Workers of the World
Unite!

Neither Badoglio, Amgol, Nor the Bloc of 5 Parties
FOR A SOCIALIST ITALY!

Another major act that will end the Imperialist War has begun—the Social Revolution in Italy. The capitalist structure, weakened in every pillar, has cracked in one of its weakest links, Italy. But the chain that brings forth the Revolution now in Italy, will soon cross the borders of France, Belgium, Germany, and eventually the United States, Britain and Asia. As predicted and as emphasized by the Revolutionary Workers League and the International Communist Com- munity all these years, the imperialist war and the proletarian Revolution are linked together. One or the other will always perish. Either the proletariat will destroy once and for all the system of class oppression with its wars, its bread lines, its hunger and its misery, and establish Workers Council Republics all over the world; OR Imperialism (both in its Fascist forms and in its Bourgeois forms and in its Bonapartist Democratic form) will continue to murder off the flower of the Italian youth and recent bloodshed for world market and colonies. There are no other alternatives!

FIRST IMPORTANT BLOW

The Italian proletariat has delivered a telling blow. After 21 years of Fascism, after 21 years of a devastating dictatorship which destroyed their country, their home, their families, the workers of Milan, Turin, Rome, Naples have with one fell blow overthrown the rotten Fascist structure. It remains to be seen to what extent, to what form will Fascism reform itself to march forward until every vestige of capitalism is destroyed in Italy and a Soviet Republic set up in its place. The Italian proletariat has given the lie to all those pessimists and fearmongers who doubted that the proletariat would not strike back. The Italian Revolution was “permanent,” who long ago lost hope in the cause of the Workers’ Revolution. The Italian Working Class recovered with a resiliency that was truly heartening. One day after the fall of Mussolini workers in Milan demonstrated, according to the press, with slogans of “Long Live So- cialism.” After twenty years the Milan workers re- membered to avenge the Fascist murder of Mattiotti, the Socialist leader. The murder was fairly given receipt by the justices. The demonstration was a great check on Fascist society. After twenty-one years workers demonstrated in Milan without riots, except small under- ground groups, the workers are beginning to seize the factories again, to organize factory committees, and without a doubt, in the next few months, the Italian Workers Councils, if they are not already in existence now.

The Italian Revolution is today only in its first stages but it poses many problems and many possibilities. The working class everywhere must rise up to the defense of the workers of Milan, Turin and Rome. The lessons of the past twenty-six years must be absorbed and utilized so that the workers of Italy do not go down to another defeat, as did the workers of Spain, Germany, China, Britain, Austria and countless other sections of the world working class since 1837, in the interests of the United States, Great Britain, Australia and elsewhere, wishes to pose the following point.

MILITARY DICTATORSHIP

1—The Badoglio government is a reactionary military dictatorship, which is destroying just as its pre- decessor the Mussolini regime. It had the blessings from the majority of the majority wing of the Fascist Grand Council of General Badoglio and the Fascist Grand Council of General De Gasperi. It is expected almost for almost two dozen years. The Badoglio government can not bring a lasting peace; it can not establish a stable Fascist government that stands between a victorious allied army on the one hand and a marching proletariat on the other. Rather than permit the working class to overthrow capitalism, Badoglio like Petain and Laval before him will call upon the government of General De Gasperi and the United States to aid the Italian capitalists against the Proletarian Revolution.

2—The Badoglio government is merely a stopgap placed in power by the Milan and Rome bankers to check the working class. If it succeeds we can expect a new Fascist government in Italy.

BLOC OF FIVE PARTIES

3—The “block of five parties” is only a façade composed of liberal, Catholic, Socialist and Stalinist parties—is nothing more or less than the Italian version of the Kremensky bloc of independent governments of 1918 in Germany, or the People’s Front in France and Spain in 1936-38. Its only purpose will be to deceive the working people, to tie them securely to the present system of energy, to tie them securely to the present system of a new Fascist regime, without Mussolini, but with all his principles and some additional brutality, a Fascist regime still more brutal and impossible. With the fall of Mussolini and the rise of the Socialism of his present economic decay, the loss of the Italian colo- nies, the ravages and expenses of war the Italian capi- talists can grant absolutely no concessions whatsoever to the working masses. If nevertheless “democracy” is established for a few months (or a year) it will mean the end of the whole capitalist system, rather than have the workers advance, the all productive work of the capitalist and expressmate the capitalists—rather than this the Italian finance capitalists will install a “democratic” regime while still the war, to demoralize the Revolution until the Italian Kornilov (or Hitler) can be found and prepared to seize again the smashed Socialist government. The reformist bloc of five parties is a trap a hundred times more dangerous than the openly reactionary Badoglio government. And it will become still more dangerous because the centrist everywhere will undoubtedly give it support (with “crenitsi”). But there can be no doubt that the Italian Allies against Fascism again assume a Russian position. Any attempt at an intermediate regime—a moderate democratic government of the reformists, or a “workers and farmers government” of the centrist Trotskyites and Grand Industrial Labor Party—such attempts at intermediate regimes merely undermine the Revolution and pave the way for the restoration of Fascism.

