U.A.W. Delegates Can Turn Labor's Defeats Into Victory!

Convention Decisions Hold Key to Labor's Future

One of the most militant groups of workers in the history of American trade unionism meets in Buffalo on October 1st and 2nd for a biennial convention of its members. Most of them direct the plants, at whose sessions, congregated at that time to hold another Convention of the United Automobile Workers, CIO.

It is no exaggeration to say that this convention holds within itself the seeds from which the future of the labor movement will be determined. The delegates of the UAW are the people who will make the decisions that will affect the lives of millions of workers. They are the leaders of the labor movement and the key to its future.

The eastern regional conference of the UAW went on record to resolve the no-strike pledge. The Michigan state CIO council indicated the opposition of the auto locals to any attempts by the automobile industry to bring pressure on the union. The decision of the Michigan council is significant because it represents the views of workers in a key industry that has been at the forefront of the labor movement.

UNION HAS SAME TASKS

Seven years ago, 25,000 copies of this paper, THE FIGHTING WORKER, were distributed at the Cadillac Square demonstration urging a General Strike for the Closed Shop and 30-hour week. At that time Ford was still profiting from his exploitation of workers in the United States and the international working-class movement was one of the most militant in history.

BADOLGIO SURRENDERED TO THOROTTE ITALIAN REVOLUTION

ITALY'S SURRENDER TO THE Allies is the result not so much of Allied "victories" as of the long-planned fascist defacto and revolutionary actions of the Italian working masses. Fascism's foundation was laid in the increased demands of the working classes, strikes and mass hostility often in the face of the imperialist government in Rome, the "victory" of the Allies would be false in the Italian working class. In the face of proletarian revolution Badoglio withdraws the Allied imperialists; just as the French capitalists opened the door for the German imperialists when the French masses became a threat to their system. Fascists will now, as a result of the Allied "victory," be able to move the Italian boot, the disillusionment of the workers, and the revolutionary fighting spirit of the Italian boot. It is imperialism both as far as the Axis and the Anglo-American bloc. The Italian government and its "freedom and liberty" is "a smoke screen of imperialism and reaction. The new currency in Italy, for instance, is exactly like the new currency in the Americas and Italy's economic decay cannot be patched up.

The Wadsworth Bill Mass Action Grows In Kelly Defense

(Continued From Page 1)

1941 capitalism has been in a state of crisis and depression down within general crisis. Like every other commodity, labor can be bought and sold through fluctuations in price, according to the laws of supply and demand, without regard to the actual value of the human being. It is this process that has brought the Wadsworth bill and one of the leading capitalists behind it, Norden, to apply it.

DRIVING THE PRICE DOWN

When the crisis of 1929-1934 struck, labor lost its monopoly powers, and the capitalist class, seeing a chance to reduce labor’s power, together with a desperate character and very high caliber. Every appropriation of power which can be gained, every effort of the employed to maintain the labor market, forms the basis on which labor, in the capitalist system, is purchased at the cost of “blood, sweat, and tears” of the workers.

The Wadsworth bill passed by our own government, with the deliberate intention of destroying the organized labor movement, following the example of Winston Churchill, that admirable democrat whose cigar bill alone amounts toatom bomb. The bill has been condemned by nearly everyone and we shall not discuss its details here. There is, however, the greatest demand for our commodities the purchasers of whose goods are capitalists, and from whom we must buy everything we need. So if we are not to be taken advantage of in general, the working class are united. Having maneuvered for a long time to take the sting out of the bill, the CIO has finally come in favor of it.

Our answer must be emphatic: no! The bill must be defeated, not by an open repudiation of the CIO, but by the whole working class must be aroused to the importance of this, that and Rockefeller on Capitol Hill. We must demand that the terms of the day of passage of the bill is going to meet with general support. A new and different type of labor leadership is needed is found today in the American Worker

KELLY SENT TO VA. JAIL

WHERE CASE IS STILL

Litigation.

Richmond, Va.—(Special correspondent to the “Fighting Worker,” Carlotta Lee).

