Cleveland
Jobless Face
Starvation

Cleveland, Nov. 18 — As the city faces the worst relief crisis in history perhaps the jobless workers in new Republican governor, Bricker, are continuing the old army game of forming four-man squads. The starvations of thousands of unemployed is just a political football.

Bitterman has been cut to the bone; in fact are being given out now by Mr. Bell, green, a country relief director, only on an emergency basis of feeding food orders. Orders for food, cleaning, rent, and clothing have been cut considerably. Single people are expected to live on $4.25 a month, about 6 cents per meal. Disabled people now classified as “room and board” cases, are to be cut off from food orders entirely. Sick people at the County Nursing Home have just enough food to last two days. There is no coal for fire.

But Mayor Burton has been going to Governor Bricker and Bricker back to Burton. While the unemployed are leaving, Governor Bricker is coming down here to give talk to the Chamber of Commerce — no doubt on how he’s going to cut down taxes at the expense of the relief clients.

BITTNER DERAILS PACKINGHOUSE STRIKE; GIVES UP MAJOR DEMANDS AT ARMSOURS

Kansas City, Nov. 14 — The Bittner-Harris-Johnson leadership of the Packinghouse Workers Organization Committee, continues its role as the organizer of battles for the men in the meat-packing industry.

In April and then in July, representing the national convention of the PWOC — Bittner and Harris informed the locality that a national contract was no longer the issue. The strike demand of the fellows at Armasours was then taken up and the settlement for strike, even for a sit-down strike, was overwhelming.

The result of the shameful sell-out at Armasours has been the loss of morale and a number of local defeats.

CALLS OFF MILITANT STRIKE

Strikers in Fargo, North Dakota, who fought for the reinstatement of 2 men fired for union activity, were forced back to work by the Bittner-Harris leadership. After 10 weeks of striking The 2 men were not given their jobs back, and the strikers lost all seniority rights in the settlement arrived at with the company.

A strike called to force reinstatement of 2 men at the Cudahy Packinghouse was called off by Bittner Harris exactly 11 hours later even though there were fully 2,100 men on the picket line. The information given was that the County Attorney has informed Bittner-Harris that “counter proceedings would be instituted under union membership steps are taken to open the streets.” The K. C. ad- minister took the word of Mr. Harris’ full confidence. He has consistently spoken to the K. C. workers about “our good Mayor.”

In the present negotiations with the Armour company have Bittner and Harris are fighting ON THE SIDE OF THE COMPANY (continued on page 4)

Colonial Unrest
Slows Down
Imperialist War

The imperialist powers are digging in for a long war.

But their plans may be quickly upset. Colonial unrest is the impetus of all the belligerents are stirring beneath the b r u t a l Nazi regime. In just 3 years the British empire has got 1,500,000 Jews into the German government announced that it expected to keep the Polish peoples would react similar to the manner of the British and German dominion status to India.

What Does Stalin Want in the Baltic?

What has Stalin chosen just this moment to push his demands against Finland? Why, after 22 years, the haste to gain naval and military bases in Estonia, Latvia, Lithuania?

The Stalinist bureaucrats are prattling about how invincible the Workers State is today, especially after the conquest of Eastern Poland and the new military bases in the Baltic countries. Actually, however, the Soviet Union today is at its most critical stage.

For the moment Hitler is an “ally” of Stalin. But German imperialism and the German army today stand at the very gates of the Soviet Union. The borders of the two countries now touch each other. Behind the scenes in the present war there is feverish attempts at realignment, at “peace.” Even though the Stalinist bureaucracy is forced to shunt Hitler’s slogans against “continuation of the war” and for “peace”, Stalin clearly understands a against whom such a “peace” — if Britain and Germany can achieve it — will be directed.

MAY TURN TABLES ON STALIN

Despite the war going on in Europe there is still a possibility that the imperialist powers may come to a “truce” — on the basis of an attempt at a united imperialist attack with Germany as a spearhead, against the Soviet Union. The very method in which the war is being conducted — the refusal of all powers to bomb or attack important military factories, the “quiet” at the front, and the various peace gestures — indicate that both Britain and Germany (and the United States and Japan) have given this possibility much thought. The way for the conclusion of “peace” on such a basis might be paved, for instance, by the removal of Hitler by the German capitalists and the substitution for him of another capital agent.

