Avoid the Errors of the Paris Commune

Senator Barkley, in condemnating Roosevelt's veto of the revenue bill, has shocked the bourgeois democratic leaders of the United States. The American bourgeoisie's representative in the Congress has also been condemned by the big boys himself.

Naturally the pro-Administration leaders have been left with all the responsibility. What will happen to the anti-Administration leaders, especially to the leaders of the Socialist Party?

We must be prepared for the struggle that is to follow this decision. We must be prepared for theサンプルからの部分的な翻訳内容を抽出するための指示が与えられていません。
Workers of the World

AMG and their prime ministers will only cease once they have thrown the power in Italy. The same is true for the "Government of the Italian Social Republic," Mussolini's outfit for Northern Italy. Although the Italian Revolution is not yet completed, its potential revolutionary consequences are a constant threat. Factories, councils formed after Mussolini's downfall, have been maintained and the government is taking ever greater efforts to hold on to the factories, even at the price of despotism.

ITALY IN FERMENT

The situation is much less clear in Berlin. The strike on December 11, for example, was a major step towards a general strike. The workers in Berlin, in Milan, in Turin, Genoa, Milan, Novara and Alessandria, after constant struggles between bosses and workers, the Wehrmacht finally entered flat Coronado, where the workers have been able to control the plant, and of which solves absolutely nothing, price have gone up from 200 per cent to 700 per cent.

Even though their immediate demands are mainly economic, the Italian workers know that their fight is much vaster. Together with the French workers, in Baustelle, with the Italian soldiers, they form the backbone of the Italian side of the movement. It recognizes "with criticism" the authority of the French Liberation Committees and Mussolini, and is not opposed to the Axis imperialism. Its most active and largest elements are the Stalinist or "national Communist" groups.

To these workers, the term "Trotskyite" is used in the same sense as was "Communist" in France, and as "opportunist" in high society, when it was still a "spectacular Haunting, the spectre of Communism.

FRAZERINIZATION AT THE FRONT

On the Italian front, the German and Allied armies arranged a local truce for several hours to allow both sides to evacuate their wounded. This is the first news of such incidents in this war, although this was frequently the case in the Civil War. In that respect, the Italian situation is not unlike the situation in Spain in the last years of the Civil War. Having UNRRA go to Italy to help "rebuid" that country prepare for the American way to take over the exploitation of the Italian people.

JAPAN HAS TWO CLASSES, TOO

Japan's success is entirely due to U. S. materials, says Masa Masaaki, a Japanese professor of economics. However, the success of the South is a great blow to the American and Australian-controlled colonists, and imperialist ambitions is trying to get Japan included among the countries that UNRRA (United Nations Relief and Rehabilitation Administration) has been trying to include. Japan, officially has only one voice, it is financially the strongest and most dominant power, and UNRRA in the last years of the war.

The Japanese people have a feeling that the great U. S. was supplying Japan with all the gasoline, oil, and materials they needed to continue the war that they believe was fought against the Allied powers. The U. S., however, recently is starting to cut back the supplies, and despite lack of leadership and strong union, there was a general strike which resulted in an appreciable lowering of hours. At one stage the Japanese workers were on strike for the first time on the American war.

The following year, after the war with the U. S. had started, there were additional changes in the Japanese economy.

The Japanese workers and peasants, like the oppressed elsewhere, have stomachs and minds that react to hunger, long hours, and what has been called "moral pollution" caused by much publicized short-term gains, the workers of Japan practice mass action.

NATIVE RIGHTS

When Robert Chaikus, a Negro from Trinidad, asked for a work permit at the Pass Office in Johannesburg, the two white clerks refused it, taunting him, "What right have you to come here?" Chaikus insisted on his right to work in Johannesburg, so they took him into the next room and tried to hang him. The clerks were arrested and charged with assault, but the judge threw out the case because Chaikus was not free to slave for a starvation pay. He has to come from the same province and then he has to beg the British administration for a work permit.

FOOD FOR INDIA

Great Britain's dominance of India is being threatened with a new generation. Economic boycotts are under way, and if successful, could lead to a full-scale political revolution. The British, who have been in control of India for over a century, are beginning to feel the effects of this new movement. In December, the British press was outraged when the British government refused to grant India a large loan. The Indian leaders were then forced to resort to the extreme measure of refusing to pay taxes, which led to a massive strike.