In my first article on the Kelly case I stated that the entire structure of justice in Virginia was hopped to the Virginia Supreme Court of Appeals. This, in turn, had not sustained the depth of class justice. A few weeks ago Justice Samuel Kelly was remanded to the Virginia Supreme Court of Appeals by the State Supreme Court.

This although his petition for rehearing in the Virginia Supreme Court of Appeals and the Virginia Supreme Court of Appeals. The whole tone of the meeting was very maitan, Dr. C. C. Scott, of the Kelly Committee, made the following statement, “The Kelly Committee was under the impression that the Kelly case has been considered.

Figuring this trip of legal services the closest of the meeting of your union. Bring to the attention of your shops and committees the importance of this bill. The organizations of Mauritius workers is now being considered. It is in the interests of the working class.

PEOPLE LEADER BIGGEST OBSTACLE

On such a program the working class can recover from the defeats of the past, and work for the biggest obstacle in their path in their present leadership. Rumor has it that Willard C.W. Smith, the President of the UAW-CIO has the largest organized centers of the working class. Smith will go along with R. J. Thomas, however, as he has done for many years. The difference between Smith and Thomas is very slight, except for the fact that Smith is a much more capable public speaker. As such Arthur and Franklin have been constant, I have not yet been rubber stamp men for Philip Murray, and his policies.

No, the auto workers can expect nothing from their present leadership. The leadership of the auto workers must change radically. The rank and file cannot expect that one men, but people with militant programs. The rank and file must make great steps forward only through a Shop Steward organization, based on the union and to make a deal. Murray’s car and file must now reestablish the labor’s traditional rights and spirit, its militant character, and its independence.

POLITICAL ACTION

One other demand of the auto workers. Faced with dire economic problems the rank and file will try to take a progressive economic program. The leadership and other forces in the CIO will try to take the steam out of this rank and file desire by proposing “political action,” either of the Sidney Hillman type, or the Labor Party type.

THE LABOR PARTY

The other program of the CIO, its program in the Trade Unions—is much more dangerous. A Labor Party will be sure to lead all the workers down a blind alley. It is a reformist party of capitalism, based on the labor

LOCAL JUDGE CONSIDERED

Passed buck.

Promptly Mr. E. A. Norrell, senior judge of the Richmond circuit court for Kelly presented a petition for habeas corpus and was turned over to Circuit Court Judge Julian Gunn of the Circuit Court of Richmond, asking that Kelly be released on bail while his case was pending before the Virginia Supreme Court of Appeals. The judge stated that although there was no indication that it was to be the Supreme Court of Appeals, it was presented to the Supreme Court within the next few days.

MASS ACTION GROWS

But the victory of the local labor class and its judicial tools has led to a vast expansion of the Kelly defense. Workers and negro people. Negro people and negro people. A large mass meeting was held at the headquarters of the Kelly Defense Committee at the Fifth Street Baptist Church. The whole tone of the meeting was very militant. Dr. C. C. Scott, of the Kelly Committee, made the following statement, "The Kelly Committee was under the impression that the Kelly case has been considered.

lieutenants of capital in Labor’s ranks. Can Phil Murray, R. J. Thomas, John Lewis, and Bill Green serve us better than Willard C.W. Smith? The union leaders, as heads of the Trade Unions? Obviously they will continue to work for the most gradual and same reactionary agencies of the capitalist state which have plagued us for many years.

WORKER’S PROBLEMS AND PROGRAM

The working class needs political action, but not of the reformist type. The CIO and the UAW-CIO have the program outlined above is only a partial program to solve the problems of the working class. Unemployment, crises of capital and the other problems facing the working class.

Even strong trade Unions based on a class struggle can not overcome the difficulties, lighten the burden. The only solution to our long term problems lies in the overthrow of capitalism and its wars and unemployable demands, that is, only by political revolution in the world.

For that we need a Revolutionary Marxist Party, not a Labor Party. For that we need the CIO to break with the discredited situation under a Workers Council Government.

