only a few important ones.

For the Spanish workers there can be no ceasing of the conflict with Fascism or with the Peoples Front that paved the way for Fascism. Unconditional surrender, Greiner's "fight to the finish," or an "armistice" — all mean the same thing for the workers. They must try to save what they can out of the defeat, reorganize their forces, build their invalid organizations, build a new Communist Party. The working class internationally must help the Spanish revolutionaries, find a way to escape from Spain, and help those inside who escape the firing squads rebuild their forces to fight Fascism.

The Spanish workers in America must prepare now against the Fascist menace. Organize Workers Defense Corps. Drive the Fascists out of the workers camps. Smash Fascism. FIGHT FASCISM BY FIGHTING CAPITALISM.

subsidies to Mexico are expected to supply the same role.

Since the Fascist victories in Spain, an attempt to "defeat Fascism" is running into big class atomism — struggles between the working class and Fascists. A successful revolution in France would be the beginning of the end of European capitalism, and of Stalinism in Russia. Roosevelt and the American dollar fear such an eventuality above everything else. The aid to France has the purpose, among other things, of strengthening the Dail/Boulangist regime against the working class.

HELP THE VICTIMS OF FASCISM

In the Fascist countries of Europe there are an increased number of class war victims and Jewish workers and sympathizers and the working class to give to this Red Aid.

The American section of the International Anti-Fascist Red Aid has been working to organize the terror and great need to help the large number of working class revolutionists captured in the Hitlerатель.

Funds are needed for the workers who have escaped and are living a precarious life in "democratic" countries.

Funds are needed for women and children of revolutionists who have entered concentration camps and have not been heard of since.

Some of the revolutionists have escaped out of the German bell and are living precarious lives in the "democratic" capitalist countries. They are still in Germany for new homes for these workers need out and to enable others to organize their fight against Fascism.

Send in your contribution at once. Visit your fellow workers have and ask for a little extra, every one who can help will make a large amount in the Red Aid against Fascism.

New Unemployed Movement Must Be Built

Cleveland Group Shows Promise

There is no other solution for idle men and idle factories. As an organization in Cleveland, the Association of Unemployed on Direct Work Reform, has already begun this work. Individual and small associations have been growing broad sections of the unemployed in struggle against the bureaucratic setup.

The conclusion of this line of action towards Workers Control of Production - lies in such actions as opening up the workshops to control the relief funds, etc. But it also includes the organization of the Illinois Federation Factory Committee, various types of Workers Councils to over control the production of the employed and unemployed, and select the mills, factories, locale, etc., to be run by the workers themselves for their own welfare. Certainly "Mazzini". Like the Trotskyists will be the body. The Federation is not anti-fascist, it is anti-fascist to the bone...

The question is: is there any man or group of men with the necessary backing to make this work possible? If there is, then the movement can be started.

DECLINE OF U.S. CAPITALISM

The objective situation in the United States today is not on its way to an economic collapse. The development towards the pre-revolutionary situation is very rapid. The ability of the capitalists to grasp economic conclusions has already been checked even though the U.S. capitalists can still gain some political reforms. The workers and small associations are showing that they understand this and are grouping for an answer when they are either attacked or demobilized by the various Townsend, Direct Credit, Bigger City and Bigger Tunnel efforts every Thursday, Mahatma Hill and other movements. Over the last months which are after a bridge to revolution.

POPE DIES, REACTION RUNS COLD

The death of Pope Pius last month became an occasion for imperialist counter-revolution to elect a "beacon of God" friendly to this or that imperialism. Germany and Italy won the battle to be friendly to the Fascists. America's three Cardinals will not doubt give the "democratic" point of view. Pope Francis was the last pope to be friendly to the workers. His pontificate built an inflationary atmosphere in the whole world, the last months have been the last days of the "Pope of Peace". Pius XI was an ardent advocate of Franco's murder of the workers in Spain.