No doubt the Russian military intelligence is as aware of these secret talks as are all other secret service agencies. The Soviet Union today is in the gravest danger, and, with it, of course, the privileges of the bureaucracy. The military bases Stalinism is striving to get, and those it has already gotten shows that even the Stalinist bureaucracy understands its precarious position. The new “protektorats” over Lithuania, Estonia, and Latvia can be, and are directed at, only one thing — the defense of the Workers State against a possible attack by Germany in the very near future.

DEFEND WORKERS STATE

Shall revolutionists, then, support the military and diplomatic maneuvers by Stalinism to branch out in the Baltic? Certainly no one who considers the Soviet Union a workers state who is for its defense, can possibly be opposed to the U. S. S. R. gaining strategic bases with which to defend itself. What Marxists are against, however, is the METHOD by which Stalinism attempts to get them.

Stalinism today has succumbed to playing purely
The Profits of Peace Lead Directly to the War for Profits

For the last few months the U. S. Government has been conducting an intensive recruiting campaign for the American armed forces. This time the millions that were and are being spent in the Rouen Officers Training Corps, the Civilian Military Training Camps, and the Civilian Conservation Corps are to be joined by Veterans Reserve military plans to raise the total to 672,000 men, including "draftees" for the first time. With the further recruitment of 88,000, the American military forces will be expanded to fill a commission of a limited national emergency. The sum of 275 million dollars is to be appropriated in what has already been approved as the first step in the preparation of Congress in January by Roosevelt in order to safeguard and enforce the American Neutrality Provisions.

The whole neutrality business is so much nonsense that for public consumption is to be devoted to the big steps toward American participation in the war. At the same time the Allies have been taken.

The question is what is going to be used for "neutrality," nor is it for the protection of peace. It is being used for Imperialism world domination tomorrow. And the great number of lives of youth are to be sacrificed.

The whole neutrality business is so much nonsense that for public consumption is to be devoted to the big steps toward American participation in the war. At the same time the Allies have been taken.

"GOOD" CAPITALISTS DON'T WANT WAR?
The Italian Fascists don't want to enter the war either. They say that they would make more money than they stay out of it. Do the editors who praise the American exploiters mean that the capitalists of Fascist Italy (and "democratic" United States) are "good" while the "Democratic" French and British capitalists are "bad"?

It is not the exploiters, even though they control the state, who have the final word on the question of what shall happen. They are subject and control the exploiters, but it is the capitalistic system, and not the capitalist that creates imperialist wars, depressions and unemployment. To defend their present trade gains and investments; to have a say in the coming division of the Earth, in fact, to avoid a more serious depression and internal crisis each imperialist pocketbook must enter the war.

AGAINST WAR—FOR NATIONAL DEFENSE?
One who says he is against war and is for national defense is either a muddle-headed or a defender of exploitation of mankind. To say you are "against war," before the nation enters the war, is often only chunck talk. The real test to determine if you are against the imperialist war is what you will do when your "OWN" country enters the war. Every capitalist nation, including Germany, Japan, Russia and England claim they are going to "DEFEND" themselves against aggressors. If we claim to be against the imperialist war our words become deeds to the highest bidder. The only one who really means anything to the imperialist war then will separate the defenders of the masses from the agents of the exploiters. A consistent position against war is possible only upon Lenin's position of revolutionary defeasement.

AGAINST WAR—FOR CAPITALISM?
To be against the war and for the defense of capitalism is to say that you are against the effect but for the cause. The imperialist wars, like the depressions, are effects of the capitalist system. Its mode of production based upon the non-social ownership of the means of production (land, factories, transportation, and markets) and substituting instead of for use is the CAUSE. Where history reveals a system of production based upon the exploitation of man by man, instead of the exploitation of nature by united mankind, there you have a history of class struggle, a history of wars and revolutions.

To oppose the war, the effect, and to defend capitalism or any other form of exploitation, is like fighting typhoid in every possible way, but continuing at the same time to defend the dumping of sewerage directly into the drinking water.

The liberal wants peace, the preacher wants peace, the mothers, fathers and sweethearts of the soldiers want peace, but it is a cry in the wilderness unless one understands how peace, lasting peace against imperialist wars, can be obtained.

ONLY REVOLUTION CAN END WAR

AMERICA NEEDS A WAR MORE THAN ANY NATION ON EARTH. In order to protect its empire in the Caribbean and in Latin America, as well as to extend its hold to the Pacific to Asia, America MUST go to war. To bank on anything else is hopeless illusion.