Even if such a liberal government comes to power we will work for and support in any way, whether it fights with Germany against the Allies or with the Allies against Germany, if we do not demand until we have a Soviet Socialist Republic.

ROBBERS’ PEACE

4—The Allied Imperialists will enforce upon Italy a robber’s peace, a “peace” of peace after the stolen ter- tory, of class oppression. The Allied Imperialists today as in 1918 (and probably more so) will aid and act as the oven and rather than name the proletarian. As in 1918, the Fascist and the Revolutionary Workers League have long point- ed out, the Allies have chosen the most fitting and up- rising for their “second front.” They have indicated that they understand much better than Stalin and the Allies how clearly and precisely the Fascist War and the Revolution are interlinked. Churchill and Roose- velt choose to take on major problems first—and the “peace” to be the intermediate revolution. The Revolutionary workers of Great Britain and the United States have given the world the peace that will be imposed upon Italy. We demand that not a soldier, not a penny be used by the Allies for the counter-revolution in Italy. We are working on page 3 Continued

Sometimes ago Mr. Wallace, the Vice-President of the United States, said that the present mass slaughter is a “people’s revolution” —the beginning of a new era—an end to the war. But this he gave his assurance he would get a quart of something each day. This sort of milk was cut to a pint by the wife of the Soviet ambassadress. This, of course, is not only an expression of Russian pessimism.

Now, if there is anybody in the world that would a quart of milk outside of the Hottentots, it is the 8 million Bantu of South Africa. Their lives up to the moment is a violent and contrary civilization influencing the white of South Africa. In 1930, there have been fewer human beings than ever before. They have made them a little less than sus- ceptible to such civilised niggers as ricohers; paladins; dy- symists; and syphilists. You can be sure that if any Hottentos heard Mr. Wal- lace’s speech, which was of course hastily kept from him, they would hasten to the poll and cast a vote for Mr. Wallace, that is, if he were allowed a vote.

SHOULD GET SOMETHING

If a “people’s revolution” is being fought the general idea is that the people will get something from it. And the basic gains are received at the beginning of the Revolution. For example, when the French people (that is the French bourgeoisie) fought their revolution in 1789 they gained tax- free demands immediately, such as the end of all non-import without trial, the right of trial by jury, and the right of appeal.

Well, the Bantu aren’t as smart as Mr. Wallace or any of the other “leaders” of this “people’s revolution,” but somehow they bear a lot less about freedom and the rights of oppressed peoples. Things had not been going so well in South Africa. Their money wages were no longer sufficient to buy the necessities of life. So with all the talk going on among the white folks about freedom and the war for liberation the Bantu decided to organize a trade union in Pretoria and ask for higher wages.

The local white leaders of the people’s revolution in South Africa did not see eye to eye with the Bantu on this matter of wages. The Bantu leaders were no longer interested in improving wages. The local “people’s revolutions” called out the troops to prevent them from going home (instead of sending them to Europe to help fight Hitler) prepared for just such an emergency. The troops carried out their orders and fired

United Front Formed To
Defend Richmond Negro

SPECIAL TO THE FIGHTING WORKER

On the night of July 23 over a hundred organizations gathered in the Richmond Civic Council assembled in a mass meeting to stand behind Kelly and voted unanimously to send delegates to a united front conference called by the Labor Front of the Defense Congress, which is hand- ling Kelly’s case.

