COMMUNISM OR FASCISM

There is No Other Choice

Allied capitalism has had to go to great lengths to shake its guilt for more markets as a holy crusade for righteousness. It has had to conceal its true war aims so that death could be more palatable for the “lives” of this generation of the “surviving.” And fascist factions in order to blind our own working class to the fascist methods which are being daily utilized and legalized on the home front. Hence the so-called “war against fascism”, a war for the “four freedoms” for the “Atlantic Charter” for democracy and liberalism — all of which sounds very sincere and noble. But is it really another other hoax, completely false in fact and untrue in purpose.

It was Hitler who said the much hated term “national Kampf” should hold to be made so big that it would be believed in the face of incontrovertible facts. Undoubtedly Hitler has been the master of this mangling trick to maintain deception within Germany, (many German pages have been giving evidence of this). The NA Fascists are also being run by the elite of the S1 Guards. But Hitler is not alone in his use of this method. **Programmatic Highlights**

1. Against the imperialist war — a war for plunder, expansion, and spheres of influence.
2. For the Proletarian Revolution which alone will end imperialist war and defeat fascism.
3. For a New Front in Europe.
4. Against a Labor Party and all other forms of Popular Frontism.
5. For a full and unconditional independence for the Philippines and all other territories of the United States, including the Hawaiian Islands and Alaska now occupied by American military forces. For the right of self-determination of all peoples.
6. For the defense of the Soviet Union against World Imperialism and Stalinism. Extend the October Revolution to all countries: Germany, Russia to reestablish Workers Democracy and elections toward Socialism and the Council Government in the United States and all over the world.

**Stalin's Speech**

On the 7th anniversary of the Russian Revolution and in the midst of the second world-wide imperialist war Stalin delivered a speech on the state of the nation and the October Revolution.

The speech is composed of many words, but says nothing. Absolutely nothing about the real and hidden conditions of the country, nothing about the State of Russia, nothing about the real interests of the Soviet masses and the workers present on this floor. Nothing is said about the October Revolution. No dreams, no apathy, no Bolshevism, no depression, no passion; never discussed, not even a hint.

Nothing is said about the character of the present war. It is an imperialist war, fought by the Allies, the U.S. and the United States, to keep the Soviet Union from becoming a power by the military intervention of the world.

But why should this be incredible? Did not the Allies PERMIT Hitler to build the strongest army in the world, primarily in order to attack the Soviet Union? In 1929 or 1930, if the French and Britishущ. could have had the Dubnowska with almost no effort at all, in particular, in the Baltic zone, it is just that it might not "join the league of the nations". Why? Because Hitler promised them he would go to find the "third Reich" against the Soviet Union.!

At that time the American and British bourgeois press censured the Soviet Union from here to Kingdom Come. Today, however, these papers try to cover up the fact that they actually supported the Soviet Union, ATTACKED the Soviet Union.

The memory of man is sometimes very short. A few years ago everyone was hating Nazism and Hitler. Now they do not discuss the "partnership" with Stalin. The Revolutionary Workers League, at the time pointed to the basic antagonism between the two imperialist blocs. The anti-Soviet policy is to lay the foundations of a new world war.

---

**Defend S. U. with New October Revolution**

The signs of an eventual attack against the Soviet Union by the imperialist bloc could only be seen from the air. There is no unity at Dom- burton Osaka or the monetary conference. Friction over the question of the sale of arms to China, Japan, and even Papanhans in Greece are cracking down on the Stalinism of the imperialists. It is a question of establishing the Soviet Union. The former Ambassador Bullitt writes an article for Life calling for "the Cuban war". The new "Bullit" is a close friend of Roosevelt and recently had his support for Mayorcy in Philadelphia. The Soviet government refuses to permit the American "reform and rehabilitation" organization into Russian occupied territory. American correspondents are kept out of that territory, too.

The Stalinist policy of "playing off one imperialist power against another" is then leading to a final debacle. The "peace"-lovers of the Third International have planned to place an iron wall around Germany, thus protecting the Soviet Union from attack. The Hitler, however, attached anyway. The Stalinist policy was to play the game of World War I.

But it failed too. The Wehrmacht penetrated all the way to the Elbe-Staldalag. The Second World War may have a small respite by the part, but what last war was a war for peace? At least the Second World War was a war for the destruction of the imperialists. The masses were on the verge of Revolution. The big apparatus of the Third International — if it had adhered to an IN- TERNATIONAL line — would undeniably have been able to develop that movement into a general Revolution.

The idea that "the umbrella of ALI Imperialists, that had postponed the war. Now Stalin has a pact with the Anglo-American imperialists the revolution is being crushed" is entirely false. The whole war is a war for the destruction of the imperialists, the destruction of the imperialists, the revolution is being crushed. Not fas- cism, but the Allied forces are taking the place of the imperialists.

Not once has Stalin been heard that he would support the social revolution in any of those countries. On the con- trary, in those countries now occupied by the Anglo-American imperialists the revolution is being crushed, Not fas- cism, but the Allies are taking the place of the imperialists.

The only thing Stalin said for the countless millions of oppressed in Asia is the fact that Japan was an aggressor against China and the rest of Asia. None of the Imperialists of China and Asia. No, an aggressor nation against United States, Japan, and the rest of the imperialists of the Orient! Is even worse than how Green, Murray or Lewis handle the problem. Even Wilkie does not dare to present.

The Stalinists may defend their "leader" claiming that he is ruling for socialism. But the peoples in Africa and Asia are not feeling the imperialists. They are only feeling and living to the working class and peasants. They are dism- inishing in advance the only effective allies, the real allies of the Soviet Union, of a socialist economy — the proletariat.
The 2nd Imperialist War
FROM BOSS WAR TO WORKERS WAR

ANALYSIS OF 2 YEARS OF THE IMPERIALIST WAR
(December 7, 1940)

The duration of the war is already two years. The war is in full swing, and the British bourgeoisie is already in a panic. The war is no longer a war of prestige; it is a war for the destruction of the capitalist system. The war is a war of annihilation of the bourgeoisie, and the bourgeoisie is beginning to lose its nerve. The war is a war of annihilation, and the bourgeoisie is beginning to lose its nerve. The war is a war of annihilation, and the bourgeoisie is beginning to lose its nerve.

WORKERS ORGANIZE

The war has been waged against the working class. The bourgeoisie is the enemy of the working class. The working class is the enemy of the bourgeoisie. The working class is the enemy of the bourgeoisie. The working class is the enemy of the bourgeoisie.

NEGOTIATED PEACE

A negotiated peace between the Kominist and Japanese imperialists was a possibility. The Chinese masses, now fighting for their livelihood, were not prepared to accept a negotiated peace between the two sides.
