The yellow leaders of the CIO and AFIL, stung by the fizzling of the Stalinist anti-communist Parry, are blaming the miners' strike and Lewis for the passage of the Smith-Connelly Act.

First of all, they blame Lewis for the strike. Actually, if not for the strike situation, Lewis would be far in the background. Moreover, Lewis has done more than all of them put together to throttle the strike.

Secondly, the strike was just an excuse to put through the bill. It or a similar one would have come through the next Congress, even if their stooges saw a chance for it. Remember the Vresnun Hill, back in April 1941? It called for a 30 day "cooling-off period," and for further strike limitation bills to be put through in war industries. There was no miners strikes then. Reaction was strong enough to put them through, but we have it today. We have the wage freezes, the job freezes and the no strikes. The war and the labor fakers gave them their chance.

Another Va. Millitant, Framed By Boss Class. Demand Release of Samuel Kelly

Richmond, Va. (By Charlotte Lee, special correspondent for the FIGHTING MILITANT) June 14, 1943 the jail doors closed shut on Samuel Kelly, framers local militant. Despite the fact that he was a war worker, he was being held on a petition for re-hearing of his case before the Virginia court of criminal appeals, duly filed in accordance with the court's law, the judge refused to allow him bail, even after he had served only two-thirds of his sentence! This was the culmination of what has been going on in the efforts of the miners to get back through every state of the case. Kelly was convicted in May 1942 by the Circuit Court of Richmond of the larceny of six tries from the A and B store, and despite the fact that the heart of evidence ever brought forward to show that Kelly had ever taken one single item from that store (literally true), despite the fact that the clothing alleged to have been stolen was never proved to have ever been in the possession of Kelly, he was sentenced by the Supreme Court of Appeals of Virginia, the same august body that decided the Negroes Osdel Weller, affirmed the decision of the lower court without even an attempt to show that Kelly had committed any crime. The same law that lies behind all this, pur- using to the naive believer in the "democratic processes of the law?"

KELLY FRAMED

Then the little prejudice of the former employer to a competitor "clikced" with the big "prejudice" of the ruling class of Richmond, March 7, 1943. Kelly's case was raised by the police accompanied by Lapkin. All the clothes in the

Lion Of Judea Swallowed By British Imperialism

In Egypt, British imperialism still marches jauntily on its way, imperceptibly by the Atlantic chart- er or any other pronouncements about "freedom" and the rights of small nations.

The following item, taken from Time magazine, is an accurate picture of how small na- tions fare under British imperialist domination, even of a war is over. British judges and assessors sit on the Egyptian courts. British and French officials operate the railroad from Addis Ababa to Diera near the French Somaliland border. British officers train Egyptian soldiers and conscript them into the regular army. A British commission controls the Addis Ababa wireless. A British commission rules the air over. This leadership has an- nounced free an estimated 330 to 350 million of property left by the Italians. A British financial commission helped to set up the Djibouti and the United Kingdom Commercial Corp., expedites what trade there is.

The price that the Egyptian people are paying for this is a very high. After all, the conquest of Italy was to "advance" from a visual status under Itavia to economic and military subjugation, with all that the British understood well enough to enforce the terms of the imperialist agreements.

store, practically without exception, is selling悲剧。In May, he was tried in circuit court and found guilty of seven counts, to which he pleaded not guilty, and was sentenced to the state penitentiary for five years. He is expected to be released in August.

The case was tried in the Circuit Court of Union County, before Judge C. S. Beeler, and was conducted with great ability by the State's Attorney, George V. Jenkins, and Robert F. Jenkins, of the Kanawha County bar. The defendant was represented by a competent lawyer, Mr. R. F. Jenkins, who made a strong and able defense. The verdict was rendered unanimously by the jury and was upheld on appeal.

The case is one of the most important in the history of the State, and is expected to have a great influence on the future of the State. It is hoped that the defendant will be allowed to appeal to the Supreme Court of Appeals, where his case will be reviewed. The people of the State are united in their support of the defendant, and it is believed that justice will be done.

Revolts Is the Right of the Slave

Letter From Detroit

Editor, Fighting Worker

There is a great deal of discussion and controversy about the rights of workers to participate in the political process. Many people believe that these rights are essential for the protection of workers' interests and for the advancement of the working class. However, others argue that these rights are not necessary and that they can be achieved through other means. 

The debate about the rights of workers to participate in the political process is important because it affects the way in which workers are represented and their ability to influence government policies. It is crucial that workers have the opportunity to participate in the political process in order to safeguard their rights and interests.

From A Scottish Worker to the Rw

Dear Comrades,

I wish to thank you for the files you sent me. They arrived yesterday and I have spent most of my time reading them. The official trade union publications have been quite a large circulation here; the Cannon and Shachtman press articles are regular and the Fighting Workers are also present. News are the only papers carrying the reader on the trade union movement.

In fact at the present moment papers in the world is on the increase and it can turn to for guidance. Words cannot express how good reading your papers has been to me. They are my main source of information and they are excellent. I am a Communist and I find that I am the one who is expressing a conscious Marxist position.

As far as I am concerned with the success of the worker I would like to open an account with you but currency regulations prevent that. No more will I have to do with the state and that is what happens to the whites and hardly a word of the affairs that happens to the Negroes.

Second Front Against Axis Or Against Imperialism In Europe?

The big question—now that the Allies have invaded Sicily—is how far will the “Second Front” go? Will it lead to a war against France and the Balkans? Will it be an all-out offensive to take Germany and Italy out of the war in 1943? This is a longer time period envisaged.

Coal Miners Need Rank And File Leadership

(Continued from page 1)

The fault that the miners—if not the Comman- der in Chief thinks of the armed forces—a parochialism and paternalism. These forces have been the bane of the miners, and rank and file leadership must be the salvation of the miners. This will bring about a marked change in the lives of the miners who will then be able to give us a fighting chance for the betterment of our lives.

The need of the miners for rank and file leadership is not a new phenomenon. The miners have always been at odds with the owners and the government.

Justice Under the Capitalist System

While the entire capitalist system is responsible for the misery of the miners, President Johnson can do little to improve the situation. The miners, on the other hand, need the help of the government.

For years, the miners have struggled against the capitalist system. The mine strike is only one of the many occasions when the miners have shown their determination to fight for their rights. The miners need the support of the government in order to achieve their goals.

The miners’ strike is not just a battle against the capitalists. It is a battle for the survival of the working class. The miners are fighting for their lives, and the government must support them.

The miners’ struggle is not only for the miners themselves. It is a struggle for the future of the working class. The miners are fighting for the rights of all workers, not just for themselves.

The miners’ strike is a battle for democracy. The miners are fighting for the right to be heard, to be respected, and to be treated with dignity. The miners are fighting for a better future for all workers.

The miners’ strike is a battle for justice. The miners are fighting for the right to be treated fairly, to be paid a living wage, and to have a say in the decisions that affect their lives.

The miners’ strike is a battle for freedom. The miners are fighting for the right to be free from exploitation, to be free from the control of the capitalists, and to be free to make their own decisions.

The miners’ strike is a battle for equality. The miners are fighting for the right to be treated equally, to have the same rights as everyone else, and to be treated with respect.

The miners’ strike is a battle for peace. The miners are fighting for a world where workers can live in peace, where there is no fear of losing their jobs, and where there is no fear of violence.

The miners’ strike is a battle for international solidarity. The miners are fighting for the right to be united, to be supported by workers around the world, and to be free from oppression.

The miners’ strike is a battle for the future of humanity. The miners are fighting for a world where workers can live in dignity, where there is no exploitation, and where there is no oppression.