Peace is possible and the war can be answered effectively, only by the revolutionary overthrow of capitalism; only by the revolutionary reconstruction of society to eliminate the profit motive from production, (and its inevitable consequence, war), and substitute instead PRODUCTION FOR USE. Peace is possible only after the capitalist state, the Dictatorship of the Bourgeoisie, with its labor-hating police and army, is disarmed and smashed, and when a new state, A Workers State, with Workers Councils and Workers Militia — the Dictatorship of the Proletariat — takes its place.

The last war was stopped by revolution— the Russian Revolution of 1917 and the threat of revolution by the German working class. Not an inch of German territory was ever conquered. The present war, too, will be stopped only by the revolutionary working class, under the leadership of the new world vanguard Party that is still to be organized, the New Communist (4th) International.

WHO CAN TELL THE DIFFERENCE?

We remember when our school-teachers told us about the "great leaders of our nation," the good judges, politicians, university presidents, etc.

Well, now that we're out of school let's take a look at these "great exploiters."

The Chicago papers are filled these days with stories about the tie-up between the "good judges and good mayors" with Capone gangsters.

Judge Eugene Holland, who dismissed thousands of racketeers and gamblers — and who, by the way, fined a FIGHTING WORKER salesman $100 — turns out to be a close friend and business associate of a leading Capone gangster, E. J. O'Hare.

Mayor John Paton of Burham is another business associate and friend of the dead gangster. Jimmie Finley, Democratic boss in New York and good friend of President Roosevelt, was the fixer for and friend of gangster Dutch Schultz.

Mr. Smith, University president in Louisiana, is nothing but an ordinary crook who swindles funds that are supposed to go for students and books.

Mr. Pendergast, the head of the Kansas City democratic machine, is just a plain shake-down artist and crook.

David L. Lawrence, chairman of the Democratic Party in Pennsylvania, is accused of blackmail, and...
WHAT IS STALIN DOING IN THE BALTIC?

(Continued from Page 1)

power politics. It uses only military force, or threat of it, to gain its ends in the Baltic. It has completely discarded any attempt to stir up proletarian revolution in the small countries around the Soviet Union. Revolutionists will continue to condemn the purely military and administrative methods by which Stalinism pushes the "defense" of the Soviet Union. In the long run such a "defense" spells defeat. Only the extension of the October Revolution can really give adequate defense to the Soviets. As it is, a host of millionaires in the Baltic and a disgruntled proletariat within Russia, and the newly conquered Eastern Poland, dissatisfied with the rotten regime of the Stalinist bureaucracy — these things make the defense of the Soviet Union under Stalinism thousands times more difficult.

Should Germany and Britain fail to arrive at a "peace" directed at the Soviet Union — and that seems to be the most likely event — there is little danger that the Soviet Union under Stalinism, will be sucked into the war as a TAIL to German Imperialism. Already Stalinism and the Soviet Union through it — is involved in the war on Hitler's side. Economic aid to the Nazi war machine is being increased and political aid, through the new slogans and "line" of the Stalinite parties everywhere, is being given the fascist war drive. Just as yesterday Stalin supported the war aims of "democratic" France, so today he is giving full (and much more material) support to Hitler's actual "break with Hitler and democracies!"

If, through this false policy, the Soviet Union becomes involved in the war, Marxists will oppose the Stalinist participation on the basis of power politics and as a tail, completely subordinate, to the German group of imperialists. AS REVOLUTIONISTS WE MUST DEMAND THAT THE SOVIET UNION PARTICIPATE AGAINST THE WAR ON THE BASIS OF CLASS STRUGGLE.

Concretely that means we continue to defend the Soviet Union. But that defense must revolve around the axis of extension of the October Revolution. It must take on a character of its own, subordinating itself to German or any other Imperialist power. If Russian territory is being attacked the Soviets may have to make a choice with some capital, but against others. Such an alliance today is totally unnecessary. But even if it were necessary it would be 100% wrong to subordinate the Workers State to the imperialist needs of Hitler or Chamberlain — as Stalin is doing today. There can only be one ally of the Soviet Union — the working class. And (2) the constant agitation by the Workers State for a truly socialist peace based on the extension of the proletarian revolution to all belligerent countries.

THE DEFENSE OF THE SOVIET UNION CAN NOT BE ACHIEVED BY STALINISM AND THE STALINIST POLICY OF POWER POLITICS AND SUBORDINATION TO ONE GROUP OF IMPERIALISTS AGAINST ANOTHER. THE SOVIET UNION CAN BE DEFENDED ONLY BY WORKING FOR THE MILITARY, ECONOMIC, AND SOCIAL DEFEAT OF ALL THE WAR RING POWERS AND A POLITICAL REVOLUTION AGAINST THE AGENTS OF CAPITALISM WITHIN RUSSIA, PRIMARILY STALINISM!