But the CIO with all its faults and all its mistakes has many pitfalls and many shrewd maneuvers by the leadership. It must not fall into nice-sounding traps, parliamentary maneuvers and misdirections.

It can rely on independent workers action, nothing else.

RESIGN THE NO STRIKE PLEDGE.

INDEPENDENT WORKERS ACTION TO ESTABLISH THE CLOSED SHOP AND THE THIRTY HOUR WEEK.

FOR A NATIONAL SHOP STEWARD MOVEMENT BASED ON RANK AND FILE INITIATIVES ON THE WHOLE, WHETHER IN THE AFL, IAM, OR CIO.
The unconditional surrender pledge of Roosevelt and Churchill at the Casablanca conference and Stalin's concept, are something more than military formulas to be used against the Axis. It is a counterpart to the Anglo-American position on the "Second Front." The liberal and non-Marxian radicals have fallen into the trap of the "second front" as a purely military plan and all the others are that they have accepted also the "unconditional surrender" position in the same light.

When the R.W.I. first exposed the "Second Front" position, counterposed to it is a revolutionary front of the "Second Front" and the attempt to make it dynamic involved. But since the nuclear crisis in France and the invasion of North Africa, and the intervention of the United Nations with the powers more interested in the possession, more persons are at least aware of the correctness of the "Second Front" position, with the primary aim of the Second Front is primarily aimed at the digger of a SOCIAL revolution in Europe and only secondarily as military strategy against the Axis.

THE COMPROMISE WITH AXIS BUT NOT WITH WORKERS

The Anglo-American imperialists have now filled the formula surrender with the same socialist content. The average person on the street thinks the "unconditional surrender" demand is aimed at theAxis. The manipulation of the United Nations with the powers more interested in the possession, more persons are at least aware of the correctness of the "Second Front" position, with the primary aim of the Second Front is primarily aimed at the digger of a SOCIAL revolution in Europe and only secondarily as military strategy against the Axis.

"UNCONDITIONAL SURRENDER," you see it has many meanings. It is a military formula, a blow by the Axis power to the Socialist that the Second Front will be used to the Axis, a blow by the fascist imperialists to ensure that the Second Front will be used by the Axis to smash the growing European revolution and the Russian strongman (though warped) of the World Revolution.

"RUSSIA CANNOT GIVE UP TERRITORY"

In the light of all this, can there be a "separate peace"? A few things are obvious from the outset.
First of all (at the present moment) Russia cannot make a "separate peace"! Unless a "separate peace" can be made at the cost of the capitalist states, Russia's material wealth is NOT mortal. Russia is not in Germany, nor in the black market in auto plants in the United States; she has exceedingly little capital exported abroad. She has so capitalists who do nothing more than sit in the "thrones of large English capitalists," it is because of the fact that they belong to the same international cartels. Loss of territory is an absolute loss of value that cannot be made up. There is a real loss, because Stalin would be the end of Hitlerism. "What possibilities for a "separate peace" exist therefore?"

If Germany were threatened by Social Revolution, would they try to make peace with Russia first or with the Second Front? Certainly the Second Front is the ideal solution. The new capitalist imperialism, no matter what its political color may be, is unable to hold in check with any socialist revolution, the Allied imperialists under the formula of "second front" and under the formula of "unconditional surrender." The United Nations could not possibly agree to a bad peace with the Soviets, dual power or the Soviet Power, whichever the case.

"Unconditional surrender" has its two sides just like the Second Front theory. It is a political-military formula, in order to develop social revolution, and also aimed at the Anglo-American. When we say, the Axis imperialists, we do not refer to Fascists, because present day history has plenty easy examples of the Roosevelt regime doing business with Fascists, and with Fascist leaders who are preparing to take over.

In Italy, at this stage both aspects of the formula would be negative. Germany could not logically carry out the pledge, and the Second Front would both be a means to defeat the social revolution. Therefore the formula "Second Front" will take direct military and political action of their own to try to smash the Proletarian Revolution.

What then, is all the Stalinist talk? Why does Pravda take the interest in the "fortress Europe?"