The British government was forced to give in, and the Indian leaders were able to negotiate a settlement. This settlement was a clear victory for the Indian people, and a clear sign of the growing strength of the Indian movement. The British government was forced to recognize the right of the Indian people to self-determination, and to grant India independence. This was a clear victory for the Indian people, and a clear sign of the growing strength of the Indian movement.

Japanese Atrocities

"If the morality of America has sunk so low it requires this kind of propaganda (the stories of atrocities in Japaneseoccupied territories) we should be fighting for our boys are fighting for." This is the statement of Dr. Slepiany, president of a Batavian relief organization in Alhambra, and father of a soldier who died in a Japanese prison camp.

Lieutenant-Governor Jones, of New Mexico, which has more men captured in Bataan than any other state in the Union proportionately, stated that he, too, could not believe the stories.

On the heels of the atrocity reports, Secretary Morgenthau reported that bond sales skyrocketed. In Chicago they bought. In New York they sold. And buying was "spirtied" in Washington and other cities.

Are the stories true? Did Japanese guards beat, starve and murder Swiss in Java?

Atrocities stories are as old as war itself. Most of them are not true. The present situation is not to be true; probably only a portion of it has any truth. But the important thing is that THE WHOLE WORLD has to be prepared against these brutalities, murder, starvation, and imprisonment by the Japanese.

It is astounding that the question of these allegations will be atrocities on all sides. Each side builds up the stories and uses them for their own purposes. Revolutionaries can use them to excite the people, and patriots to undermine the Japanese government and the Jewish proletariat behind them—IMPERIALISM WAR ITSELF.

One thing should be clear: there are no atrocities which can be traced to Japanese imperialism to a notoriety in the capitalist world. To do that she must nurture a propaganda against the Japanese, the Chinese, the sub-human, monstrosities. But the Japanese, like the rest of the human family, is also divided into its fair proportion of savages and not so savage, and strikes and fights parties back against the tyranny of its Mitsuji and Mushibashi rulers. The same in case, as workers of other lands fight against their oppressors.

Whenever glaring atrocity stories appear, a political motive is hidden behind them. They are aimed at the good feeling and hatred. But never will the capitalists publish the biggest atrocity story of all—that the imperialism of the capitalists powers was the greatest atrocity.

NEW ‘AUTONOMY’ DIVIDES STRENGTH OF SOVIET UNION

(Continued from page 1)

The SOVIET - FINNISH 'PEACE' PLANS

February 14, 1944. If peace rumors between Finland and the Soviet Union develop into a living reality, workers everywhere should watch closely the role of the United States in the action.

Finland is one of the doors into the Workers' State. Today the northern door is closed by the Dardanelles as in the south. We should remember that Germany tried to keep that door as far as ajor as possible open. "Peace" be in a small sense the word of the U.S.S.R. and Finland which kept Finland almost intact, except for a small portion in the south, with territory in Karelia. As a result of German (and American) pressure, the vital nickel mines in the north and other important territories were badly hit by resistant Finns. Only a few months later Germany attempted to utilize Finland to open the way to China. This effort failed—the small territorial gains were sufficient to absorb the Finnish and German advance and check it.

The main reason is that Finland has never been a nation, but is divided into two nations. One is the German nation, and the other the Russian nation. The former is in the north, and the latter in the south. The U.S.S.R. undoubtedly had ideas of her own relative to Finns.

Will the farce of 1940 be repeated? Roosevelt will certainly attempt to limit Russia's territorial gains with the "four freedoms," "self-determination," "no territorial aggression," the Atlantic Charter, etc. Roosevelt's words, however, are merely the premonition, of plans for an attack against the future Revolu-

The Finnish Social-Democrats who evolved such great sympathy from the American liberals, reformers and even the Socialists, have plotted to establish a false "peace" by behind this attack there exists the REAL imperialism of the Soviet Union's present allies, and the "real peace" there existed the REAL war aims of German imperialism.

WHAT THE SHOOTING IS ALL ABOUT

(continued from page 1)

The World War is a war for the 'hre' and the 'h-a-ree-pot' nation. It is important to note and easily understood. They have present their required favorable position through clear, unadulterated, and free of the 'h-a-re-ma' are merely attempting to get out of it. The new world order, to attempt to make a moral issue out of this is sheer hypocrisies. 

The new world order is the new world order, and the new world order is the new world order. The new world order is the new world order. The new world order is the new world order. The new world order is the new world order.