Symposium

THE SOVIET UNION NEEDS WAR-PAVED WORKERS STATE

THE WORDS AND DEEDS OF TROTSKYISM

A centrist is a person who TALKS as if he would like to overthrow capitalism, but ACTS to patch up and preserve the existing system. In other words, what he just doesn't mean what he says. In Lenin's definition, a centrist means revolutionary WORDS, coupled with REFORMIST DEEDS!

Take a classic example — the Trotskyites.

Against the war, against the Roosevelt War Plans IN WORDS. In DEEDS it calls on the New York workers to vote for the biggest war-mongering party in America, the American Labor Party! (See the Nov. 15 issue of the FIGHTING WORKER).

In WORDS for a new world party of "revolutionary socialism." But in deeds? Build a new capitalist party, the Labor Party.

In WORDS — "we are for independent class action." But in DEEDS — support to the "Ham" and Eggs pipe dream — support to the wage-hour bill; support to the Bigelow pension scheme; support to the Ludlow pacific amendment!

In WORDS — "we must fight the war by working for the overthrow of capitalism." But in DEEDS — "let the people vote on war" patch up the system of capitalism by still another legislative illusion!

We could enumerate many many more examples. But these illustrate the point.

Many honest revolutionaries remain in the Trotsky swamp because they believe that some day something will happen. What they do not understand is that the WORDS merely cover up the reformist deeds. Revolutionary workers must break from this opportunist outfit and join with the Marxists to build a new Communist Party and International.

CHICAGO UNEMPLOYED DEMAND RELIEF INCREASES

The following leaflet issued by Local 45 of the Chicago Workers Security Federation gives a picture of the plight of the unemployed in Chicago. We reproduce the whole leaflet:

The sixty-five percent starvation budget (or the eighty percent Thanksgiving budget) of the city of Chicago is a disgrace to America, and is an insult to the unemployed and their families who are supposed to peacefully accept this等情况.

But the unemployed have decided that they will not starve and freeze to death. They will not accept this starvation budget for a single man for food, rent and clothing; that is worse that the Hitler war rations.

The unemployed of Chicago are beginning to move, are beginning to organize a mighty movement that will sweep all before it and gain its objective.

The unemployed will not be satisfied with the 100% level formerly obtained before the 35% cut. Even this 100% budget is 30% below the government estimate for the minimum necessities of life.

The unemployed demand a HUNDRED PERCENT INCREASE over the present 65% level. Mayor Kelly's starvation budget must be thrown out.

The unemployed are organizing. They are getting ready to PICKET ALL RELIEF STATIONS, and let the bosses and the bloody war profiteers understand what we want this winter. The unemployed will not stop there. They will shake the City Hall and the State Capital with the vibrations of the mighty mass protest. THEY ARE ON THE MARCH.

They want you to join them. As an individual your might is insignificant. But as PART of the ORGANIZED WORKERS MOVEMENT our might is INEXHAUSTIBLE! You must join up and do your part. As an unemployed worker, in relief or off relief, it is your duty. As an employed worker it is also your duty to join with us and give us your fullest support.

Winter is here. We need clothes! We need fuel! We need food! We need better homes!

WE DEMAND ADEQUATE FOOD, CLOTHES, AND FUEL

WE DEMAND A RENT MORATORIUM UNTIL OUR RELIEF BUDGET IS RAISED 100%.

TROTSKYITE STOOL PIGEON

"The Trotskyite leader, Walter Daugoe, came from the reformists, informed the police that V. was identified with one of the supporters of the illegally published 'Internationalist Correspondence', put out by the Molinier group. Daugoe declared himself forward 'a dozen witnesses' for proof. He defends his action saying that the illegally appearing paper serves no other purpose than to cause vague moral and political unrest among the Trotskyites. He agreed to answer every proposal for issuing an illegal organ. Now he is trying to obtain Daugoe's release and Daugoe has finally found a LEGAL party for the 'Fourth International'. T. also means a split in the Belgian Trotskyite, since all do not follow Daugoe.

"All this only makes the centrist work of the Molinier group among the workers disillusioned with Trotskyism so much the easier. In fact the political line of this group in no way differs from that of the official Trotskyites, except the question of proclamation of the Fourth 'International'."

"The axis of the whole agitation and propaganda campaign is the Russification war through which they present the bourgeois — pacifist slogans — war against the unity of the workers peasants, and soldiers! Those who dare give a word in defense of a discussion with us."