On July 22 this conference met, set up a machinery, made further preparations for the steps in the case, and prepared to acquaint Negroes with all possible extent with the facts in the case. To this end a first meeting was arranged to be held the night of August 2, at 8:30 p.m. at the Fifth Baptist Church, 705 N. 5th St., Richmond, Va. Dr. C. C. Scott, pastor of that church is to pre- side. Among the speakers to be is Mr. Kelly’s original at- torney (and one of his present attorneys), Mr. E. A. Norrell, Thomas H. Stono, national counsel of the Labor Defense Con- gresses and another of Kelly’s at- torneys, Dr. W. L. Ramsome, presi- dent of the Richmond Civic Coun- cil, who, with T. Supt. D. S. Islay- ley of the National Association for the Advancement of Colored Peo- ple, and Mr. E. W. Steele, active in the Kelly defense from the start, are the main leaders in the prosecution. The facts of the case will be pre- sented, along with resolutions on

The united front conference is attended by its officers, Dr. C. C. Scott as president, Miss Dorothy Thompson as secretary, and Mr. C. O. Dean as treasurer.

Scottish Shop Steward Movement Gaining

The quarterly Stewards meets-
ting was held last night and the first meeting following the death of a local shop steward was held.

Gordon Brown, the new shop steward, was elected by the left by 13 votes, out of 281.

NEW GROUP FORMED

Butler and Sons, a newly formed grocer and meat wholesaler, has just set up shop in the area. The new group, led by John Brown, a former shop steward, has a strong emphasis on community relations and workers' rights.

The level of trade union activity in Great Britain is quite high at the moment, with a number of strikes taking place across the country.

AMGOT IRON FIRST OF IMPERIALISM

Lord Rennell of Rodd, the head of the Allied Military Government in Occupied Territories (for Sicily is a big British Barclays, with the usual Oxford degree, and a very few friends of the Allies. His views should have always been considered as quite sympathetic to the Italian regime, particularly since he numbered many Fascists among his Russian, German, and the German leaders after they retire to live in their numerous mansions in Paris. Lord Rennell is in charge of bringing "democracy" to the Italians.

One wonders whether the last experiment with "democracy" will be as successful as the previous ones in Italy. Unlike the Stalinists, who have learned little or nothing, the Allies understand that "democracy" has outlived its usefulness and that it is time to discard it. The Allies can keep things "stable" in the occupied countries. Darlan, in a recent interview in London, said that it is his opinion that "National Socialism" (Nazism), as he himself stated recently in Canada. And Badoglio (or Graziani), or some other Fascist military governors, can be in charge. In the Allies to tame and control with force of arms the natural aspiration of the Italian people for freedom and peace, in the Allied countries to keep the peace, the Allies may either choose to permit a "democratic" regime to develop in the short term or to force a more totalitarian regime on the Italians. The American and British military operations thus become major pivots in the defense of the Italian revolution. They must make it clear to their own masters, and they must give aid to the Italian revolution by opening the doors of the country to the revolutionaries from the United States.

RED ARMY WILL AID WORKERS

The Red Army will be present in the present events. Despite Stalinism and its reactionary position of support for the workers in the 1917 revolution, the support of government the Allies wish to impose upon it. In order to keep their influence with the workers class, the Allies have to do their utmost to keep the Red Army, and must demand a "labor" capitalist governments. In the long run, the conflict between the classes will continue until a new balance is struck. But Stalinism will continue to act as a barrier to the revolution. It will aid imperialism by trying to smash the Italian revolution. It will try to destroy the Italian revolution with the aid of the "nationalists and" and the bourgeoisie. The Italian revolution will be doomed. A new party is necessary to struggle against the reactionary agents of capitalism and their "democratic" allies. The latest, biggest immediate danger in Italy is not Fascism but Bourgeois Democracy with its demagoguery and its smokes. All the revolutions since 1917 have proven that without such a party victory is impossible. In this historic moment the Party is indispensable.

BUILD A NEW PARTY

1st—And finally—but by far most important—the workers of Italy, with the aid of workers elsewhere in the world, must form a new party. The new party, based on the principles of Marx and Lenin, to be the vanguard of the working class, the party of the "democrats" and nationalist. Without such a Party—section of a New Fourth (Communist) International. The Italian Revolution will be doomed. A new Party is necessary to struggle against the reactionary agents of capitalism and their "democratic" allies. The latest, biggest immediate danger in Italy is not Fascism but Bourgeois Democracy with its demagoguery and its smokes. All the revolutions since 1917 have proven that without such a party victory is impossible. In this historic moment the Party is indispensable.

LONG LIVE THE PROLETARIAN REVOLUTION IN ITALY.

MAY FIGHTING WORKER BANNED

Notice has just been received from the Chicago Postal Authority that the May 1943 issue of the "Fighting Worker" has been banned in the United States. No reason has been stated. As soon as our Law Department investigation and finds the "reason" for the ban we will undertake a campaign to revocate this ruling.