"THAT CHANGING LINE OF STALIN"

Inside the Soviet Union today there must be considerable chaos. Stalin has "sold" the population on the idea that he would get aid from the Allied imperialists. His self-made, self-conceived and now world-recognized Stalinist-minded population on the idea that it was possible to have an alliance with Imperialism.

But the experience of the masses has been very bad. While the Soviet workers died and starved, England and America were engaged in one of the most profligate wars in the history of Russia. In reality the Stalinist regime becomes more and more engulfed in bourgeois political power. It is more and more isolated, it is more and more at the mercy of the imperialist powers—both the Allies and Germany.

The "independent role" of the "independent threats of separate peace" are only so much camouflage. Subsequent to the imperialists was decided on long, long ago. As far as Stalinism is concerned these chains are unbreakable.

The "Fortress Europe" of the Soviet Union lies in that of the October Revolution. The Workers State can make peace withenery Imperialist power, without being destroyed, without facing a new counter-revolution. The only kind of peace that the Soviet Union can make is with the SOVIET Germany, or a SOVIET America. No other.

INTERNATIONAL NEWS

Bulletin of the Provisional International Contact Commission
September Issue: The Underground Movement and the Class Struggle
October Issue: Labor Party, Rampant of Dying Capitalism, and neutral countries have felt the blow. Yet this is still the first stage, only the beginning.

The wave of rumors of the offensive dynamic moves, the Nazi-Soviet rapprochement and the German occupation of Russia, fear of an Allied invasion and even more a social upheaval under the stress of the war.

MASS UNEARTH GROWING

But there are these rumors, Intensification of Greek resistance, Yugoslav guerrilla activity, Norwegian and French resistance movements. It shows that the military and its front is founded upon a foundation whose economic, social and political pillars are cracking under the strain.

Little Denmark provides a clear picture of what is going on. In spite of the collaborationist government, sabotage from below has grown to larger and larger proportions. The Cabinet and Christian X stood in danger of losing their hold on the population. To have submitted to the German ultimatum would have destroyed that hold completely and tied the Danish ruling class to a weakening Germany in the face of growing Allied might.

Instead, put on the spot and forced to make the capitalist government responsible, the non-socialist, non-Fascist, non-Communist, popular socialist, who a few weeks ago, the Nazi-Soviet rapprochement and the German occupation of Russia, fear of an Allied invasion and even more a social upheaval under the stress of the war.

The stretcher that swept every large city in Denmark gives evidence of the powerful hostility deep within the mass, the working class and the neutral countries. But the Allied journalism which attempts to portray this as simply a democratic-pro-British sentiment is the greatest possible truth. The patrolman combustion of the present strikes is unmistakable, their revolutionary spirit will become clearer as the war goes on.

"FALSE HOPE OF REVOLUTION"
The war will bring more results, sharper, deeper, wider and larger. The stage is set and ready for them. American and British Imperialism know this also, only too well. The preparing of theSocial Revolution is far broader. The larger they are, the clearer is the so-called "second front," the invasion of the Continents. But in relation to the military purpose of defeating Germany, the second front will have another and even more important purpose—to destroy the Allies and revolutionize the world, to starve and crush them, to take all the food and supplies, and to smash and crush whatever they cannot buy off. The revolutionary forces are gaining, but they will suffer a terrific setback if they mistake foe for friend, if they allow American and British Imperialism to shackle and to attempt them in the name of fighting Germany.
Progressive Program Wins In Buick Local 5

Nine of eleven candidates for delegates to the Auto Workers CIO Convention, running on a program of "rescind the no-strike clause and to get representation elected at the large Buick Plant and Oldsmobile Plant in Milford Michigan" were elected last August, the local boys made them- selves very plain.

The government is the only way to handle the race question... "We must be prepared to take up the mixing of our races in our schools, churches and dwelling places." At this point he addresses a New York Republican spokesman for "democracy and the New York Times" that "South Carolina was fully able to take care of the care of the question without outside interference; that the white people of his state had successfully run this government for generations and that we intend to run it as well."