News from Europe

Despite the arrest of two leading comrades of the INTERNA- TIONAL COMMISSION in Europe the work of the European comrades of the Communist movement continues.

The I. C. C. is an international grouping that stands for the New Fourth International. In the last month the leading comrade of a split movement off from Trotskyism with groups through-out Europe has been arrested; he is the third original signers of the 14 Points, the Red Front League of Germany, Scotland, and the K. W. L. We print below excerpts from a letter just received from comrads of the Communist Party of Great Britain.

October 19, 1939

Dear Comrads:

"We are sending all our efforts to secure his release and to get the I. C. C. comrades out of prison. When you get this we will distribute the following information about this case: The violent anti-war struggle between the centrist groups and the Trotskyites has come home to sharpness in Belgium, because the American Labor Union and the center of the Molinier group are focalizing around TROTSKYITE STOOL PIGEON.

"The Trotskyite leader, Walter Daugoe, came from the reformists, informed the police that V. was identified with one of the supporters of the illegally published 'Internationalist Correspondence', put out by the Molinier group. Daugoe declared himself forward 'a dozen witnesses' for proof. He defends his action saying that the illegally appearing paper serves no other purpose than to cause vague moral and political unrest among the Trotskyites. Fighting Worker

Lack of Independent Class Action

The November 7th elections in the United States should act as the danger signal for the labor movement.

Not that elections, or Congress, or political parties, etc. will settle anything. Election of “good liberal” candidates or agitators, no matter how effective against wage cuts and speed-up, is an election of ‘b’ a reactionary. In the whole history of the U. S. (and every other country) Congress has never once granted a demand of the working class — and never will. On occasions the politicians in Congress will enact some close imitation. Usually it is something that the workers have already gained by independent working class action. At other times the law will nullify all of loopholes will be put forward to head off any possible organized threat.

The first ten amendments to the Constitution giving the right to assemble, free speech, etc., was after thousands of strikers, including some of the veterans that lost their lives in the black-old-fashioned half-reasoning.

Who is elected in the November 7th election isn’t really important. What that usually is an indication, something that the workers have been doing in the period of the Depression.

SWING TO RIGHT

The workers and the masses show a strong swing to the right. The New Deal scheme was defeated by 2 to 1 in California, even though in the last election it lost by Only 101,000 votes. Similarly, the Bigelow pension in Ohio was badly defeated. In New York, reactionary Tammany Hall won an overwhelming victory — almost a clean sweep — of Philadelphia a conservativo Republican, nominated a New Deal Democrat. In reading the Socialist Party newspapers the vote was given was.

What does all this add up to? The elections are a warning. They show that since the working class, because of its reactionary leadership, has pursued no militant course in the last year or two, millions of farm and city middle class are moving to the right, are being snared.

PLOWS GROUND FOR FASCISM

If the present course is continued, if Lewis and Green can continue to hoodwink the workers into giving up the strike and all other rights to strike and depending only on the “liberal” government and Congress — if this course is continued then the vast middle class will become even more and be an easy prey for some Fascist demagogue in the U. S.

That’s what the elections show. What shall the workers do? The League of Pro-Progressive Groups in every union to organize a clean sweep on Stalinsite or other bosses are, on the basis of independent working class action. And 3 — build a New Communist Party in the United States.

November 18 — When 50,000 workers went on strike in 1937 in the Chrysler plants, John L. Lewis and Dick Frankensteen told them that their best fight was the New Deal. The men eventually went back to work, without winning a single point they weren’t offered before the strike began.

And Chrysler began 2 years of chiselling on the contract, and speed up.

Now the Chrysler men are out of the plants again. They’ve been locked out after pulling an effective slowdown strike against Chrysler’s speed-up.

The New Deal has shown its “friendship” in two ways. The National Labor Relations Board ruled that Chrysler could have a margin on a plant-wide instead of the company-wide basis, thus helping Chrysler pit one plant and one group of men against the other. And the N. E. C. A. Security Board in Michigan has refused to grant the 5,000 workers thrown out of the plants unemployment compensation on the grounds that they are “refusing to do their work.”

The role of Lewis and company gets worse in each strike. Even though the strikers have done as wrong, though Frankensteen and Lewis have a strong discrepancy in this strike they are likely to agree to large numbers of points. First, that they shouldn’t spread the strike to other plants and other companies, even though about 5,000 other workers are already locked out because of the Chrysler lockout.