The May "Fighting Worker" contained as its main "Manifesto to the working class" and called for other articles on: Wagner Prices; Price Ceilings Melt, Retaining Those That Succeed, Buying War Standards, Winning The War With Child Labor, Job and Wage Cutting, How to Toast the Dictatorship, and editorials on: America's Secret Weapon — To Quell An glo American Antigonett, Er, and Allen, and several short articles of current interest.

If you have received your May "Fighting Worker" pass it on to your friends. Organ ize a group to write protests to the Postal Service on the ban and if possible hold public meetings on this question of "Freedom of the Press.

Please send in all funds you can to help us continue our work and to ever increase our circulation.
The "People's" Warriors

Continued from Page 1

on the naive striking hunting and killed 17 and wounded over 100. Those that were not killed face death in the next days or a $500 fine!

To help Mr. Wallace carry on this "people's revolution" there must be a call to arms of the whole Central Canal.

Ricard is a hero! He escaped from a German concentration camp in Vichy France, made his way to French North Africa, and there took the name "Ricard." He carried on the "people's revolution" against both Hitler and Vichy. He is a real hero because of this fact but Mr. Roosevelt and the State Department ignored this.

Several weeks ago, Mr. Roosevelt ignored the heroic General over there in the South. They talked for several days and Mr. Roosevelt decided to let the General in on the Lend-Lease. The General then went to Canada and there made a brilliant speech in defense of the "people's Revolution." Quoth he, to the assembled news reporters: "German Nationalism (Nazism) has made some magnificent accomplishments. There is no doubt that the party that has on the job." This statement, of course, was made for misinterpretation, and any way reflecting upon his ability to be one of the leaders of this "people's revolution."

On the home front the "people's revolution" is being carried along nicely—for some people. The following facts gives a good idea of the real picture in the "people's revolution": 1. The Government is spending millions of dollars in the fabulous rich oil wells in the Northwest to secure the loyalty of the Navy Knox to defend the Standard Oil Robbers. 2. They go on jail. Aluminum Corporation (Mall's) (playing hit with the help of Jesse Jones, Secretary of Commerce), has been given a near little sixty-eight million dollars

WASHINGTON, D.C. the police had nothing against the "people's revolution," because of complaints in the neighborhood of robbery. These were all made up by the attorney and were not verified by the police. The charge of disorderly conduct was dismissed.

CONDITIONS AND CORRUPTION IN CHICAGO

TO INJURE INSIDE JAIL

In conclusion I'd like to say a few words in which I don't think exists that it was the Stanton Avenue station.

To call that station the south side's "black hole of Calcutta" is no exaggeration. There are few filthy dark cells, littered with the refuse of previous occupants. The doorknobs are built to hold two or three tins but on Saturday night from one to five or six men crowded into one cell. The two bunches that run parallel with the sides of the cell. There are three flights of stairs. They are filled with extremely prosperous and fat bed bugs. The police will complain of being overrun with lice, but the drinking water has nothing to do with the lice. There is no drinking water has nothing to do with the lice. There is no drinking water, but there are some rusty almon tin dripers to be used. We were fed three bolgona sandwich, two pieces of bread, a little cake, and with no drink of any kind. The bolgona is so sour and smelly and of each Ergo, and the prisoners simply threw it away excepting those who were desperate hungry. To get any other food one depended upon relatives to bring it in or had to pay the turnkey from fifty to seventy-five percent more than the actual cost of the food, depending upon the size of the meal and the prisoner's possession. In order to see a visitor who bring some food the prisoners have to ask permission which is worth to me. I offered him a carload of chicken. This is the law.

Friends who spoke to the day Snareport were advised by him not to talk to the prisoners. He said, "No one who knew the right people, you cannot talk to the people." I then talked to the arresting officer. If they understand this business of the police did not come to see me. From that day, by the good graces of the policemen who made the arrest, they were not able to get help. We used to get help from time to time, they might have been matters of weeks before I could be released.

Mr. Churchill—Answer This!

REPRINT OF A LETTER

Following are excerpts from a letter by a British "flight-Senator", Winston Churchill, as published by the New York Times on page 4:

"Mr. Churchill—what am I fighting for? I have listened to attacks against me. I have not seen in them an answer to the question. I believe that the fighter is not alone—that Hitler, and all be repe- riences of aggression, are alone. Just as fascism is a menace to the existence of mankind, so is im-
